

For broad-spectrum control of crawling, flying and, wood-infesting insect pests in and around animal housing, warehouses, and processing and packing plants.

- ✓ Provides effective knockdown and residual control
- ✓ For use in and around buildings and structures
- ✓ Controls over 60 listed pests

- For indoor and outdoor use.
- Use as a general surface, spot, mist, or crack and crevice spray.
- Will not stain or cause damage where water alone causes no damage.

Shake well before using.

ACTIVE INGREDIENT:

Beta-cyfluthrin [CAS No. 68359-37-5] 11.8%

OTHER INGREDIENTS: 88.2%

TOTAL 100.0%

Contains 1 lb Beta-cyfluthrin per gallon.

STOP—Read the label before use.

Keep Out of Reach of Children.

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing vapors.

INDOOR PEST CONTROL CRAWLING INSECT PEST CONTROL

For **general pests** and **occasional invaders** make applications in a manner as previously described under General Surface, Spot, or Crack and Crevice Application. Particular attention should be given to treating entry points and harborage areas.

For **stored product pest control** of exposed adult and immature stages of insect pests, apply to cracks, crevices, and other surfaces where the pests have been seen or have harborage. Treat warehouses, production facilities, storage areas and other areas where products are stored before filling with the product. CyLence Ultra Premise Spray may be used by pest control operators and grain producers to treat grain storage facilities and other areas noted above for stored product pest control. Cleaning of all areas prior to use of CyLence Ultra Premise Spray will increase levels of control. Any foodstuffs infested with pests should be removed and destroyed.

For **use by pest control operators or livestock producers in livestock housing structures (including poultry houses) and pet kennels** to control crawling and flying insect pests.

Apply as a general surface and/or a crack and crevice spray. Control will be enhanced when facilities are cleaned and interior applications are supplemented with exterior perimeter treatments. Do not make interior applications of CyLence Ultra Premise Spray in areas of facility where animals are present. Do not make applications to animal feedstuffs or watering equipment.

For best results in the high alkaline environment of broiler houses due to litter content, pre-acidify mix tank water to a pH of 5.0 or less prior to mixing with water-miscible CyLence Ultra Premise Spray.

Acidifier	Rate
White vinegar	½ cup per one gallon
Citric acid	1 oz per 18 gallons
Sodium bisulfate (poultry water treatment; PWT)	1 oz per 32 gallons

FLYING INSECT PEST CONTROL (General Surface Spray)

For **control of flying insects indoors** make application to surfaces as directed under Directions For Use, where the pests collect or rest. **Do not apply as a “space spray” application.**

OUTDOOR PEST CONTROL

For **control of flying insects outdoors** use a 0.05% dilution and make applications to outside surfaces of buildings, porches, patios, garages and other areas where these pests have been

seen or found. Use a 0.05% dilution and make pin stream applications directly to the nests of wasps, yellow-jackets and hornets.

For **perimeter pest control**, make a general surface application to outside surfaces of buildings, porches, patios, garages and other adjacent areas, where pests have been seen or found. To help prevent infestations of buildings by occasional invaders, treat soil, turf or other substrates adjacent to buildings, the building foundation, walls, around doors and windows, soffit areas where these pests are active and may find entrance or harborage. Apply a minimum of 8 milliliters of CyLence Ultra Premise Spray per 1,000 sq ft in sufficient water to provide adequate coverage.

For control of the **imported red fire ant**, use a 0.05% dilution of CyLence Ultra Premise Spray and thoroughly drench or inject the entire mound area. Treat all areas of the mound showing activity to provide contact control of the adult fire ants. CyLence Ultra Premise Spray will provide contact activity and residual repellency in the active mound.

When using the injection treatment method for control of the imported red fire ant, it is essential that treatment be made to the bottom of the active mound. Apply dilution or sufficient volume of foam throughout the mound using a downward and upward motion of the injector tool. Multiple injection sites may be needed to ensure complete distribution of the suspension throughout the active mound. Do not use CyLence Ultra Premise Spray to treat fire ant mounds in any food crop production area, pasture or area where food crop production may occur.

CONTROL OF WOOD INFESTING PESTS

For control of **wood infesting beetles** on structure surfaces apply a 0.05% dilution of CyLence Ultra Premise Spray. For treatment of small areas, apply by brushing or spraying the suspension evenly on wood surfaces. For large or overhead areas, apply as a coarse spray to thoroughly cover the area. Cover all surfaces below the area being sprayed with plastic sheeting or other material which can be disposed of by placing in trash if contamination from dripping occurs. Sprayed surfaces should be avoided until the treated area is completely dry.

For control of **above ground termites and wood-infesting beetles** in localized areas apply a 0.05% dilution or sufficient volume of foam of CyLence Ultra Premise Spray to voids and galleries in damaged wood, and in spaces between wooden structural members and between the sill plate and foundation where wood is vulnerable.

Such applications for termites are not a substitute for mechanical alternation, soil treatment or foundation treatment, but are merely a supplement. For active termite infestations, get a professional inspection.

PESTS CONTROLLED BY CYLENCE ULTRA PREMISE SPRAY*					
I. INDOOR PREMISE PESTS			II. FOOD PROCESSING PESTS	IV. OUTDOOR/PERIMETER PESTS	
1. Crawling Pests	2. Flying Pests	3. Stored Product Pests	(Same crawling & flying pests, & stored product pests as for INDOOR PREMISE) and Fruitflies Phoridflies and Sciaridflies	Ants	Gnats
Ants (except Pharaoh)	Clothes moths	Beetles (exposed adults & immature stages)		Bees	Ground beetles
Bedbugs	Flies	Cadelle		Boxelder bugs	Hornets
Carpet beetles	Gnats	Cigarette		Carpenter ants	Imported red fire ants
Centipedes	Midges	Confused Flour		Cecidflies	Midges
Cockroaches	Mosquitoes	Dermestid		Centipedes	Millipedes
American	Moths	Drug-store		Clusterflies	Mosquitoes
Asian	Wasps	Granary weevil		Cockroaches	Moths
German	Yellow-jackets	Hide		Crickets	Scorpions
Oriental		Larder		Elm leaf beetle	Silverfish
brown-banded		Leather		Fire ants	Spiders
smoky brown		Lesser grain borer		Firebrats	Ticks
Crickets		Lesser mealworm		Flies	Wasps
Darkling beetles		Merchant grain		Fleas	Yellow-jackets
Earwigs		Mealworm			
Firebrats		Red flour			
Millipedes		Rice weevil			
Pillbugs		Sawtoothed grain			
Silverfish		Warehouse			
Sowbugs		Moths			
Spiders		Indian meal			
		Mediterranean flour			

*For **GENERAL SURFACE APPLICATION**, use 8 milliliters of CyLence Ultra Premise Spray per 1,000 square feet in sufficient water to adequately cover the area being treated.

*For **SPOT, CRACK AND CREVICE APPLICATIONS**, mix 8 milliliters CyLence Ultra Premise Spray in one gallon of water to make a 0.025% active ingredient concentration.

**Only for control of above-ground, winged forms of subterranean termites.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original containers and out of the reach of children, preferably in a locked storage area.

Handle and open container in a manner as to prevent spillage. If the container is leaking or material spilled for any reason or cause, carefully dam up spilled material to prevent runoff. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Absorb spilled material with absorbing type compounds and dispose of as directed for pesticides below. In spill or leak incidents, keep unauthorized people away.

Pesticide Disposal: Pesticide wastes are hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Offer for reconditioning, if appropriate. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not use container in connection with food, feed, or drinking water.

Conditions Of Sale: The directions on this label are believed to be adequate and must be followed carefully. This product has been tested under different environmental conditions

similar to those that are ordinary and customary for use of the product. However, it is impossible to eliminate all risks associated with the use of this product. Failure to follow label directions may cause injury to animals, humans and damage to the environment. Insufficient control of pests, injury or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Elanco US Inc. To the extent consistent with applicable law, all such risks shall be assumed by the user or buyer.

Limited Warranty and Limitation of Damages: Elanco US Inc. warrants that this material conforms to the chemical description on the label. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ELANCO MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL, and no agent of Elanco is authorized to make or modify any warranties beyond those contained herein. Any damages arising from breach of this warranty shall be limited to direct damages and shall not include special, incidental or consequential damages resulting from the use of handling of this product.
