HR12
Ideal for shovels, spades, rakes and brooms

HR13
Great for crews needing large quantities of similar tools

HR16
Wider for trimmers, blowers and stepladders

★★★★★ "I had all my brooms, shovels and rakes stacked up against one wall. What a mess! I hung three of these units on my wall and I freed up all that floor space while organizing my tools."
- MacPCWilliams in Raleigh, NC

HR18
Great for electric cords, hoses, loppers and shears

217725
Same as HR12, but for unfinished walls

217726
Uses less material to save you money

GEMPLERS Gempler's Original Long-Handled Tool Rack

Don't trust your shed, shop or garage organization to wimpy tool racks - get heavy-duty storing power with Gemplers Welded Steel Tool Racks

Gempler's Original Long-Handled Tool Rack accommodates brooms, shovels, extension cords, hoses, rakes and many other tools - keeping your garage or shop organized.

Handles tough enough to drive over with a truck!

Welded steel rib adds strength to the round and square point shovels

"I use this [167769] to sift screen dirt onto plant beds. Because of its strong construction it has replaced my lighter weight spade for a lot of garden work. I will have to buy the flat shovel. It would be great for moving slush and wet snow from the driveway."
 -sycon.grp

Long-Handled Shovels

Dig this - unsurpassed durability and an unconditional guarantee against breakage

Unsurpassed quality backed by a lifetime guarantee against handle breakage. It's simple, if you break the handle, we'll replace the tool. Solid wood core surrounded by a thick fiberglass outer shell. Welded steel rib on the collar adds strength.

BRENTWOOD Professional-Grade Wheelbarrows

Commercial-grade wheelbarrow handles the toughest assignments

High-quality components and construction mean these wheelbarrows will keep working hard for you—longer! Features varnished American hardwood handles, a heavy-duty, powder-coated nosepiece, front brace, rear chassis and rear stabilizing plate. Choose from extra thick, UV-stabilized, high density polyethylene or 17-ga. steel pan styles with recessed bolts for easier shoveling. Choose from a two-ply, 6\"W pneumatic turf tire with tube or a solid no-flat tire. Both styles feature a 3/4\" steel axle and sealed precision bearings for long life.

Flexible and accurate—no temperature correction necessary.

Single-Sided Fiberglass Measuring Tape

Fiberglass infused measuring tape withstands heavy use

Molded open reel is easy to grasp and ideal for rapid reeling. Metal-reinforced crank handle. Double-throat rollers guide the 1/2" W blade to prevent tape from twisting. Single-sided tape measures in ft, in, and 1/8".

Item #	Blade Length	Price
G52850	50'	\$29.99
G52810	100'	\$29.99
G52820	200'	\$74.99
G52830	300'	\$88.99

WHY FIBERGLASS TAPE?

- Non-conducting
- Flexible
- Superior accuracy

Double-Sided Fiberglass Measuring Tape

Fiberglass infused measuring tape withstands heavy use

Used in the harshest conditions in which people measure, these measuring tapes stand up to the only test that matters: field performance. Double-sided tapes measure in ft, in, and 1/8" on one side and ft, 1/10', and 1/100' on the other.

Item #	Blade Length	Price
G58105	50'	\$24.99
G58100	100'	\$40.99
G58200	200'	\$85.99
G58300	300'	\$123.99

WHY STEEL TAPE?

- Rigid and non-stretching
- Less wind drift
- Break resistant

Professional Steel Tape Measures

Get superior accuracy with this durable measuring tape designed for the rigors of outdoors

Durable design, rustproof stainless steel housing. 3/8"W Perma-Clad blade has two coats of nylon over the steel core. Metal crank and nonslip rubber grip handle provide smooth action during blade winding.

GEMPLERS **Farm Digestant**

Gemplers Farm Digestant gets rid of warm weather odors and liquefies manure naturally

NOTE: Neglected pits with large quantities of accumulated solids and/or pits that have chlorine bleach or other disinfectants regularly flushed into them will require heavier treatment programs. Most detergents and cleaners, though, will not affect Gempler's Farm Digestant. Before being introduced to the pit, Gempler's Farm Digestant must be activated by mixing in a bucket of warm water and left to sit for 20 min.

EASY TO USE:

1 Roll it out

2 Sprinkle some water and soil on top

3 Poke holes and transplant seedlings

4 Let it degrade or till into the soil

★★★★★
 "Just discovered this organic paper thumbing thru the Gempler catalog. Im real excited about this being its organic and that it can be tilled into soil at seasons end, First time used in a vegetable garden... so far so good real easy to use! Beats dealing with weeds."
 – cornerketchmark

Biodegradable Paper Weed Barrier

Controls weeds while allowing air and water to get to your plants

100% opaque weed barrier made from cellulose fibers controls weeds and warms the soil to give your plants an earlier start. Naturally porous paper eliminates weeds but allows air and water to penetrate. Can be tilled into the soil or left to degrade at the end of the season. Made from renewable resources, with no petrochemicals. Standard Weight and Heavyweight are allowed for use in organic plantings.

Know the difference!

1 HEAVY-DUTY 4-MIL VINYL
resists cracking, fading, mold and mildew

2 BETTER GLUE
helps keep flags from falling off the staff

3 HEAVIER-GAUGE WIRE STAFFS
are stronger, making installation easy

**USA★
MADE**

THE OTHER GUYS

1 Thinner-mil flags
break down more quickly

2 Low-quality glue
means more flags end up like this

3 Flimsy wire staffs
have up to 17% less steel, making installation a hassle

★★★★★ "...your vast selection of sizes and colors made me feel like I was able to get the perfect flag for my particular use. That's a good thing."
- Rick The Rocket; Warsaw, IN

Not all stake flags are created equal

Tired of your stake flags not holding up to the elements? Take a look above—the difference is unmistakable. What you need to get the job done right the first time is right here.

Promote your business with custom Stake flags

Display your business' logo and other customized information on any of our stake flags. Text can be printed in black, blue, green, orange, red, white or yellow ink. Minimum order of 1,000 stake flags required for customization. Direct orders and questions to Customer Service at 1-800-382-8473.

Blackburn® High-Visibility Outdoor-Grade Vinyl Stake Flags

These Marking Flags may look like the rest, but feature materials that beat 'em at every test

Brightly colored and visible at long distances for marking a variety of applications such as irrigation lines, utility lines, boundaries, crop rows and nursery trees. Also ideal for indicating plant positioning, soil types and spray areas. Flags are constructed of heavy-duty 4-mil vinyl and are mold and mildew resistant. Wire stakes are constructed of sturdy 15.5-ga. steel wire. PVC stakes are solid 1/8"-dia. PVC plastic for increased safety around machinery and underground utilities. Wire stake flags are packed in bundles of 100; PVC are packed in bundles of 50. All sizes and lengths available in the fluorescent and standard colors displayed.

GEMPLERS Bamboo Stakes

The natural way to stake your trees and plants

Provides durable support that's perfect for staking trees and plants. Natural, undyed color. Sustainable: Bamboo is a grass so harvesting does not kill the plant. The same bamboo plant regrows in just 3-5 years while a hardwood tree can take 120 years. Please note that these stakes are a natural product and may contain some variation in diameter throughout each stake.

Soil Compaction Tester

Find out if your tillage program is providing proper soil tilth with this Soil Compaction Tester

Portable Soil Compaction Tester increases your yields and decreases costs by identifying compaction problems quickly. Eliminates poor plant development, poor soil water management and poor nutrient disbursement by monitoring your soil compaction. Includes 1/2" and 3/4" tips included for use in firm or soft soils.

Item #	Price
SCT	\$350.49

Digital Soil Compaction Meter

Quickly evaluates soil density

Digital version of the dial penetrometer. Its 0.505" steel cone ensures years of service and its stainless-steel shaft is marked every 4" for easy depth reference. Allows all types of soil to be accurately measured without the need for changing tip sizes. In addition to providing reading in PSI or kPa, the meter also shows compaction severity with a green/yellow/red color code for easy reference.

Item #	Price
230656	\$490.49

PROTECT PLANTS AND ANIMALS

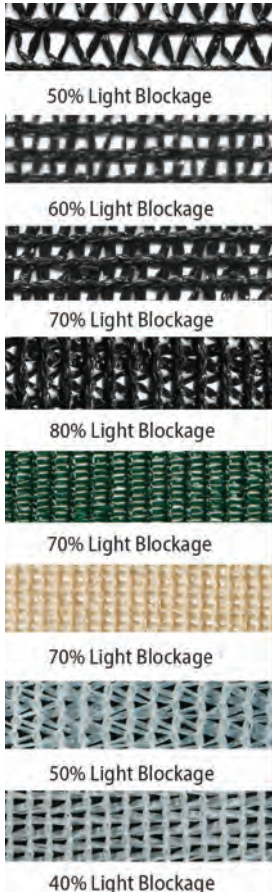

USES:

- Shade UV-sensitive plants
- Shade livestock and poultry
- Shade work areas
- Cover greenhouses
- Hail protection
- Bird netting
- Temporary fencing

BENEFITS:

- Cuts UV penetration
- Reduces moisture loss
- Protect assets from bird-related damage
- Better ventilation than woven materials
- Resists chemicals
- Light weight is easy on support structure
- Water permeable for rainfall and irrigation

Shop all styles and sizes @ gemplers.com

Knitted Shade Cloth

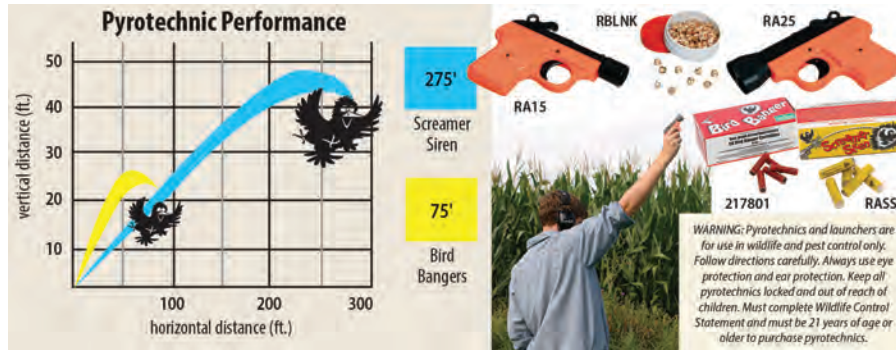

Creates a cool, shaded environment great for animals, plants & people

High-density polyethylene cloth is both effective and low cost. Reduces UV penetration, and the chemical-resistant knit material has better strength, ventilation and water permeability than woven shade barriers. 20 to 35% lighter than woven shade cloth, so it is easy to install, roll up and store. Plus, it puts less stress on the support structure. Lock-stitch knit can be cut without unraveling; does not require taping.

NOTE: Grommets sold separately, Item No. 127727 or 160360.

LP Gas Cannons

The M4 Pest Control Single-Detonation Cannon repels nuisance birds and wildlife with a loud "thunderclap"

Rugged systems deliver a harmless, "thunderclap" equivalent to a 37mm cannon (130dB). Do not require electricity or a battery to operate, but run on a 5-gal. LP cylinder (not included). Both models produce approximately 5,000 shots per 5-gal. LP cylinder. **M4 Cannon** – Fires a single detonation at a regular interval, user-set from 30 sec. to 20 min. **M8 Cannon** – Produces random single, double and triple clusters of shots at irregular intervals. Firing frequency is user-adjustable. **Optional Rotomat Revolving Platform** – Moves the cannon's direction of fire in a complete 360° rotation, about 90° at each detonation. Does not require a power source and does not consume additional LP.

Item #	Description	Price
RABRP	Rotomat Revolving Platform	\$373.49
RABM4	M4 Single Detonation Cannon	\$423.99

Deer Repellent

Prevents deer, elk and moose from bedding down, rubbing and foraging damage

Utilizes a patented mixture of pleasant-smelling oils along with egg solids that deter deer through sensory confusion instead of foul odors. USDA Certified Organic. Dries clear and will not burn plants or turf. Applications last 30 days and will not wash off in rain.

Item #	Form	Coverage	Size	Price
145514	Ready-to-Use	1,000 sq. ft.	1 qt.	\$18.99
145515	Ready-to-Use	4,000 sq. ft.	1 gal.	\$29.49

LOTSAVER™ STEPS:

1 String ribbon around perimeter area

2 Spray ribbon with deer stopper

3 Protects for 30 days per application

Plotsaver Deer Barrier System

Create a barrier around your property that deer won't want to penetrate

Unique PlotSaver system features a reusable barrier ribbon treated with PlotSaver Deer Repellent to create a powerful physical and sensory barrier that will deter deer from crossing. PlotSaver Kit comes with 840' of ribbon and 16 oz. of liquid repellent concentrate. To use, string ribbon 30" off the ground around the area to be protected, using either fence posts you already have or PlotSaver's Support Stakes and Ribbon Clips (both sold separately), and then spray ribbon with repellent. Reapply repellent approximately every 30 days. 16 oz. of concentrate will treat the 2,520' of ribbon. Additional ribbon, both regular and pre-treated, and repellent concentrate are also available separately.

Item #	Description	Price

Easy to use

Simply step on the activator to set trap

Pull out of ground when trap is tripped

"We have caught many moles with these traps and recommend them to our friends and neighbors...We like to set 2 traps to increase our chances, and have the best luck if we set them at the first sign of tunnels. We often catch the mole the first night!"

—Judy

Trap

Eliminate moles on the first try

No digging, trip cables, spears or hand snapping clamps. Insert the closed jaws into the center of the mole's tunnel. Step straight down on the setting lever and the trigger mechanism is ready for action. 6"L x 6"W x 12"H.

211695

MOTOMCO Rampage® Fast-Acting Baits

Control rats and mice with just one dose of this bromethalin bait, even anticoagulant-resistant rodents. Highly palatable formula ensures success. Choose Bait Chunx® for use in bait stations, or toss Place Pacs in tight areas.

Note: not for sale in (AK).

Item #	Description	Price
211684	4-lb. Pail Bait Chunx	\$69.99
211693	121 Place Pacs	\$72.99
211695	9-lb. Pail Bait Chunx	\$139.99

Use a bait rotation schedule for maximum rodent control

The purpose of bait rotation is to initially knock down the rodent population to a manageable level. The next step is to create a rodent-free environment by rotating between anticoagulant and non-anticoagulant baits. Bait rotation helps prevent anticoagulant resistance from occurring and will keep rodent populations under control.

MOTOMCO Jaguar Bait Chunx® and Place Pacs Rodenticide

Get the strongest anticoagulant available for the toughest rat and mouse problems. Bait can kill in a single feeding. Bait Chunx are an all-weather rat poison that have multiple gnawing edges and a hole in the center for placing on bait station (sold separately) securing rods. Pre-measured Place Pacs provide a convenient placement option. For indoor and outdoor use.

★★★★★ "We get a lot of use out of these before we have to rebuild them (easy to do in under 15 minutes)".

Deluxe
224513

Deluxe models feature wider shoulder straps for increased comfort

Pump Options

Piston pump

Piston Pump: Most popular and are primarily used with liquid formulations. Not recommended for use with abrasive sprays or wetttable powders. These substances can score the piston and cylinder of the pump, causing leaks and shortening the lifespan of the sprayer.

Diaphragm pump

Diaphragm Pump: Generate a lower pressure (max. 60 psi) than piston pumps, which results in larger liquid droplets and less spray drift. Can be used with wetttable powders or bleach solutions and water containing abrasives, such as sediment found in lakes, rivers or well water.

solo® Backpack Sprayers - Built for comfort. Built for convenience. Built to last.

Spraying for weeds, insects and disease control doesn't need to be labor-intensive with this lightweight sprayer

Only chemical-resistant parts of the sprayer come in contact with solution ensuring years of operation. Spray tank UV stabilized polyethylene with excellent impact and chemical resistance. Handle adjusts for right or left hand, and trigger lock allows continuous spraying with less fatigue. All models include a 28" L poly wand and 48" nylon reinforced hose. Standard models have padded shoulder straps and come with four nozzles - flat fan, hollow cone, jet stream, and plastic adjustable. Deluxe models have a few upgrades to the standard equipment - wider shoulder straps to increase comfort while wearing, a fold-away pump handle with wand retainer clips for easier storage and transport, and a four nozzle assortment that includes a brass adjustable nozzle instead of plastic.

224685	Piston	4 gal.	HD400 Blue	\$135.99

When deciding which type of sprayer is, consider these things:

- 1. Size of area to be sprayed
- 2. Frequency of use
- 3. Material(s) to be sprayed
- 4. Equipment you could mount a sprayer to

Handheld Sprayer is for light duty spot spraying of home gardens, lawns and small orchards. You manually pressurize the sprayer as you work.

Backpack Sprayer is for light duty spot spraying of home gardens, larger lawns and small orchards. Straps to your back - no need to carry in your hands. Manually pressurized or pressurized by an electric or gas pump.

Spot Sprayer mounts to an ATV or garden tractor for spraying gardens, lawns small orchards, pastures and fence rows. Powered by an electric pump, it has a larger tank that allows you to spray longer without stopping.

Larger Professional Sprayers (skid sprayers, trailer sprayers, 3-point sprayers) are towed or mount to a truck bed or tractor and spray golf courses, athletic fields, pastures and large lawns. Pump is powered by a gas or electric engine, or connecting to tractor's PTO. Large capacity tank.

If you're considering a larger pro sprayer, call us so we can help you choose the one that's best suited to your needs.

Finger-tip control of spray pressure and volume

230937-4

Torture tested for 4000 hours!
No wonder Jacto Backpack Sprayers last longer.

Lithium-ion battery provides up to 12 hours of use

230937-5

22" stainless steel wand with nozzle filter and adjustable nozzle makes spraying an easy job.

Lithium ion battery that will provide more than 2 hours of continuous spraying and comes with a separate charger that recharges in 6 hours or less. Pressure stays constant regardless of battery level.

Constant Pressure The PJB pressure is constant regardless of the battery charge level. Keeping the same flow rate, drop size and opening angle of the nozzle, for more even coverage from start to finish.

 PJB v2020 Standard Battery Powered Sprayer

A lightweight, lithium-powered sprayer with easy pressure control for all-day use on the farm or in the garden.

Control, comfort and convenience are the hallmarks of Jacto PJB cordless backpack sprayers. Offered in 4- and 5-gallon versions, the PJB gives users finger-tip control of spray pressure and volume. The lightweight design makes it comfortable enough for all-day use, whether on foot or rolling in the ATV. The lithium-ion battery power is easy to swap and provides up to 12 hours of use. Jacto's PJB sprayers offer the ultimate herbicide deployment system for uses ranging from ranching to gardening.

Just mount Gempler's Spot Sprayer to your tractor or ATV and go.

It's our own brand, so no middleman - you save!

"I used the 25 gallon version of this sprayer maybe a dozen times now this spring-fall and it still runs good. Easy to assemble. Definitely the best value for the dollar. I'm happy with it." – Josh

Large, 5" fill port includes a tethered lid to prevent loss

EverFlo diaphragm pump works where others fail

Built using a thicker polyethylene tank and more UV inhibitor to work hard season after season

Use with water, herbicides including glyphosate, insecticides and fungicides

GEMPLERS 12V Spot Sprayers

Depend on Gemplers with a high-quality USA-made sprayer at an excellent value!

Built using a thicker polyethylene tank and more UV inhibitor, Gemplers Spot Sprayers are versatile enough for precision jobs and tough enough to last season after season. Using only the highest-grade pumps, adjustable spray guns and hoses on the market, these sprayers are good with nearly any application. Use with water, herbicides including glyphosate, insecticides and fungicides. Convenient graduations lines on end to show how much liquid is left. Convenient hose strap makes storage of 15'L hose easy.

G56800	155 oz./4.5L	\$23.99

HARPER A broom for every job

Know what you are buying

These industrial-grade brooms are far superior to the dressed-down knockoffs showing up in stores. Harper brooms are guaranteed to outsweep, outlast and outperform.

- 1 Steel handle brace stabilizes brush and reduces handle strain
- 2 Heavy-duty connector tip eliminates breakage common with screw-type handles
- 3 Strong hardwood block withstands tough treatment
- 4 60"L, 1-1/8"-dia. hardwood handle is made from the highest tensile strength, kiln-dried wood

HARPER #74 Supersweep All-Purpose Broom

Harper's best for fine or large particles

Will outperform any broom you've previously owned. Medium-stiff synthetic bristles are mildew resistant, hold their shape, have very good "flicking" action and retain stiffness in water. Bristles are trimmed to 3-1/4"L and are ideal for sweeping a variety of wet or dry surfaces, from smooth concrete to semi-rough blacktop. Pushes fine particles out of crevices and handles larger particles, like shell corn.

Item #	Replacement Head	Head Width	O	Price

■ Oversize item: additional shipping charges will apply.

HARPER #23 Fine-Sweeping Broom

Great for dust and fine dirt on smooth surfaces

Synthetic bristle ends are split into several thinner bristles by a process known as "feathering." Feathered bristles trap and pick up more dirt and dust (just like a dust mop). Bristles are trimmed to 3-1/8"L. For indoor use only on dry surfaces, like polished cement, wood, tile and linoleum floors in basements and shops. Complete broom includes head, steel brace, 60"L hardwood handle and iron connector tip.

HARPER #57 General-Purpose Broom

Fine to medium sweeping for grain elevators, greenhouses and warehouses

Perfect for sweeping a variety of fine to medium debris. Made of a combination of soft and stiff synthetic fibers. Soft bristles are great for fine sweeping while stiff bristles move bigger materials like sand, dirt and leaves. Bristles are trimmed to 3-1/8"L. Complete broom includes head, steel brace, 60"L hardwood handle and iron connector tip.

Item #	Replacement Head	Head Width	O	Price

HARPER Curved Rubber Shop Squeegees

Curved head shape traps and directs water toward the drain

Industrial-grade features make this a long-service, no-fail squeegee. Soft rubber blades flex to conform to floor surfaces, wiping them clean and dry with one pass. 60"L x 1-1/8"-dia. handle is high-tensile-strength, kiln-dried hardwood. Unlike cheaper styles, these squeegee heads are fastened with cast aluminum sockets and steel stabilizing braces to prevent frustrating handle breaks.

Extend the life of tools and equipment with Rust Converter

Now you see it (rust)

Now you don't. Easily paint or spray onto rust and watch it convert like magic

No grinding or sandblasting. Wire brush-off loose rust. Apply directly on surface.

Reacts with rust to form an inert black barrier that prevents future rusting.

Simply apply oil-based paint over Rust Converter to restore valuable tools and equipment.

Gemplers Rust Converter

Chemically converts rust into an inert, black barrier on steel or iron surfaces

No sandblasting, heavy scraping or grinding is necessary. Easy to use and easy to clean up. Paint over with oil-based paint. Environmentally safe, non-flammable. **Paint-On Rust Converter:** Requires two coats, irregular, porous or textured surfaces may require more coats. 1 gal. covers 500 sq. ft. Nine-month shelf life. **Sprayable Rust Converter:** Ideal for automotive HLVP or airless sprayers. Requires three coats for optimum coverage. 1 gal. covers 300 sq. ft. Nine-month shelf life. **Aerosol Spray-On Rust Converter:** Requires four coats for optimum coverage and protection. One can covers 24 sq. ft. One-year shelf life. **Rust Converter Kit:** Includes 1-gal. Paint-On Rust Converter, 1 2-qt. polypropylene pitcher, 1 box of 100 4-mil powder-free disposable nitrile gloves, 1 pair of safety glasses, 1 steel wire brush, and 1 2"W paint brush.

Clean Air Filter is designed to fit just like OEM-style filters. No special brackets or gaskets are required.

Clean Air Filter® Tractor, Combine and Sprayer Cab Filters

Unlike standard cab filters that have only a paper-like medium to trap dusts, our three-stage filter combines dust filter mediums (Stage 1) with activated charcoal (Stage 2), which absorbs pesticide and other organic vapors and traps pollen and molds. A final filter (Stage 3) reduces the amount of charcoal fines entering your cab, so you breathe cleaner air. Each filter is housed in a durable metal case and is designed to fit snugly in your tractor cab. Replace filters annually or when you begin to again taste or smell chemical vapors.

How to Order Your Filter: Identify your tractor or sprayer model from our updated and expanded list, cross check against our dimensions and manufacturer's part number and specify GEMPLER'S Item #.

Sprayer Filters: Chemical spray filters with activated carbon specifically for the cabs of sprayers. Featuring the same three-stage filtration process as the tractor and combine filters.

LOCKLUBE Grease Couplers

Locks on for easy, mess-free, one-handed greasing

Keep the coupler on your grease gun aligned and eliminate wasted grease! Lets you put the grease exactly where you want it. Plus, save your knuckles from scrapes while trying to detach a pressure-locked coupler—simply depress the trigger to release, even under pressure. Suitable for high-pressure, heavy-duty applications. Works on all grease gun types (pneumatic, manual and electric), plus all DIN and SAE specification zerks (grease nipples). Fits 1/8" NPT thread. Standard Coupler extends your reach by 2". XL provides nearly 4" of reach to get to recessed or shielded grease fittings easier and quicker.

FEMCO, Inc. Tractor and Mower ROPS Umbrella

Universal, steel mounting bracket uses four clamping bolts that can be mounted to ROPS structures from 2" x 2" to 3" x 3" for a secure hold. Lock pin connection. Kit comes complete with canvas cover, umbrella frame and mounting bracket. Specify color: Orange, White or Yellow. NOTE: Umbrella cannot be used on a ROPS with more than an 11° tilt.

Item #	Price
145717	\$203.99

FEMCO, Inc. TuffTop Tractor and Mower ROPS Canopies

Easy to fold down or quickly remove

Hard canopies block the sun and can be folded or removed in seconds without tools. Powder-coated strong steel frame supports panels made of 0.15"-thick high-density polyethylene (HDPE) with a laminated UV solar cap for long life. 44"L x 44"W (Item # 219715) and 52"L x 48"W (Item # 219716) both fit 2" square or 2" x 3" ROPS. Adjustable fit for forward-leaning, vertical or rear-leaning ROPS. Specify color: Gray, Green, Orange or Red.

Item #	Size	O	Price

Tarp met all my expectations for fit and finish. It stays put on my trailer with plenty of grommets for hold down. Would recommend it to anyone.
-Robert

GEMPLERS 14.5-oz. Weather Tough® Tarps

Made with material that's waterproof like poly, breathable like canvas

Polyester canvas construction protects whatever you're covering from the rain, snow and sun without causing mildew and damage due to condensation.

Feature brass spur grommets approximately 2' apart on all sides that don't rust or tear out like standard grommets.

NOTE: Actual finished size may be 3–5% shorter than the size listed due to the tarp-making process. Tarp seams are water-resistant, not waterproof. Tarps wider than 5' will have a seam.

8-oz. Extreme-Duty Brown Tarps

■ Oversize item: additional shipping charges will apply.

Tear-resistant barrier against all weather conditions.

Extremely strong protection from the elements when a lighter tarp may let you down. Polyethylene tapes woven into the fabric, which is then laminated on both sides to create a tear-resistant barrier. Both the poly tapes and laminations are UV stabilized for long life. Ideal for covering farm machinery or keeping firewood dry. 16 mil.

Sling Bag™ Tarp Bag

Use this "super-tarp" for heavy-lifting or landscaping jobs where a normal poly or vinyl tarp won't handle it. Ideal for hauling soil, sod, mulch, concrete and more. Sturdy, woven resin tarp can handle loads up to 3,000 lbs. 93"W octagon-shape tarp has four straps sewn on to allow you to easily carry, drag or lift it. Just hose it off, let it dry and fold up for easy storage.

Compact Design
excellent for working in
tight spaces

Heavy-Duty Bead Breaker

For use with 1/2" impact wrench

Threaded bolt lets you bust stubborn beads using a 1/2"-drive ratchet wrench or pneumatic impact wrench. Can be used on most drop-center rims, from small all-terrain vehicles to large rear tractor tires. Works on stiff or soft wall tires. The unique design pushes the bead from the rim, rather than the conventional hammering methods.

Item #	Price

Don't let your productivity go flat

Spare yourself time and money—Get Ultraseal™ tire sealant

228245

G65511

224917

COMMERCIAL GRADE

- Seals up to 1/4" -dia. punctures in tubeless tires
- For high-speed vehicles or off-road machinery
- Ideal for cars, ATVs, trucks or farming equipment

BULLETPROOF GRADE

- Seals up to 1/2"-dia. punctures in tubeless tires
- For slow-moving vehicles or off-road machinery
- Ideal for farming equipment or military vehicles

EXTREME GRADE

- Seals up to 1/2"-dia. punctures in tube AND tubeless tires
- For high-speed AND slow-moving vehicles or off-road machinery
- Ideal for cars, ATVs, trucks, farming equipment, military vehicles, virtually any pneumatic tire!

Punctures are sealed instantly and maintains the same air pressure

228248

Can be used on tires containing up to 110 lb. of air pressure

Specially designed pump and valve core-removal tool lets you easily install Ultraseal™ tire sealant

Gemplers Ultraseal™ Tire Sealant

Protect tires and prevent expensive downtime

Guards against punctures, flats and blowouts, reducing downtime and improving safety. Inhibits rust and corrosion on steel belts, wheels and rims. Won't freeze or evaporate inside tire for all-weather protection. Water-soluble fluid for easy cleanup. One application lasts the life of the tire. 5-gallon size (228245, 228246 and 228247) require an installation pump, sold separately (item 228248).

NOTE: Not for high performance, low-profile tires. High-speed tires must be balanced before installing Ultraseal. Designed to be used as a prevention, not to repair existing damage.

GEMPLERS Brown Bear™

No more heavy PVC!

We made our 4.6 rated boots even better!

★ ★ ★ ★ ★

NEW! Now made with lighter TPE material

NEW! Now available in Plain or Composite Toe

GEMPLERS Brown Bear Chore Boots

Lighter-weight TPE won't slow you down like PVC, but protects better against chemicals, weather and abrasions.

You told us what you wanted in boots, and we turned that into the Gemplers' Brown Bear Chore Boot. These 16-inch tall boots are built on TPE, available in plain or composite toe. This durable boot is ready to face any task with a design that is reinforced at key points throughout, including top ridge, back kick plate, toe and heel. Built by you, for you, Gemplers' Brown Bear Chore stands ready to work.

If you normally wear a half size, we recommend you size up.

>>Waterproof, Breathable & Packable!<<

This rain gear is some of the best workwear rain gear I've come across. It breathes well, moves with you, and doesn't tear apart the minute you walk past a shrub. Oh, and it actually keeps you dry! –Dan P.

Folds into pocket for easy packability

ADD YOUR LOGO

SUGAR RIVER by GEMPLERS Packable Jacket and Pants

One landscape pro said, "This rain gear is some of the best workwear rain gear I've come across. Breathes well and moves with you."

Chart a course for adventure! These jackets and pants are the right choice for any destination. They're waterproof to keep you dry if rain is in the forecast, breathable to keep you comfortable on strenuous hikes and durable enough to stand up to harsh environments. When the day is done, fold and pack them away in the front pocket for easy transport.

Premium features — under \$70
A difference you can see and feel

Gempler's PVC:
Lightweight and flexible. Plus it won't stick to your skin!

Typical PVC: Heavy, inflexible material that sticks to your skin when you sweat

SUGAR RIVER PVC Rainsuits

Premium quality, affordable price

Durable .20mm PVC-on-nylon material is reinforced with rivets in high-wear areas. Zip-front jacket has a snap-closure 2" storm flap. Hook-and-loop closures at the wrist. Oversized, attached hood has an adjustable tab on the back so you can wear it with or without a hard hat. Underarm and back vents. Bib overalls have a snap fly plus industrial-grade suspenders and clasps, while the pants have an elastic waist and drawstring with a stay-tight clasp. Leg openings on bibs/pants have 12"L zipper closures to open twice as wide as other suits on the market.

Stretch-Knit PU-Coated Rainsuit

Stretch Comfort WON'T LEAK

Breathable lightweight polyester liner with outer polyurethane coating is lighter and more comfortable than stretch-nylon styles. Strong outer PU coating stands up to scrapes, snags and abrasions better than traditional PVC. Sized for plenty of room. Full-zip front with storm flap. Vented cape back. Soft neoprene inner cuff prevents rain from soaking your arms or shirt. Pants have elastic waist with drawcord. Large leg openings allow easy on/off. Hook-and-loop ankle closure adjusts for a snug fit. Right rear pass-through pocket with flap allows access to your jeans.

Item #	Size	Price
167463	S-3XL	\$119.99

Choose the Right Leather Glove

Pigskin Pigskin leather is tanned for toughness and pliability. Soft drying and flexible, pigskin withstands moisture without stiffening. Pigskin also has excellent abrasion resistance and durability.

Cowhide The most common leather for gloves. It's divided into three layers prior to manufacturing. The smooth outer layer is used on "premium" grade glove styles. It's the strongest, smoothest part of the hide. The bottom layer (or suede side) is used mostly on leather palm styles.

GEMPLERS 100% Waterproof Insulated Pigskin Work Gloves

No more worrying about cold, wet hands

Three-layer technology blocks out water before it reaches your hands or the Heatkeep® lining insulation. Unlike other waterproof/insulated gloves, ours are constructed of pigskin.

Item #	Size	Description	Price
21939	S-XL	Safety Cuff	\$23.79
21938	S-XL	Knit Wrist	\$24.22

★★★★★
 "I believe this is the best wearing glove I've found. They stand up to Firewood, digging tools and rope work without getting holes or the stitches failing. They are thin enough to feel what your doing and thick enough to offer the protection I'm looking for. Very happy with them. I buy extra and give them for Christmas!" -Tod B.

Pigskin Leather Driver's Gloves

Excellent all-around work gloves. Softer and more flexible than cowhide and provides good protection against abrasions. Keystone thumb construction follows the natural curvature of your hand for greater comfort. Elasticized wrist helps to keep debris out.

Item #	Size	Price
94WA	S-2XL	\$11.47

Grain Pigskin Palm Gloves with Safety Cuff

Exceptional hand protection is within your grasp! Made with grain pigskin, which is softer and more flexible than cowhide. Pigskin leather on palm, over fingertips and on knuckle strap gives your hands added protection. Safety cuff style protects wrist area. Dry soft even after getting wet.

Item #	Size	Price
1917	M-XL	\$12.99

Kinco Deerskin Leather Driver's Gloves

Soft and supple deerskin leather
Increased dexterity due to the flexibility of the leather and the way in which these gloves are sewn. Only grade-A leather is used so you won't find the imperfections that are common in lesser-quality gloves.

Item #	Size	Price

SUGAR RIVER Lined Double Coated Hydroflector Gloves

The cure for wet cold hands

Rain, snow, biting winds. Bad weather or not, you've got to get the work done. And you can't do it unless your hands are dry, warm and protected in gloves like these. They've got a double-layered knit shell, with heavyweight 15-gauge polyester outside, 7-gauge soft acrylic inside locking in warmth, wicking away moisture. Black sandy latex palm coating stays supple even in low temperatures, protects against cuts and abrasions, and has a textured surface to increase grip control in liquids. Elastic knit wrist provides a seamless, snug fit at pulse-point, which helps to retain warmth where heat often escapes, and locks out dirt and debris. Color-coded polyester overlock hem indicates size and helps prevent fraying.

Item #	Size	Price
232534	M-XL	\$9.34

Blend of cotton and polyester that completely conforms to the natural shape of your hand

★★★★★
 "Good for pretty near everything, whether it's hiking, biking, masonry work or farm chores. Would wear them to bed, but even these have a limit." — Mark

GEMPLERS Gempler's Latex-Coated Work Gloves, Dozen Pair

3M Disposable Organic Vapor/P95 Respirator

For "one-time" or limited-use applications

Features a rubber facepiece that is lighter than conventional dual-cartridge respirators. Simply throw the respirator away once the cartridges are used up. Includes respirator assembly, organic vapor cartridges, P95 pre-filters, retainers and instructions. Approval No. TC-23C-0860. Specify size: S, M or L.

Item #	Price
10164	\$37.99

- More space inside mask for less restriction and better communication
- Larger filtering surface reduces breathing resistance
- Exhalation valve gets rid of hot and moist air faster
- Respirator material is easy to mold to your facial contours for a secure fit

GEMPLERS N95 Particulate Respirator

Exhalation valve keeps you cool

Comfortable, best fitting respirator features more open space between you and the mask to relieve that "closed-in" feeling, making communication easy. Outside has a large filtering surface, reducing your breathing resistance. Exhalation valve allows exhaled air to escape quickly, keeping you cool and comfortable. Soft nose cushion and formable noseband give you a comfortable and secure fit. NIOSH approved to trap 95% of non-oil based particulates. Medium fits 70% of men. NIOSH Approval No. TC-84A-3745. Specify size: S (Red), M (Green), L (Blue).

Item #	Qty./Pkg.	Price
GR50	10	\$31.99

- * Made from soft, lightweight materials
- * Ergonomic placement of the filters helps improve visibility
- * Adjustable features for a secure, personalized fit

One-piece cartridges simplify filter replacement

MOLDEX® 7000 Series Half-Mask and 9000 Full-Face Respirators

Superior protection and all-day comfort make this respirator an industry favorite

Ideal respirators for long hours on the job. Easy cartridge replacement and fewer parts means minimal maintenance! Half-Mask Respirators offer an extra-wide, comfortable sealing area. Plus, low-profile, compact design allows a wide field of vision while wearing welding helmets and safety glasses. Adjustable head cradle has contoured neck buckles for a custom fit. Mask drops down around your neck when not in use. Full-Face Respirators provide a panoramic lens resistant to scratches and has side viewing panels. Extra-wide head harness opening for easy on/off. Strap buckles are securely molded directly to the facepiece and let you release the mask with one finger. Specify Size: S, M or L.

NOTE: Cartridges and filters are sold separately.

How Harmful Are Your Work Activities?

Overexposure to loud sounds can significantly affect your hearing and your quality of life. You do not get used to loud noises, you simply lose the ability to hear them. Following is a list of some common sounds and their decibel ratings.

dB Level	Common Sounds
50dB	Quiet empty barn, babbling stream, gentle breeze
60dB	Normal conversation, air conditioner
70dB	Chicken coop, farrowing area, washing machine: You may be annoyed by the noise.
85dB	Tractor or combine idling, conveyor, elevator: You can begin to lose your hearing at this dB if you're exposed to this level of noise for 8 hours or more per day.
90dB	Blower compressor, pneumatic wrench, chopping silage (no cab), full-throttle mower: Exposure to noises at this level for 4 hours or more per day may cause damage.
100dB	Average portable music player (over halfway mark), full-throttle combine, 10-hp vane-axial barn fan: Anything over 15 minutes of exposure per day can cause damage.
120dB	Thunderclap (near), sand blasting, bad muffler, old chain saw: The danger is immediate.
140dB	Gunshot, engine backfire, dynamite blast, jet engine: Any length of exposure is dangerous and may cause ear pain.

Pura-Fit

UNISEX SAFETY COVERALL SIZING CHART

NOTE: This is a general reference guide for coverall sizing.

DUPONT Tyvek® 400 Shirt and Pants

Protection built into the fabric for added durability

Tyvek® 400 shirts and pants provide an ideal balance of protection, durability and comfort. Ideal for applications that do not require the full-body coverage of a coverall. Applications include lead and asbestos abatement/remediation, general maintenance/operations, spray painting and general clean-up. Flash-spun, high-density polyethylene creates a unique, non-woven material offering protection against particles down to 1.0 micron in size. Collared shirt has front snap closure and open wrists. Pants have open ankles and an elastic waist for easy donning and removal.

Item #	Size Range	Description	Price
230037	M-3XL	Pants	\$6.99
230036	M-XL	Shirt	\$7.99
230036	2XL-3XL	Shirt	\$8.99

Lakeland ChemMAX® Polycoat Aprons and Coveralls

Protection from dry particulates and light chemical splashes
 Fabric weighs 2.29 oz/sq.yd. Elastic wrists and ankles provide a snug fit for better protection, yet allow room for gloves and footwear.

Item #	Size Range	Description	Seam Style	Price
211874	M	Unhooded Coverall (elastic)	Serged	\$10.99
211874	2XL-3XL	Unhooded Coverall (elastic)	Serged	\$12.99
211871		Apron (10pk)	Serged	\$38.49
211872		Apron w/ Sleeves (10pk)	Bound	\$76.49

ADD YOUR LOGO

Guardian Heavy-Duty PVC Coveralls

Double-coated PVC inside and out resists contamination. Extra-generous sizing provides air flow to keep you cool. Specify size: M/L or XL/2XL.

Item #	Price
AC141G	\$96.99

DUPONT Tychem® 4000 Hooded Coveralls

Superior durability and effective protection will make these DuPont hooded coveralls your new favorite protective wear

DuPont™ Tychem® 4000 delivers effective protection against a range of chemical environments. Tychem® 4000, utilizes Saranex™ 23-P film laminated to Tyvek® fabric to provide a rugged and durable fabric that resists abrasion. Taped seams provide strong chemical resistance against heavy liquid splashes. Elastic ankles and wrists. Specify Size: M-4XL.

214472	2XL	\$284.99
214472	3XL	\$297.99
214472	4XL	\$310.99

WARNING: Due to the thousands of pesticide formulations available today, it's impossible to determine if a particular garment will protect against a specific chemical. Therefore, we recommend testing the clothing against the chemical before using.

Microporous Protective Clothing

Suit-up with splash and spray protection against "caution" rated pesticides

Light-duty, budget friendly protective clothing provides liquid spray/splash and dry particulate protection for many applications. Specify Size: S-5XL.

WARNING: There are environments and uses for which these coveralls are unsuitable. It is the responsibility of the user to review available data and verify that the garment is appropriate for the intended use and meets all government and industry standards. Avoid open flame or intense heat.

Spillyter Premium General-Purpose Pads

Pick up all liquids including acids, oil, coolants, solvents and water.

Absorb large or small nonaggressive spills like oil, coolants, solvents and water. Premium fine fibers absorb liquids while small-micron-diameter fibers provide greater retention and strength. Interlocking bonded sorbents prevent separation of fabric during cleanup. Pads are 16"W x 18" L

Item #	Description	Qty./Pkg.	Price
97112	Midweight Pads	100	\$87.49
97113	Heavyweight Pads	100	\$112.49
97111	Lightweight Pads	200	\$117.99

SELLARS DuraSoak™ Sorbent Pads

Pack of 100 pads absorbs up to 20.1 gal.

Made from 65% recycled shop towel fibers with a layer of meltblown polypropylene added. Absorb oil, water, diesel fuel, grease, transmission fluid, hydraulic fluid, coolants and many other fluids. Class A fire retardant when pad is dry (lab tested per ASTM E84). Pkg. of 100 pads; each measures 19"L x 15"W.

Item #	Absorbent Capacity	Description	Price

Range	9' to 15'	12' to 18'	15' to 21'	15' to 21'

Multi-Purpose Dry Chemical Fire Extinguishers

Protect your property from most types of fires

Siliconized mono ammonium phosphate dry chemical is 4 to 5x as effective as an equal weight of weight on Class A fires. Use to combat fires in ordinary combustible materials such as wood, cloth, paper, rubber and many plastics (class A); flammable liquids, gases and greases (class B); and fires involving energized electrical equipment (class C). 100% hydrotested to 600 psi. Metal pull ring prevents accidental activation. UL, USCG-approved.

Note: not for sale in (AK, HI).

Large Scale Clean Up Kits

20-gal. Spill Kits provide the convenience of a built-in disposal container in a manageable, lightweight size

Use universal spill kits for oil and water based chemical spills. Use oil based for oil and petroleum based spills. Hazmat spill kit absorbs aggressive hazardous material spills. Each kit absorbs 11 gal.

Item #	Kit Type	O	Price
153864	Oil-Only	■	\$159.99
153863	Universal	■	\$174.99
153865	Haz-Mat	■	\$229.99

■ Oversize item: additional shipping charges will apply.

OIL-DRI® Hazardous Liquid Spill Kit

This emergency spill kit quickly absorbs up to 5-gal. of pesticides, oils, coolants or other liquids

This convenient Hazardous Liquid Spill Kit is ideal for a quick response to emergency leaks and spills. The plastic pail has a snap-on lid that keeps contents clean and dry, and also doubles as a disposal container once spills are cleaned up.

Item #	Price
145760	\$54.99

Absorbs water, diesel fuel, transmission fluid, grease and more!

SELLARS® EverSoak® 4'L Sorbent Socks

General purpose sorbent socks for everyday use

These Sellars EverSoak; Medium-Duty Sorbent Socks stop machinery leaks, drips and spills from becoming a safety hazard. Box of 40. Absorbs water, diesel fuel, transmission fluid, hydraulic fluid, coolants, grease, paint and more. Extremely durable hydrophilic sleeve keeps the absorbent fibers inside the casing but allows liquids to easily pass through. Made with 70% recycled cellulose fibers. Pliable, 4'L x 3"-dia. socks

Item #	Price
225611	\$98.49

- KIT INCLUDES:**
- 1 Reusable, NIOSH-approved Moldex® dual-cartridge pesticide respirator with pre-filters. Size Medium only. Replacement cartridges available at gemplers.com.
 - 1 Blue-green midweight chemical-resistant apron, 45"L x 35"W.
 - 2 Pair green, unlined nitrile 13"L, 15-mil chemical-resistant gloves. Size Large only.
 - 1 Fog-free chemical splash goggle with indirect vents.
 - 1 Chemical-resistant urethane storage bag (yellow).
 - 1 WPS Reference Guide.

GEMPLERS Basic Pesticide Protection Kit

Gemplers Basic Pesticide Safety Starter Kit provides basic protection for mixing and applying most low-toxicity pesticides
