

Tree Guying Kit

GripplE Tree Guying Kit provides an efficient solution for the protection of newly planted trees. Guying Kits provide immediate day-one stabilization, allowing for proper root establishment.

FEATURES / BENEFITS

- Replaces unsightly traditional wooden staking and metal T-Post methods.
- Eliminates time and labor associated with installing wooden/metal stakes.
- Provided in a pre-assembled, lightweight kit for ease of transport.
- Can be used on a wide variety of species and sizes of trees.
- Engineered and specifiable solution provides consistent effective installation.
- GripplE fasteners allow for quick tensioning and in the event of settlement, easy re-tensioning.
- Rubber protective hose reduces friction and point loading on the trunk
- Cable system provides minimal visible impediment to the surrounding landscape.
- Orange safety sleeves provide a visual barrier at ground level for pedestrians and landscaping crews.
- Easily removed after tree roots are established.
