

INOVA® LITE HOLSTER STRETCH

RUGGED, EXPANDABLE FLASHLIGHT HOLSTER

With its two side panels of superior quality elastic, our durable, ballistic nylon INOVA Universal Flashlight Holster expands to keep flashlights from X-Series to T-Series secure, safe, and useful at your side.

With its sturdy construction, molded foam insulation, and high-quality elastic side panels, our INOVA Lite Holster Stretch keeps flashlights of nearly every size secure, safe, and useful at your side. In its relaxed state, an X2 flashlight fits snug and secure, and the panels expand to provide a close fit for larger flashlights up to and including the T5. Because its "over and under" clip rotates 360 degrees and locks in eight different positions, our Lite Holster Stretch also doubles as a useful hands-free device - angle up to see, read, or work with both hands on anything above waist level, or downward to illuminate your footpath in dim light. Open-ended design allows for easy access to the flashlight's tail cap switch.

FEATURES:

- ▶ Rugged Holster fits INOVA X2, X5, X03, X3A, X3R, T1, T2, T3, T3R, T4R, and T5.
- ▶ Durable clip rotates 360 degrees and locks in eight different positions
