* How to pronounce **Alcidae** : Al·ci·dae | \ 'al-sə-,dē \ | Al·sa·day

Fun fact:

Definition of Alcidae: a family of diving birds (order Charadriiformes) having short wings and tail, webbed feet, a large head and heavy body, and thick compact plumage, being confined to the northern parts of the northern hemisphere, and including the auks, puffins, guillemots, murre, and related forms
