

**ALPINE
RINGS**

Easy Print-a-sizer from AlpineRings.com

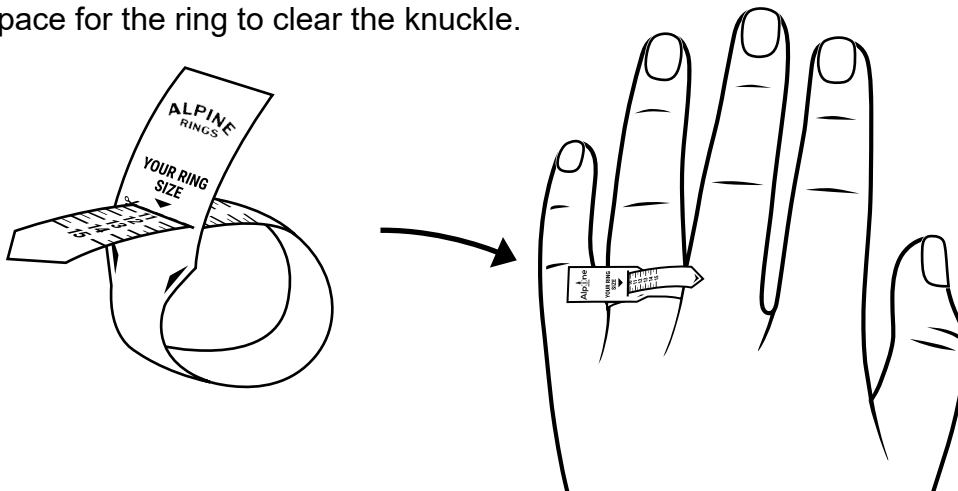

1) Verify: First, we need to make sure everything printed correctly. Simply line up a credit card in the space below or measure to confirm 3.5 inches / 8.89 centimeters.

2) Cut: Carefully cut and remove the sizer below and then cut a slit at the perforated line near the top.

3) Measure: Wrap the sizer around your ring finger and carefully insert the pointed end through the slit with the numbers facing up. Pull it snug but be sure to allow enough space for the ring to clear the knuckle.

Now that you know your size, head back over to AlpineRings.com and pick your perfect wedding band
