LOOP FASTENING

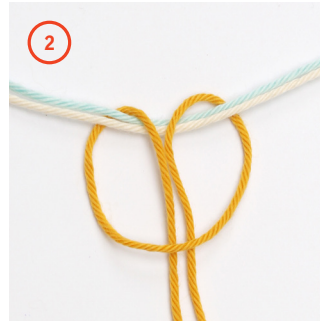

Colours used: as per your chosen bracelet instructions.
Make sure you have 50cm more of the thread you want to use as the loop.

A lovely way to start your friendship braids. You can either secure the braid around your wrist by tying the plaited end through the loop, or add a button or round bead and use the loop as a button hole.

LOOP FASTENING

1
Fold the mustard thread in half and lay loop downwards. Place the blue and ecru threads over it horizontally.

2
Take the ends of the mustard thread and place through the loop. Pull tight to secure the knot.

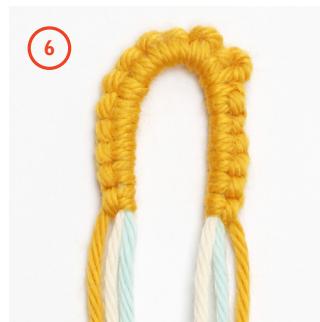

3
Leaving one thread of each colour to work with, fix your threads with tape or a safety pin through the knot.

4
Tie 9 forward back knots. (FBK)

5
Rotate the threads and secure as before. Tie 9 more FBK's, starting at the original knot.

6
Bend the row of knots into a loop. Arrange the threads in the order described on your braid instructions and continue.
