THIS IS US

Humdakin is the little everyday luxury. We have taken an active choice regarding ingredients and materials, so you can choose the best possible products for your and your family. Our products contain as few additives as possible as well as an allergy-friendly perfume, while only saying yes to the best possible ingredients. You can therefore safely use Humdakin to create a safe space for your family.

Responsibility is in our DNA, and we work hard to create the most best solution without compromising on safety and effectiveness. We try to be better every day and we encourage you to take the small steps to make a difference. While you are taking the steps you can, we are working on improving our impact as well.

Packaging. All our packaging is made from PET recyclable plastic so you can be sure that nothing is wasted when you are done using the product. We encourage you to make the most of the packaging - reuse it and then recycle.

Ingredients. We make mild products. This means that you will find no harsh chemicals in Humdakin's products. This is great for you, but also for our environment, wildlife and ocean life.

Wood & nature. We use natural materials as much as we can from responsible sources. Bamboo wood is the fastest growing tree. Mango wood is a waste material from mango production and all other tree sourced responsibly. The tampico fibres used for brushes is a natural, plant-based waste material.

Concentrates. All Humdakin's products are as concentrated as possible. This means we have limited the amount of water in the products, so a little goes a long way, and we limit resources and packaging. You can for instance refill our spray bottle with universal cleaner up to 200 times! - this means cleaning for around one year.

HUMDAKIN x BØRNS VILKÅR

At Humdakin we are extremely proud of the partnership we have with Danish NGO, Børns Vilkår, who is the organization behind BørneTelefonen.

Too many children in Denmark face their problems alone. Børns Vilkår fights to ensure that no child in Denmark is neglected, neither by those closest to them nor by society.

At BørneTelefonen (children's helpline), which is a part of Børns Vilkår, thousands of children have conversations with an adult, where they talk about what they cannot talk about with others. This gives a unique insight into children's thoughts and problems; an insight on which Børns Vilkår act.

The work of Børns Vilkår strengthens children's rights and children's belief in themselves and ensures that every child has at least one person who listens and helps. Børns Vilkår is there for children every day and always.

Since 1977, Børns Vilkår has worked with supporters and partners to fight for children's right to a safe childhood.

While getting used to washing hands more often, we can make it nice for the little ones.

"Like many others, I have a soft spot for children. I have three little ones of my own, and can't bear the thought of children not being well. That's why I hope they'll use the options available to them - like Børnetelefonen, where there's always an adult listening." - Camilla Schram, founder & owner of Humdakin.

For every sold product from the Kids collection, Humdakin donates 5 DKK to Børns Vilkår.
