

DESCRIPTION

F-5000 H.D. CIP Acid Cleaner is a high performance detergent serving the pharmaceutical, biotechnology, cosmetic, and other related industries requiring an effective production cycle treatment. **F-5000** removes process generated scale, visible or invisible, which can act as a key for soil to adhere to.

F-5000 is a blend of nitric and phosphoric acids, along with surfactant cleaning agents, chelating agents and other essential ingredients.

BENEFITS

- Removes mineral (inorganic) soil solutions
- Removes a wide variety of scales, particulate and inorganic soils
- Extremely Free Rinsing
- Provides Residue Free Cleaning in GMP-compliant environments
- Suitable for validated cleaning
- Low Foaming
