Fireball H&G

Safer-Caustic Drain Opener Technology

Fire Ball H&G is a true breakthrough in drain opener technology. With a pH of greater than 12 and caustic formulation, this fast-acting product offers the performance of traditional caustic drain openers, but is biodegradable, non-irritating to skin, and ships DOT non-hazardous. Its high density, thickened formula is heavier than water, so it sinks and clings to the blockage and begins working quickly. Highly effective against obstructions caused by fats, oils, lint and hair. Fire Ball H&G is odorless, nonflammable, and safer to use than traditional drain openers.

Features and Benefits

- pH of > 12, but non-irritating to skin
- Thickened formula sinks and clings to the point of obstruction
- Improved formula is highly effective against fats, oils, lint and hair
- Odorless, biodegradable, nonflammable
- Ships DOT non-hazardous

Properties

Appearance: Milky liquid
Fragrance: Mild odor
Ready-to-Use: Yes
Specific Gravity: 1.12
pH: > 12.0
Solubility in Water: Soluble

Directions Complete directions on product label

For Sewer Mains: Pour 2-4 gallons into manhole or drain upstream and as close to the obstruction as possible. For best results, use regularly to keep sewer main open and free flowing.

For Laterals: Pour 1 gallon into drain upstream and as close to the obstruction as possible.

For Drains: Pour 1/2-1 quart slowly into the drain. Allow to work for 30 minutes. For difficult obstructions, a second application may be necessary. Where there is a history of obstructions, the regular use of this product at weekly intervals (or more often if required) will keep the line open and free flowing.

Active Ingredients CAS Number

Water: 7732-18-5
Trade Secret: Proprietary
Xanthan Gum: 11138-66-2
Alcohol Ethoxylate: 68439-46-3
Modified Magnesium Silicate: 53320-86-8

Safety

Caution. May cause eye and skin irritation. Ingestion of large amounts may cause gastrointestinal irritation. Do not take internally.
