

pallet stretch wrap

Our multi-layer cast stretch wrap is produced using a patented process to ensure great strength for your toughest wrapping jobs. Made from 51% plant-based LLDPE and no chemicals of concern, it performs and recycles just like the petroleum stuff. But with way less petroleum stuff. Sweet!

Technical Performance

- Multi-layer cast technology delivers strong puncture resistance and solid pallet stability
- High transparency and awesome clarity to ensure bar code scanning and product quality checks remain easy-peasy
- Direct drop-in for petro wraps - no special handling or application methods required

Environmental Details

- Made from bio-LLDPE, a 51% plant-based material derived from renewable sugarcane
- Free from Chemicals of Concern identified as potentially harmful to health and environment
- Recycled bio-LLDPE can be mixed with traditional #4 LDPE - even infrared and X-ray can't tell the difference

Product Specifications

	COMING SOON Lightweight		Mediumweight		Heavyweight	
	Hand	Machine	Hand	Machine	Hand	Machine
Gauge	60	60	70	70	80	80
Max Load (lbs)*	1600	1600	2000	2000	2500	2500
Stretch Allowance (%)	180	250	180	250	180	250
Length (ft)	1500	7000	1500	6000	1500	5000
Width (inches)	18	20	18	20	18	20
