

JOSE REAL

MADE IN ITALY

A deep knowledge of leather

DETAILS

Unique coloration from leathers in crust

THE REAL UNIQUENESS

The Real family started manufacturing exclusive footwear in Spain in 1969. Jose, the youngest son, witnessed from an early age the art and craft of the shoe making and quality of materials, becoming obsessed with making the perfect dress shoe for the modern man. In search of new inspiration and using extensive know-how of last-making, and cultivated knowledge in treating and finishing the leather, he decided to develop his own collection - Jose Real - with experienced craftsmen in Naples, combining Italian heritage with a modern identity. Each shoe is designed with excellence in mind, unique in its design and is handcrafted by skilled artisans that treat leather as the true start of his shoes, with passion for details, using a handmade coloring process which is the hallmark of Jose Real shoes, propelling his designs into the modern world: tradition, modernity, quality and design are the pillars of Jose Real shoes.
