Welcome to the Classic!

Another year has come and gone, and somehow the Classic is upon us. It's always a time of reflection, everything we do all year long revolves around this one day. This last year has been one that has tested us and our industry like none before, yet it has reaffirmed that we are a part of one of the most resilient, supportive, and optimistic groups of people in the world. The cattle drive us, the genetics, the search for the next great one, the appreciation of good land and stock, but the people are the glue that hold it all together. Solid, salt of the earth kind that we are so blessed to not only call our customers but our friends.

A good friend this year who has struggled with cancer said how much he was anticipating seeing his calves born this spring out of his Griswold sired calves. It wasn't the first time I have thought it, but it hit me hard again how much of what we do affects those who trust in our program. Just like you, we are anticipating this coming year...a new calf crop, fresh genetics, yet still relying on the tried and true. We are excited to be offering some of those proven rare sires in both sexed semen and conventional. These genetics are the cornerstone to our program and what we do. Our embryo offering has proven year after year to produce high sellers and sought-after genetics, and this year we are bringing you a long lineup of our top donors. Bring your tank sale day—they are the kind you want to replicate.

We have a stark realization that what we do in our program affects your program. Searching for the next great sire is one of our quests. We do it in our spare time, our family trips revolve around it, even our pillow talk is all too often about our herd bull lineup. We want our cattle to have a "look"—a difference that separates them and helps you stand apart with the front pasture kind. You'll see it when you walk through the pens at the Classic, and again when those calves hit the ground this spring.

We are bringing you a great opportunity with the entire dispersal of Kim Klotz's cow base. There are several high-profile donors, great bred heifers and young cows that will be good investments. Seldom do you find sales where all the goods are put in front of you, but this is one of them. He has donors that have generated profit year after year and some dang nice cow families.

We do this with our kids every day. Even though we love it, and we would do it still if they weren't here, they add an extra dose of try and an extra dose of urgency to get things right. We know that so many of your operations revolve around family, just like ours. We realize the cattle that bring a premium help pay the bills and the bank. I think about my dad every day, from what he'd say on discing pastures to feeding wheat mids. Our relationship was formed around our cow base, and I thank God every day for the wisdom he had and the memories he left. It's in the calving barn, down the sorting alley and next to the breeding chute that so many memories are made. It's where our kids grow up, where they learn hard work, determination, and even prayer. Thank you for putting trust in our program and taking the G— along for the ride. We will keep working every day to uphold that trust. We will see you on the 19th for an early Christmas at the Classic.

It's not just a sale, it's an event!

John

p.s.: Our neighbors Buck Creek Cattle are having their first sale Friday night at 6:00, stop in and look!

Classic schedule

The sale cattle are available for viewing at your convenience from now until sale time.

FRIDAY, DECEMBER 18

Judging Contest starts

at 9:00 a.m. Friday!

(Registration at 8:00 a.m.)

Lunch will be available for all teams and sale guests.

Judging contest awards will be presented at 1:30 p.m.

SATURDAY, DECEMBER 19

Breakfast pastries available at 8 a.m.

The Classic starts

at 11:00 a.m. Saturday!

Lunch and refreshments will be available throughout the day.

BRINGING YOU THE *Power!*

IMPORTANT SALE NOTE REGARDING BREEDING INFORMATION

The pregnancy status reported is the projected months safe in calf as of sale day.

All of the bred females that are noted “Likely safe AI” are just what that means—likely bred AI.

We spent a lot of time preg checking these; we won’t get every one right, but we will dang sure get most of them right.

The females that only have certain months bred on their breeding means they are likely bred to the GGC Angus clean up bulls, unless pasture exposure is otherwise noted. We won’t get everyone of those right either—some of them will calve to an AI date.

GRISWOLD CATTLE RETAINS 1 FLUSH ON EVERY FEMALE IN THE CLASSIC AT YOUR CONVENIENCE AND OUR EXPENSE.

Griswold Cattle retains one-half embryo interest.

Lot 101, that title is one of the most debated subjects at Griswold Cattle, but the cream always rises to the top! This is a female that has been impressive since day one, and we always knew she was destined for great things. Out of a solid made, good looking Hard Whiskey dam that has just started to reach her potential in the donor pen, she is a ground floor type deal! Look to the bottom side and study it. This pedigree is heavy in donors, 673R is an own daughter of the great 816B who wasn't only beautiful, she was productive. Lot 101 holds the keys to the future, you might as well start now and help her write her own story. Study the lines, the proportionality, and the mass. Everything is lined up right, no matter what direction you want to take her. The Classic Lot 101's have generated countless dollars over the years, and boys, this young lady will be no exception. Take her home, you won't regret it!

This one came up out of the pack while we were sorting one day. She's the kind that is easy to love and hard to part with—and we sure would love to keep her as a cow! The Dubai daughters have done an awesome job for us, and you can tell she flat out clicked on this mating! This Data Bank female can run at the top of any program. Her structure and softness are outstanding. The shape and look are impeccable. Built solid from the ground up with looks to kill!

We knew that using Garth on the Angus females in this herd would produce some special individuals. This is one of them. I think this one is perfect from every angle. The shape is exquisite, and the design is impeccable. You won't find one any better any where. Now pay attention to her dam. She is one of the best looking Recall daughters we have. A moderate tank of a cow that is only starting to scratch the surface as to what she can produce. If you are looking for the next donor cow kind, this one is sure to be at the top of that list.

BOE Garth

Purebred Maine sire of Lots 107-141

Garth has done an incredible job, not only for us but for breeders across the nation. He has sired show cattle and herd bulls galore, and we think these replacement type females will be the real thing when they go into production. They have the stoutness and shape to provide some much needed performance to a lot of breeders' programs without sacrificing the maternal traits.

There has been a cow running around the Stillwater pastures that came home from South Dakota without any ID. She is a square built, tank of a cow that has been laying down and having good ones for several years, and I believe this may be her best. This Garth daughter has her mother's big rib cage belly sweep while possessing an enormous amount of stoutness and muscularity in an attractive package. She is the kind we would like to have a couple hundred of!

AI 4/1 GOLD STANDARD / 7.5 MONTHS

This is a full sister to last year's Lot 101—yes, you read that right! John would be quick to tell you that 855Y is the best Angus cow we own, and that is a large statement. She looks like a four-year-old, PERFECT uddered, huge ribbed, big hipped and beautiful. She makes them good every, single, time!

Daddys Money 55Z

Purebred Maine sire of Lots 142–161

Talk about a set of females that can take on anything a producer could ask for. Daddy's Money has made some impressive females over the years, and these young ladies are just that. We love the functional look to their design, and the maternal traits exhibited by these cows will be tremendous as well. If there was ever a time to buy in bulk, it's now. There won't be any left pretty soon, so get them while you can.

Three full sisters to Miss Boston!

Pay attention! Lots 144, 145 and 146 are full sibs to Miss Boston, the \$82,500 high seller from the 2019 Classic. Backed by the legendary 5066 Whiskey cow that has not only written her own book but has set the standard by which all other Maine females should be judged! Everybody could use females like these. A full brother sold in the April bull sale to Morton Farms in Stratford, OK. They are using him as their next calving ease sire to replace Daddy's Money. There is a full sib three-year-old to these heifers that produced Lot 202 in this sale. We can honestly say that these genetics will work, and we believe they will work for everybody! Believe in the power of genetics and watch what these females can do for your program. Full sister sells as Lot 514.

 Pay attention here! A favorite of many and loved by all, this one is special. You can't get them put together any better than 96G. Long, level, square and powerful. I love this one's design and how smooth yet powerful and refined she is. Everything just fits perfect. What else needs to be said? There won't be any more Daddy's Money calves, and females like this will be worth their weight in gold. The Daddy's Money females have been out producing themselves and continue to be at the top of everyone's donor lists. Buy now and thank us later.

In case anybody was wondering, Whiskey still works!! Two full sibs to this female—both natural calves—averaged \$13,000 in the Classic as bred heifers in 2016 and 2018. Now we share this one with you as well. I definitely couldn't argue if ya thought this could have been a Lot 101. She is stunning from every angle. Whiskey fronted with an Angus look through her middle. Then throw in a Whiskey hip and voilà! Perfection at its finest!

Irish Whiskey
*3/4 Maine sire of
Lots 162-174*

Christy Collins

Irish Whiskey is without a doubt the cornerstone of Griswold Cattle Co. It's hard to put into words what this bull has done. Everyone can remember the high dollar sale features and the banners that were won. But the lasting legacy of this bull should be the hundreds of daughters that still roam these and many other pastures across the nation. You can tell she's a "WHISKEY" from a mile away. They have a look all their own. There won't be as many this year as in the past, but we promise you this: They are our best cows, and we still plan to make a few more for years to come! Like John says, "I've tried to find Whiskey's replacement for a long time, and I'm still looking."

Whiskey time!

lot 163

Long hiped and long fronted are used best to describe this impeccable heifer. Whiskey will stamp them like this every time. Study the udder and teat structure on this one...even a die-hard Angus man will appreciate Lot 163. Whiskeys are some of the hardest working females around here and can hold up to any kind of environment and situation you can throw them into. They are simply good cattle.

Okay, here is what the Classic sale has been able to do. The mother to 400G was a former Lot 101 that Jones Show Cattle purchased half interest in. Her progeny sales will soon reach six figures. She has put show heifers and bred heifers in the Classic and herd bulls in our Denver pen that have been high sellers in the bull sale. She is a can't-miss type of female. 400G sold as a show baby in last year's Classic and was purchased by our good friend Kim Klotz as a way to ramp up his purebred Maine herd. 400G will be able to redefine any program. Stout, capacious and awesome structured. Here lies your opportunity to invest in a female with power in the background and bright lights in the future!

...sold in the 2015 Classic

Maternal Made

HIS SEMEN SELLS IN THE FROZEN DIVISION.

NMR Maternal Made

1/2 Maine sire of Lots 175-192

The Maternal Made females have far exceeded our expectations year after year. Not only does he sire champions in the show ring all across the nation, but he has put donors in production for several breeders. Whether you're looking to add purebred replacements or put them to use in a crossbreeding program, they will work perfectly.

Bring on the 066! This one is moderate built with eye appeal and balance. Square in her design with a functional look to her overall makeup. Her Machinist dam is one that has paid her dues around here. She raises a good one every year, even at 13 years old. Hang with the cow power, you won't go wrong!

When you talk about consistency, the dam of F442 should have her picture next to it. She is one of those cows that clicks on about everything you could think of mating her to. Year after year, she has had breds in the Classic and bulls in the spring sale. This All That Matters bred heifer is a stunning example of power in the blood. With her broody look and boldness to her center body, just wait till her calf hits the ground. It's sure to be outstanding.

A beautiful Double Good female that patterns up with looks to kill. Slick fronted and big hipped with boldness through that center body cavity. Perfect structured with balance from end to end.

GCC Double Good 521A
 1/4 Maine sire of Lot 202

Lot **202**

This is what the G- is all about. Take the best of each breed and blend them together for a result that everyone can get behind. 570G takes the best of both worlds and puts together an awesome phenotype. Bold sprung and robust in her build is what she takes away from the topside of the pedigree. The squareness of hip and power down that top is what she gets from her dam, who is, by the way, a full sib to Miss Boston! This is a flat out good one on paper and in person.

The Simmental section is deep with quality this year. We are going to start with a County O female that is just simply amazing. You have all seen what the County O calves have done in the ring, but this heifer is what we were really hoping for. Moderate built, big middled and square made with a killer look...everything we thought was possible with County O. Her mother is a square made, moderate Houston daughter with substance and style. 162G has her build plus the extra shot of rib and stoutness from County O. This one has "donor" written all over her!

You can't go wrong with the 673R cow in a pedigree. Dozens of Classic lots have come from that cow and her family. This Shocker heifer lives up to the hype, folks! Come to Stillwater to see this one. Jeannie has talked for a year about how good a job Shocker has done for us. These cattle are awesome. I even brought up to John we may want to think about using him in the flush program. This heifer epitomizes all we want to do here when it comes to raising the kind we know will work for our customers. We always get questions about how the EPDs match up with the cattle. Well, we know the cow family behind them, and when they look like this, who needs to look at a bunch of numbers?

Conley GCC Shocker C19
3/4 Simmental sire of Lots 235-237

lot 236

Shocker is one of those bulls that consistently makes us proud every time we turn around. He has been primarily used as a turnout bull to clean up the older cows. He stamps his progeny with the look and power we love here at the G-. 133G is a perfect specimen of what Shocker can do for a breeding program. Killer looks with a big body and maternal presence to her design. If you need some Simmy blood that can produce all types, grab ahold of this one.

lot 237

Here is another Shocker daughter that is simply "the right kind." Out of a New Look daughter that consistently produces good ones, 134G is a deep sided, bold sprung female that has the balance and eye appeal to work in any facet of the industry.

Shocker

We like this one a lot. She looks like a brood cow with the flash to make some show heifers. Perfectly patterned for today with the width and yet the refinement for even the most critical. There are lots of options for this young lady when it comes to which way to mate her.

Here is a purebred out of the Macho daughter U311, who was a past champion in Kansas City. Two half sibs by Pay the Price sold in the Classic last year as open show heifers, one of which was named Champion Simmental at the Nebraska State Fair this year. U311 is now deceased, so this Dew North daughter will be one of the last. This heifer is the kind to take a purebred program to the next level.

Broker

lot 243

This is a favorite of everyone who has seen her. Elegant, powerful, and just downright awesome. If you are serious about making some percentage Simmy show cattle, take a look here. This one can do it all. You can't make one any better than this female. Bold sprung and massive out of her hip, she has that power and still looks like a lady. Definite donor material.

lot 244

Here is a full sib to the show heifer purchased by PKL Cattle Co. that was Reserve Grand in Fort Worth and Third Overall MaineTainer at the Maine Junior National. The Broker/Whiskey combo is just flat out deadly. It does not matter if you're wanting show cattle or trying to make a herd sire. These cattle are phenomenal, and this heifer is no exception. Balanced and proportional with all the right angles and the power to improve any program. Her dam, Z450, is a full sib to Cerveza and has produced as many sale topping and eye catching progeny as any we own. Cow Power!

Here is a female with a unique pedigree that will get even the most critical breeders excited. A Step Up has sired countless high sellers and champions for several years. The 207B cow is out of a full sister to the great 414 cow that has put champions at the backdrop consistently year after year and still is to this day. G964 is a smooth made, robust female with loads of volume and mass throughout her skeletal makeup. If you want a pedigree that can cross with all of the hot sires of today, here is the one to do it!

Lots 254–260

These seven flush mate sisters sired by Blacklist and out of Tiara are royally bred and look the part to be future donors in the end. Purebreds like these that have the body shape and mass to their center make for easy mating decisions. If you like one of these girls, you will love them all.

GRISWOLD CATTLE

Saturday, December 19th

Whizard

lot 261

The Whizard females need no introduction. They have consistently been some of our best producers year after year. Whizard daughters have been raising champions all over the country. Doesn't matter if you're looking to raise Simmys or show steers, they can handle both. The bottom side of this pedigree goes back to the great 932L cow, the dam of Black Watch. Add in the fact that F185 is simply stunning when you see her in person, and you can see why we like this one so much. Don't cheat yourself. Make sure this one goes home with ya!

lot 262

When you talk about the ability of cows to produce consistently, you need to sit down and have a conversation with Barry Reinmann and Robby Vanhove on Whizard cows. They will tell you to stick in a straw of HIA, and no matter her quality this is a mating that works every, single, time! Whizard puts his females together with a maternal look all their own. F188 is square built and cowy and the kind to raise the high dollar ones.

For those who may not know what a Whizard female can do, you should ask Brad Smith. He bought one several years ago that has raised a Grand Champion Steer at the Iowa State Fair and Colorado State Fair. Whizard not only puts maternal features into his females, but they have the punch to put their progeny in the winner's circle. F8118 is that kind for sure! Perfect out of her hip with muscle shape and expression throughout while maintaining a bold rib and depth of body for the everyday cattleman.

lot 278

This Loaded Up daughter is out of a super productive Masterlock daughter. To this day, Greg thinks the Masterlock cows have been undervalued. They always produce exceptional calves, no matter how they are mated. F250 shows the internal dimension of her mother with the length and muscle shape to lay down and have some good ones. Analyze this one from any angle, and we are sure you'll love her.

lot 279

This could very well be one of the favorites sale day. The Loaded Up daughters have made their way into our donor program, and this one should be in yours. Bold sprung with extension up front is a hot commodity nowadays, and this is one that has it all! Make sure to find her!

Loaded Up

The Loaded Up females have far exceeded our expectations. The two- and three-year-olds we have retained are some of the prettiest uddered, biggest bodied cows in their pastures. They have raised some exciting calves that you will hear from next year! They are perfect for today's industry. Moderate milking machines that transmit power and shape into their calves. We are excited to see what they will produce with our new lineup of Simmental herd sires.

A cow herd needs to be built around females that have the proven ability to generate consistency. With Loaded Up's ability to sire functional cattle that cover all facets of the industry combined with this one's Black Watch dam being a phenomenal producer, F172 will be an asset for several years to build around. She is a perfect blend of look and power.

L901 is one of the most famous Simmental cows around here. She is the mother to both Steel Force and Momentum and a host of others. She has left her mark on the breed forever. The Loaded up calves out of her have been nothing short of outstanding. This purebred heifer is functional in her type and kind with the right design to make those purebreds that can move a program forward.

Steel Force has had more daughters that have topped this sale than most any other bull. Time after time, his progeny find their way to the top. This female is what Steel Force is all about. Study this one hard. Look at the length up front and then the width out of her hip that just explodes with shape. If you are seriously wanting to make some Simmy show cattle, stop right here. They don't get any better, guys! We love this one.

IMPORTANT SALE NOTE REGARDING BREEDING INFORMATION

The pregnancy status reported is the projected months safe in calf as of sale day.

All of the bred females that are noted "Likely safe AI" are just what that means—likely bred AI.

We spent a lot of time preg checking these; we won't get every one right, but we will dang sure get most of them right.

The females that only have certain months bred on their breeding means they are likely bred to the GCC Angus clean up bulls, unless pasture exposure is otherwise noted. We won't get everyone of those right either—some of them will calve to an AI date.

This heifer is a full sib to ETR Blitz 208E, the herd sire for ETR and Hartman Cattle Co. Sired by Profit and out of 167C, who sells as Lot 540, G672 is stout featured and wide based with the donor look to her! The genetic package this one puts together is outstanding. Along with her phenotype, this female will make a huge contribution to a donor lineup for everyone.

Lots 331, 332 and 333 are full sibs to the heifer purchased by Jenna Tlach from Iowa in the 2017 Classic. Purebreds with this much center body, eye appeal and quality are hard to make. Their dam sells as Lot 549 and is a donor cow that Kim has built his herd around. You can do the same thing with these three daughters. A maternal sister sells as Lot 334.

The Blitz progeny have topped sales the last couple of years, and this female could very well be another one that does it. It's hard to find high percentage cattle that are shaped like this with all the look and balance this one has. Big square hip that sits on top of a huge column of bone, all in a square built, bold sprung package. Tie in here and ride the ride!

A cool made, feminine fronted Blitz daughter that is drawn out perfectly from the side. Long and level topped with power out the backside of her skeleton. Females like this will make anyone look smart in the end.

 Sire of Lots 337-342
 His dam sells as Lot 540

Sired by a Recall son and out of a Broker daughter, here is one with the perfect blend of performance and maternal characteristics. These are the money-making kind. Built on a solid foundation, Lot 343 comes with added value and can contribute to anyone's program.

Simmental females like this are what can pay the bills for a long time. The longevity instilled in the pedigree of this heifer is legendary. Recall on top and Hammer on the bottom. Both are sires that continue to out produce themselves year after year.

Griswold Cattle retains one-half embryo interest.

We start off our Angus bred heifer division with a female we think is extraordinary. A Money Earned daughter out of the great 606C donor cow. This heifer's granddam is the one and only Juanada 927K. Study the lines, the boldness of rib, the squareness of hip and add that together with the pedigree. This one can be a lead off donor for any program in the nation. With Money Earned's added growth and power and the maternal predictability of the bottom side of this heifer's pedigree, it's hard to find a flaw in this female any way you look at it.

This is one of the few The Natural bred heifers that will ever be sold. With the bull himself being deceased and a limited supply of semen, the value placed on his progeny will be very high. This is an own daughter of 632X, who could quite possibly be put into our donor pen. The Natural calves have a look all their own, and this heifer is no exception. Long spined, beautiful fronted and stout hipped with the right kind of body shape and extra punch to move a breeding program forward, this one is the donor kind. AI bred to Style, so the calf inside her is just an added bonus to an already superior package.

Standard Design

The Standard Design females are quickly becoming some of our favorites around the ranch. Standard Design is a maternal brother to Gold Standard, and he has certainly lived up to his older half brothers' reputation. He stamps his progeny with the right kind of look and power, as you can see in all of these females sired by him in the sale. They have big rib cages, and they are the moderate framed and easy fleshing kind of females that even the most critical cowman has to like.

We can't say enough about our New Game females, and 725G is one we are really proud of. She goes back to an old school Ohlde-bred female that has produced more than her fair share of Classic sale cattle. This New Game daughter carries the look and balance that her sire puts into all his progeny. They are sturdy at the ground, bold in their shape and exquisite in their look. This heifer has to be considered for a surefire future donor candidate.

Wow! What a pedigree. A New Game over an own daughter of 927K, this female has quickly risen to the top of her contemporaries in terms of look, power and substance. Some cattle just have that "it" factor, and Lot 367 does. Couple all this with her maternal predictability, and you have a secure base to build off of.

721G is out of a beautiful Just Right daughter that is 11 years old and resides just down the road at our good friend Bryce Scalf's place. He purchased her last year in the 2019 Classic as a 10-year-old cow, and she has done a phenomenal job thus far. With predictable genetics from top to bottom, 721G is sure to be a hit, whether she goes down the road or to another state.

What can we say about Gold Standard females that hasn't already been said? In our minds, they make the perfect cows. Moderate built, self sufficient, the kind you never have to worry about. They calve easy, they milk exceptional and maintain their body shape. Whether you use them in a purebred program or a crossbreeding scenario, we could almost guarantee they will work every time.

Legacy females like this don't come along very often. 722G has two shots of Total Recall in her pedigree. If you want to see what Recall can do, here is a perfect example. A moderate built, powerfully constructed, huge bellied, cow making machine.

Where do we start when we talk about Style? You could fill up every page in this book with the Champions and Supreme Champions from all over the country. What a lot of people don't talk about is the fact that his daughters make outstanding females. They have awesome udder quality, mothering ability and calving ease. Put that together with the growth, the power and the look, and these females can raise any type you want.

This Gold Standard out of a Whiskey cow is the perfect blend of Maine/Angus genetics. This is the best of both worlds here in Stillwater. A bold sprung, stout hipped, easy doing female that is backed by an awesome cow that is just starting her production career at the G—.

These commercial Angus females are the kind we make our living off of. Study the pedigrees, then look at the heifers. You can rest assured that these will make some major replacements for anyone's program.

HOW TO BID ONLINE

STEP 1 – CREATE AN ACCOUNT and REQUEST BIDDING CREDENTIALS

You can always view an auction without signing in. You must only sign in if you plan to bid on cattle. If you plan to bid on livestock, you must CREATE A NEW ACCOUNT and then request for bidding credentials at cci.live. Once you are approved the first time, you do not need to go through the process for each sale. Please DO NOT wait until sale day to request bidding credentials, as some sales require approval more than one day ahead of time. Some sales also require a "bidder passcode" from the sale management for that auction. When you create an account, please use a valid email address. If in the future you forget your bidder's password, you can reset it immediately through the email on your account.

STEP 2 – GET A BUYER NUMBER

Once you are an approved bidder at CCI, you simply go to the SALE SCHEDULE PAGE and click on the auction name that you are interested in, then click BID ONLINE and click GET BUYER NUMBER. You will instantly be assigned a buyer number for that auction. Some sales also require a "bidder passcode" from the sale management for that auction. When you click "get buyer number," you will be instructed to enter the passcode from the sale management for that auction.

STEP 3 – Always refresh your screen if you are going in and out of service and if you "leave" your computer or the app for more than 15 minutes. The computer may log you out if you have not been active for a period of time. It's always a good idea to refresh your screen right before the sale starts. Driving while bidding is not recommended!

BIDDING and SCREEN PRICE—VERY IMPORTANT!!!!

Please note that the asking price on the screen is REAL TIME! Screen or asking price takes precedence over audio and voice! This means that if you have a slow internet connection the auctioneer may be a few seconds behind the screen price that is showing. The screen price is the asking bid at the auction and there is no delay, so you can bid with confidence by watching only the screen asking price. If you have a slow internet connection, we recommend that you turn off the audio and only watch the asking price box. The audio and video are for entertainment purposes only. You can also phone in to place your bids if you feel that your internet connection is not acceptable.

Always refresh your screen periodically, especially if you move in and out of service.

Always refresh your device if you have left it for more than 20 minutes or return to the app after leaving it.

IF I FORGET MY PASSWORD

If you forget your password, simply click on FORGOT PASSWORD and CCI will email a reset password link to your email inbox.
