Classic

G

December 15 & 16

stillwater, oklahoma

2023

See you at
the Classic!

Welcome to the Classic!

We work all year for these two days. I just read through the first proof of the catalog, and what stuck out to me is one—how hard our small workforce works to get that many cattle looking good, and two—how many friends and partners we have made over the years. It makes me proud to see how our genetics work in different herds across the country and how they prosper from using them.

If you watch social media, you can see how Jeannie and I are trying to raise four little kids. It's a lot of fun! It's Thanksgiving break, and Maggie and Garrett have been helping at the torching chute. I hear myself telling our kids more of my dad's little sayings. "Don't move so fast. They will do what you want if you just give them a minute." And things about life, like "Now remember the biggest decision you will ever make in this life is who you marry." Time flies, and it's amazing as we raise them in this wonderful industry that shows them responsibility and respect toward other people, at the end of the day we long for their happiness as they grow into adults.

We are involved in almost every aspect of this industry, and as I watch either an online sale or a commercial cow sale, it's pretty easy to see that *great genetics pay every time*. Cattle that are functional and have that little extra eye-catching correctness and balance always bring a premium.

I can't say enough about our crew and how hard they work! It's a blast for me to work alongside every one of them. It's been the greatest to be married to Jeannie! (I must have listened to dear ol' Dad).

Thanks for your interest in our program. With this many cattle selling, there are going to be good buys. **We held nothing back. The quality is as deep as we have ever offered.**

See you at the Classic.

John

the Classic

NEW SCHEDULE FOR 2023!

Friday
FRIDAY, DECEMBER 15

Classic Collegiate Judging Contest

9:00 a.m. CST

(Registration at 8:00 a.m.)

Lunch will be available for all teams and sale guests. Judging contest awards will be presented at 1:30 p.m.

“The Classic” • Day 1

2:30 p.m. CST

Cow sale followed by

“The Frozen Classic”

See separate catalog for the Frozen Classic.

Join us for a Prime Rib Dinner following the 2023 offering of “The Frozen Classic.”

Saturday
SATURDAY, DECEMBER 16

Breakfast pastries available at 8 a.m.

“The Classic” • Day 2

10:30 a.m. CST

Lunch and refreshments will be available throughout the day.

Sale location: 9313 East 6th Avenue,
Stillwater, Oklahoma

...located 7 miles east of the junction
of Highways 177 and 51

(Note that this is NOT the
GCC show barn / mailing address.)

Online bidding for both sales at CCI.live

"THE FROZEN CLASSIC"

**IMPORTANT SALE NOTE REGARDING
BREEDING INFORMATION**

The pregnancy status reported is the projected months safe in calf as of sale day.

All of the bred females that are noted "Likely safe AI" are just what that means — likely safe in calf to the AI date.

We spent a lot of time preg checking these; we won't get every one right, but we will dang sure get most of them right.

The females that only have certain months bred on their breeding means they are likely bred to the GCC Angus clean up bulls, unless pasture exposure is otherwise noted. We won't get every one of those right either — some of them will calve to an AI date.

Heifer service sires listed on page 67.

Cow service sires listed on page 93.

- **Griswold Cattle retains the right to two successful flushes** (six grade 1 or 2 embryos per flush) at the owner's convenience and Griswold Cattle's expense on all females in the Classic, unless otherwise specified. If an animal is later resold, Griswold still retains the right to flush.
- **Griswold Cattle retains cloning rights** on all females in the Classic.
- **Registered cattle sell under the standard terms and conditions of their respective breed registry.** *Exception:* Females are guaranteed to breed or produce transferable embryos. If a female is evaluated by a licensed veterinarian and is considered obese, breeding guarantee is null and void.

Griswold Cattle retains 1/2 embryo interest.

There has been no doubt and no hesitation in John's mind nor his words who would be Miss Lot 101. It's a place that is reserved for the most elite. Former Lot 101s have gone on to carve out their own pieces of history in programs across the nation. These are the type of females that could wear a blinging tag in their ear that had neon lights and flashed DONOR over and over again, because they are just the kind to make it all.

This heifer came from our great friends the Copelands, and her G- genetics run deep. An own daughter of Garth out of a Steel Force daughter and back on the great Hero 6267, old time genetics. 322K is the donor kind all day long—perfect size, big topped and extra power with bone, mass and shape all in one attractive, beautiful picture. She's the type that's hard to make! She has all the same parts as all other cattle, but the way she puts them together flows into symmetry and balance. It is by nature the definition of beauty. If you didn't know a thing about cattle, you could walk into the pen and she would still be the one who would catch your eye. Write down your stars, circle the number, and then sit in place, stay awake and just keep putting that hand in the air. This is the kind that will take your program to the next level!

Miss Classic Lot 101, 2023

lot 102

If you want the epitome of beautiful creatures, the dam of Lot 102 was that type and kind, with perfect balance, powerfully made and the femininity of a great one. Maternal sisters to 2405K have brought over \$20,000, and C517 has produced well into the six-digit figures. The granddam 461P herself raised into the high 6-digit figures and raised donors and as many Lot 101 females as any cow we have owned. There is huge potential in this pedigree. It's deep with donors, and the quality travels down through the generations. Mark your stars, boys and girls!

GCC Whiskey Legend C517 ET
Dam of Lot 102

lot 102

lot 103

Y21 is a big time donor for the Caffee Family. She is surefire. They have crossed her multiple ways, and she does not miss. Their program is heavily influenced by the kind of cattle that make money and are deep in G-genetics, and it shows on 471K. We picked her as a calf right off her dam. She catches your eye every time you walk in the pen.

J448 comes from a cow family that carries the ever-famous EXT on her pedigree and has proven time and again to make great cattle. She's an 07 model and still going strong. She's been bred Angus and she's been crossed with Whiskey, but this may be the best cross yet. Talk about power! When J448 moves, you take notice. She has the shape and design to make a powerful steer mama with the right amount of look and femininity to keep her in the papered sector.

Y748 is an awesome cow that does not miss. We may sound like a broken record when we talk about these Garth daughters, but they are about as tight in type and design as you can make a group. Ample bone, powerful topped, muscle in that lower one third, and the thickness that you haven't seen in cattle in a while. I hate flat made cattle—we raise beef cattle. They need to have substance, and by golly these Garth daughters have it. Regardless of what kind you are raising, if you are looking for extra mass, look long and hard at this set.

The Morris family have been lifelong friends and always send us some of their best from the Sun River Valley of Montana. You want to talk about hardy made! These cattle have to be able to withstand the elements, they have to work and bring in a calf. This Garth daughter is spot on to the kind of cattle that work in the real world. Her substance, power, and design may be practicable, but she also has the extra dose of pretty that is going to make you fall in love and look twice!

the Classic
...wrapped and ready for You!

With this pedigree, the sky's the limit as to how you can cross her from here on out. Take her Simmy or keep her Maine, she has a solid base to start with. When I left home I got to pick ten head of my favorite heifers out of the replacements, and C101 was on that list. One, she was beautiful, and two, her dam and granddam were two of my favorite, most consistent cows in the program. I am a firm believer in cow families and in choosing those that are consistent.

This is the type and kind we have all come to love and expect from Garth! He makes them as consistent as any bull in our lineup and is one of John's go-to bulls. You mate him back on a solid Angus cow base, and you are destined to get one you can build a program around! She is stout and cowy in her build and has the big feet and legs that we all love. Breed this one any way you want. With 932L in her pedigree, she will produce no matter how she's mated.

Having the crew's stamp of approval is a big deal. They are with these cattle day in and day out, and they have favorites for good reasons. They love the kind that catches their eye time and again every time they walk in the pen, and that's just the kind of girl 421K is. Game On is proving to make phenomenal cows. Now mix that with the power of the 066 cow family, and it's easy to see the end result would be the type and kind of 456K. She's a rock star for good reason!

Everyone at chute side, in the barn and in the picture pen came to the conclusion that this Game On heifer is nothing short of incredible. Her dam is a young, up-and-coming Whiskey daughter that is going to knock it out of the park in production. This pedigree is loaded with good females. Her granddam is a donor female out of the great 741K, the dam of Total Recall. W912 was as powerful an Angus cow as you could possibly make. 411K has a storybook pedigree top and bottom, there is a reason she is this good. Now take her home and make her famous. Better yet, let her make *you* famous!

Pedigree of great cattle top and bottom. Line up the donors, line up the good! Clear Dawn is a full sister to Bae and Molly, two cows that have written their own history as high sellers and sale highlights. The 5066 cow family is synonymous for making the good ones time and again—this heifer is no accident. She's hairy, she's pretty, she has the right amount of power, and she has the pedigree to take you to another level. Her mother is in the donor pen, and donor is stamped all over J409 for good reason!

006B, the dam of Lot 126, is an awesome Whiskey daughter.

A high Maine with COLOR like this is basically impossible to find. Now the best part is that it wouldn't matter if she was purple, she'd still be flat out amazing. POWER, POWER, POWER. Huge hipped, big footed, and good looking. The sky is the limit as to what you can make out of this female. Keep her a Maine or make her a big time steer producing mama, she is just that kind. Sired by Game On, the cow maker.

Her dam, CMCC Barfly 407, has made high dollar cattle time and again. A maternal sister brought \$17,000. The great-granddam was a National Champion, and purple runs deep in this pedigree. Just imagine having that upper hand of walking in with a smoke in a class of solid black females. She'd darn sure get noticed black, but you are guaranteed a look when you are marked up and colored like this lady.

If you want to know the reason we keep making Whiskeys, feast your eyes on this heifer. She's just our kind, and a Whiskey cow lays on the bottom side. That little extra kick of style and look never hurt anything! Study J431 from the ground up. Look at her foot size, watch her when she moves. She is wide based with an extra dose of muscle, she still hits her stride, she's sound as can be and she's made right as rain.

We are pumped to be adding Fame to our 2024 G- bull lineup. Heifers like this are the kind he makes and kind we like. This one is killer! She has all the looks of a high time donor. She was raised by Schraggs in South Dakota, and she is stunning in her makeup. When you talk about huge legged and powerful, she is a beast. When we committed to bring you the best, we held nothing back. This is one that needs to enter the donor pen, because you don't find her kind of uniqueness every day. Just ask Cory Thomsen how much he loves this one. She's stamped with plenty of approvals from top cattlemen across the country. Donor, Donor, Donor!

Donor, Donor, Donor!

GCC Fancy Pants 3159
Dam of Lots 133 and 134

lots 133 & 134

These two flush sisters from our good friend Lonnie Ruff are as good as you will find anywhere! They are direct daughters of his cornerstone donor GCC Fancy Pants, a past Classic highlight that went on to be a top producer for Ruff Bailey Cattle Company. They had the misfortune of losing her this summer and after a lot of thought have decided to offer these two as the first ever to the public! They are direct daughters of the now-deceased Daddys Money, and it's no secret what he has done for the Maine-Anjou breed. These two females are as stout as you can make them with huge feet and legs and all the power in the world. These are the kind of females to build a program around. They can make high end replacements and bulls that bring a premium. Tie into either sister, you won't regret it!

GCC Miss Boston 5501C2
Full sister to Lots 135 and 136

If there is one pedigree in our program that has been as successful and profitable as any we own, it would be this mating. Daddys Money x 5066, the dam of Boston, Jezebel, Bae, Molly, and countless others. 5066 has produced just under a million dollars in her lifetime. Boston herself is in hot pursuit of her dam in dollar amounts, and her sisters have proved they have that same punch and power. I told John we need to just keep all of them and live off of that cow family. We could go to Hawaii, live the easy life, but lo and behold no no no! He thinks we need to have five gazillion cows, crazy big sales, and then buy more cows because that's what makes Johnny happy! That said, these ladies would be part of my Hawaii plan if I could keep them. I have watched time and again this pedigree not only work but hit it out of the park.

This is a full sister to Belmont and maternal sister to some of the greatest cattle we have ever raised. B571 was my favorite cow that we owned. She was one of those females that you videoed every time you saw her. Super powerful, huge footed, and yet she still was beautiful and feminine, I literally LOVED HER. Her progeny brought from \$8,600 to the hammer price of over \$100,000 for Belmont, and there were simply no throwaways. When I married John, 673R was the prettiest Angus cow I thought he owned. She was a legend out of OCC Dixie Erica 816B—yes, you read that right, the FULL sister to Emblazon and an own daughter of 776K. A maternal sister sells as Lot 12 in the open division.

Send her North, boys! She's hairy enough to survive Alaska! End Game cattle have made quite a stir across the nation, winning banners and taking names. His semen is extremely hard if not impossible to find. Here stands your chance to own a daughter that has the look and design to raise the next great one! She has the power of Whiskey, the rarity of End Game and all the looks to go with it.

This is a Masterpiece daughter that we bought from Brett Richards that we almost showed and really should have. She is just that nice. You need to study her angles, her design, and then take her home. We have a lot of fun buying a few of these heifer calves each year. We watch a ton of sales and every once in a while get a wild hair that we need more cattle around here! This is the kind that will not hurt you. She is donor good with a big foot, long neck, big hair, the power to go with it, and she's pretty to top it all off.

Halversons are one of our go-to spots for embryos. They do an awesome job, and Sam is putting together a great set of cattle and has been having an online sale. 201K's dam came out of the Classic, and you can see she is working in producing the right kind. With a solid Duff female on the bottom side, the doability is an extra plus. 201K has been one of my favorites from the get-go. She's balanced throughout, and her lines and structure all match up where they need to. You'll find her on sale day, I promise!

The dam of 421K is just starting out and made a \$5,300 bull last year and then produced this gem! If you like them good, if you like them fancy, and if you like to have them out of a good mamma, she is your type and kind. The power of a Garth, powerful Angus genetics on the bottom side, and two of the most powerful lines of Whiskey cows you can find on the top side.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- As a buyer, you DO NOT need to login to watch the sale but you must have a validated account to bid.

To BID ONLINE go to www.CCI.live in your Chrome, Firefox, Safari or other modern browser:

- 1) Click on the sale schedule page.
- 2) Click on the sale of interest.
- 3) Click on Bid Online- Register and then Get Buyer Number

- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then "Get Buyer Number." Some auctions require valid credit card number on file to obtain a buyer number to bid.

- CCI.live will operate with ease on a modern cellular device, laptop, desktop or tablet.
- A current browser is important and will always make your experience better.

- For successful bidding you must have good Internet service! It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.

- Support line open during all sales. TEXT 405-400-9505 - Please alert the ranch for your hauling preferences.

I'd like to say this was an honest deal where we were trying to make a great one, but honest to goodness, I'd like to know who lined up her pedigree this tight, Johnny? That said, it worked. Line bred Maternal Made and flat out good. If you want one incredible, this is one you will love. She is bred for style, bred for consistency, and the stars all aligned to produce one like this! Ohlde became famous stacking pedigrees. When it works, it adds a whole new dose of consistency you didn't know existed.

This lead off Done Deal heifer is super good. She goes back to Joe's favorite cow family that we owned and the great GCC Miss Chelsea 6709. Long necked, smooth shouldered, and she still has the softness and doability you want in one. She has power through her top that carries all the way down into her lower quarter and brings it together on a soft pastern and big foot.

Getting calving ease bulls to produce quality stock that are marketable on that first go round is something every producer seeks to find. Full Tilt has proven time and again to make those cattle that stick out in a pen and rise to the top. The dam to 451K is as pretty a Whiskey daughter as you can make—sharp in her makeup, big footed, long necked, and powerful.

Copelands will be the first to tell you the power of the cow family behind Full Tilt, and it becomes evident when you look at his daughters. 504K is feminine in her design, the right angles, sound, good moving and good looking to sum her up. For a calving ease bull, these Full Tilt daughters are beyond impressive.

Whiskey!

Irish Whiskey

3/4 Maine sire of Lots 202-205

Irish Whiskey is without a doubt the cornerstone of Griswold Cattle Co. His influence is seen throughout our herd and throughout our sale offerings. It's hard to put into words what this bull has done. Everyone can remember the high dollar sale features and the banners that were won. But the lasting legacy of this iconic bull should be the hundreds of daughters that still roam these and many other pastures across the nation. You can tell "She's a WHISKEY" from a mile away. They have a look all their own. They are our best cows, and we still plan to make a few more for years to come! Like John says, "I've tried to find Whiskey's replacement for a long time. I'm still looking."

This heifer is flat out good! She, like many others, should have had a picture. There just isn't time or space to picture all that we should.

Each year one of the favorite trips made is to the Morris Family's in Montana. The Sun River Valley demands strong people and strong cattle, and the Morrises represent both of these well. They have bought our bulls for 20-plus years, and their cattle are highly influenced with G-genetics. John went through and hand picked these heifers specifically for this sale. They are cornerstone kind, backed by good udders, good feet, typy, attractive cattle that have to work in the real world. Buy with confidence, this is a set you will never regret owning.

It is no secret that Bradley Hale consistently dominates the Hereford steer market in Texas, so we are pumped that he is sharing his genetics in the Classic! This one is so stout from the ground up, big feet, huge legs and a big, square hip with all the shape and power you could ask for. She is good looking with a neck a mile long and incredible structure. Her 15-year-old dam has been a no-miss cow, most notably raising the bull H12. The Highway 33 daughters are awesome producers!

BH MISS 425

8.5 MONTHS / PE 5/1-7/1 CORRIENTE

Appreciate this one for her look and stoutness of feature, her incredible body shape and rib design, and her near perfect feet and legs. She has an awesome, soft hair coat and the look to stamp them out. She balances up incredibly good from the side, and she is wide and square hipped with plenty of power. She is a maternal sister to the new sire Relentless that produced the Champion Polled Hereford Steer at Fort Worth in his first calf crop.

Stout and powerful! If you want them big backed, square hipped and wide that are true to the ground, this is your girl! So much power and substance with big feet and legs and still doesn't sacrifice structure. She is so good through the center part of her body, with a big ole rib cage and deep from end to end. A maternal brother sold for \$25K last year. Power in the blood!

If there is one person in the world other than Joe Griswold who has been a mentor and shaped the Griswold program, it would be Ken Birkland. When John had the chance to go AI a set of cows on the Birkland operation and then buy the heifer calves, he jumped at the chance. Solid cows, good footed, good udders, good cattle, and this heifer will show you just what those cows are made of. The lead off SAM female for the 2023 Classic is one that if you love them red, and you love them flat out good, you will have google eyes and a smile when she walks in front of you. Body, foot size, a full blaze face, big topped and really just flat out beautiful. She is the perfect size and the perfect kind to make purebreds out of. She's the kind you'll want to wake up to every day you own her.

This SAM is as cool as you will find anywhere. Big footed, big ribbed, and dang good looking. John and I got some of these best pedigreed cattle while dad was still at the helm of the ship and deciding how they got bred. The old genetics were golden and when mated with G-, the combination is priceless.

AI 7/10 OMAHA / LIKELY SAFE AI / PE 7/10-7/31 OMAHA

If you came to find a donor, do not pass Go and do not collect \$100! This is the one you have been saving your Monopoly money for! This beautiful baldy is bred as good as you can make one, being a direct daughter of the legendary 41D and sired by one of the most dominant Simmental bulls in recent years. This cow family needs no introduction for what it has accomplished the last three years, and this female is no different. A full sister sold two years ago for \$35K, and another sells as Lot 31 as a sale highlight. This one has Brood Cow written all over her. Take her home and enjoy the ride!

You see a lot from the Daddys Money x 5066 pedigrees—it's where Boston and many of her sisters shined. But we need to be talking about another line that is just as powerful and profitable, MOLLY! Broker x 5066 produced Bae and Molly, two of the most unique individuals we have ever raised. Molly herself was a Classic Lot 1 when half of her was purchased by the Rodgers family; she was Third Overall Supreme at the Iowa State Fair, but her true time to shine has been in the donor pen. Study 2122K. She's made right from the ground up, from the tip of her nose to the end of her tail, and even better yet, she is bred to consistently reproduce just that kind of cattle.

SAM x Broker, lining up some of the most powerful and promising genetics the Simmental world has to offer. You will watch these two sires' influence continue for generations. 770 is beautiful, good fronted, long necked, big hipped, and comes down on a big, solid foot. Look at the amount of power down her top and that lower quarter. She isn't a flat made thing. This girl has the power!

253K is the kind to make PB cattle out of. She has the bone, the shape, and the design of a fancy lady in a high percentage package.

This is a female we should be holding on to. We are also selling you her dam, E112. John thought E112 was the very best open we kept that year, and that's a pretty large statement. This cow family is incredible! Volume—there is so much to her, so much to her dam and to the cow family behind her. There are some cows that we hate parting with. We've always made it a point to sell what others aren't willing to at the Classic, it is what sets it apart. You aren't buying culls, you are buying our very best, and this one we admit hurts to part with.

We like to stir things up around here and mix the breeds we love. It gives a little style, a little more look, and it flat out makes good cattle. Feast your eyes on this SAM x Maternal Made. She has the broodiness of a SAM with the sharpness of a Maternal Made—think power and poise all in one package! These are the kind that make breeding for purebreds fun.

Bring on the power, bring on the consistency, bring on the SAMs! When we bought SAM, the number one thing that drew us to him, past the point of him being really good, was the cow that he was out of. The Proud Mary pedigree wasn't just intriguing, we knew that it held the key to consistency, but I don't think that even we dreamed of just how consistently good the offspring would be. She'll make purebreds, boys and girls!

Little different twist on pedigree here, sticking with these great built SAM daughters but back on an impressive Executive Order cow that is making quite the name for herself at 4/B. Executive Order has proven to sire high volume, capacious, sound cows in production. This one is ultra good looking, big ribbed and sound as a cat. If you are serious about raising high quality show heifers, tie into this one!

This is what SAM is known for producing! High quality, good, functional kind of cattle. You have to love this one for her substance and foot size, her stout, square hip and tons of shape and muscle to produce high quality cattle. With all that power, you still get all the look in the world with a feminine head and neck and structure that propels her around the pasture. Her Hammer dam is beautiful, has an awesome udder, and produces daughters that look just the same.

Bring on some Whiskey! This is one of our favorite matings on the bottom side. Hang around us long enough, and you'll find we love nothing more than a good Whiskey cow on the bottom side. As you study 153K, you won't have a hard time finding out why. That extra look, the extra extension, and that makes-you-stop-and-stare kind of beauty.

W/C Bet on Red 481H
PB Simmental sire of Lots 300-310

lot 300

Working on these footnotes, I call John no less than 5,678,990 times a day. On one occasion, 811K was in the chute. He said, "Jeannie, the one we are clipping on is incredible!" She hails from a top Red Angus donor that Keith Lambright owns with Christy Collins, and she is the kind that dreams are made of. When we say the Classic offers the elite, this Bet on Red daughter is the kind of female that stands tall behind that claim. Take her home and build your own legacy.

lot 301

Who wouldn't fall in love with a red head made like this? Then look at her pedigree and prepare yourself to be blown away. By blood, Red Velvet is a full sister to Genoa and is the kind of female that is proving just what the Bet on Reds are going to do as cows. Her dam is a full sister to the great "Boots," who not only set the Simmental world on fire during her show career, but her value as a donor female and changing the industry in her short life is unmatched. She made as many high dollar daughters and sons that stand in the bull lineups and donor pens as any cow in the nation. This pedigree is royal. Study her makeup, her design...it's pretty easy to know what to do here!

Full brother in-blood to Lot 301...
Lot 101 in the 2023 Grass to Grid

If there is one thing we would like to prove in this sale, it is the fact that Bet on Reds are going to make amazing cows. They are as cool looking as any sire group you will find, but with that comes substance and design that you are hard pressed to find with a front 1/3 like they have. Three sisters to 117K have averaged \$6,500.

How about this for the bottom side of a pedigree?! Gold Standard x Broker. This is a pedigree you can have fun with! With the fleshing ability of Gold Standard and the power of Broker on the bottom side and the extra zing from Bet on Red, this is a female that opens a world of opportunity. She's got bone, mass, and looks all wrapped up into one attractive package. Buy the good ones, they make it back way faster!

John's exact words, "She is freaking good, she's your kind!" These are just the type I love that entails big bodied, broody made, plenty of shape, plenty of power, and still the femininity that makes the good ones great. Her dam is an easy fleshing, good looking kind that has given Whizard his stamp of approval as a female maker. We promise if you haven't used Bank On It yet, you will after you see this set—they are the show stoppers!

Griswold Cattle retains 1/2 embryo interest.

This is the kind of female that makes the Classic buzz with excitement. You just don't find her kind every day, and when you do, well...it's what dreams are made of! She has the extra power, body shape, huge turn to her rib cage and square hip with a super wide pin setting. When you look for donor cows, this is the kind that comes right to the top of the list. She has been a favorite at our house for a long time. Spacious, open rib, powerful yet still maintains poise and pretty.

Did someone turn up the heat, because it just got hot when 156K walked into the ring! These are the kind that we set out to raise! You can whistle, you can holler, she is just that good looking. Swoop of the rib, big middled, cool fronted, plenty of foot size, and plenty of GOOD! It's all right if you stare at the pretty girls, they actually like it, just pick your chin up off the ground so you look a little more civilized. Read through this pedigree close. I hope that it goes back far enough in the generations to show 066 on the bottom side. When we put faith in this pedigree, it's because it carries down through the generations.

The shape and the design of this lead off Shocker daughter will make you fall in love. You won't find one any better anywhere. Now pay attention to her dam. She is one of the best looking Recall daughters we have, a moderate tank of a cow that is only starting to scratch the surface as to what she can produce. She made a \$17,000 Garth a few years ago, and this one just may be better! If you are looking for the next donor cow kind, this one is sure to be at the top of that list.

One of the best kept secrets in terms of cow makers is Shocker, offering volume, mass and maternal all wrapped up into a stylish package. Stand back and admire the total package of this female. Power from the start with tremendous body, rib and depth, wide topped into a square hip and the extra bone, huge feet and rugged look. SimAngus females like this are built for the future as well as today's type and kind.

A Whiskey x 841M sold for \$21,000 in the Classic. This is a cow family that is deep in quality. Think about those broody made Angus cows, beautiful udders, pretty headed, and swoopy bellied that you just look at and admire, and that is this cow family defined. J112 has another layer of quality, being sired by Shocker. The cow families and the stars all line up. Mark this one, she's that good.

Shocker x the great 660B. Shocker is known to make flat out good cattle. He never got bred AI heavily here, as he always got his own set of ladies to clean up. Yet time and again when we sort for a sale, his progeny are at the top of the pen and the ones you fall in love with. Now let's talk about cow power. 660B isn't just an ordinary cow. She DOES NOT MISS. She has made herd bulls and high sellers. If I had to pick one Angus female right now in our cow base, she's in the top two. That is a huge statement.

9155 was one of our top donors. We flushed her Whiskey, which tells you the type and kind that she was...big bodied and broody made, the kind that made those good looking, cool made Whiskeys that had the rib and function to make the great ones. Now line up those solid maternal genetics on the bottom side with the proven sire Shocker, with the stacked pedigree. Read the pedigree, then take a second look at this fancy lady and mark your stars next to her number. You won't regret it.

She is broody made, good looking, thick down her top, and powerful throughout. The proven maternal potency of Shocker is hard to deny with this female. Study her boldness through her center cavity, and the power when you get behind her. This is just what females were meant to look like.

Shocker is one of the sires that we are consistently amazed at just how good the cattle are. His cows are always the clean up cows after AI, and every single year he brings in a set of females and bulls that are at the TOP of the pen. Study these things, they are incredible! It doesn't matter what sector of the industry you are in, these are your kind. They are the cattlemen and women's kind.

If there was one lady that was in contention for the Lot 101 spot, this is my girl that would have sat there. To see her is to love her! She is the perfect size, has the angles, the dimension, and just overall looks with balance throughout. You could put her in a thousand different pens of cattle, and you would find her time and again—she is that good. This one is donor quality right out the gate. The way she is bred, she will work on a plethora of bulls. This is the kind of female that has plans to be in the spotlight for a long time and for good reason, she's flat out good.

From the Jody 066 cow family. We are showing you that no matter the breed, the number 066 in a pedigree shows just how consistency travels down through the generations. This is a cool looking, wedgy made daughter of Loaded Up, a sire that has proven time and again to make cows that have the longevity, power and productivity to increase your bottom line.

A solid Loaded Up daughter back on the kind of Angus that works every single time! This is a pedigree that is stacked with easy fleshing, maternal genetics.

The dam of Lots 375 and 376 is a full sister to "Boots."
A maternal sister sells as Lot 301.

Lots 372 and 373 are full sisters to Maggie's show heifer that won Denver this year. Their dam, "Mittens," is a top donor for us and the Baty family, and she of course is a direct daughter of "Boots," who has proven herself time and again. A full brother, Mastermind, brought \$20,000 in the Grass to Grid. Here's a pedigree that is bulletproof! Simmental genetics this good are a rare find. They consistently work and consistently produce profitable progeny.

GCC Rios of Mercedes 8243F "Mittens"

You could write a novel on this heifer and her sisters and what all they have accomplished these last few years. When Brent approached us about sending some breds down for the sale, we had no idea he would let females like these go, but boy are we glad he is! A full sister to some of the most dominant Simmental show heifers in recent years, and this one is built just like them. Good looking, powerful, beautifully balanced and feet and legs to work for days. Full sisters that are in production are already knocking it out of the park. The guesswork is over! Full and maternal sisters sell as Lots 28-32.

lot 383

Genetic improvement is greatly due to using the right bull, but all too often the big semen companies and breeders forget the most important thing, the cow on the bottom side. G600, the dam of 191K, is a maternal sister to the great Money Earned. 8137 hails from one of the most prolific cow families in the industry, the great Dixie Erica 001. Generations deep in functional, easy fleshing, prolific females. We are huge believers around here that the right Angus cows on the bottom side are the secret to good Simmentals and Maines. Mic drop, here she is!

lot 384

Lover Boy daughters in production are some of the prettiest cows you can make—wedgy, beautiful uddered, milky, and the kind you are glad you own. This is a beautiful, beautiful heifer. She is wedgy made, soft middled, and the perfect size. There isn't a hotter pedigree, and I promise if you calve a set of these Lover Boy daughters, you are going to wish you had 100 more...they are beautiful mature cows.

...as I watch either an online sale or a commercial cow sale, it's pretty easy to see that **great genetics pay every time.**
Cattle that are functional and have that little extra eye-catching correctness and balance always bring a premium.

John

1/2 Simm, 1/2 Red Angus. Maternal sisters sell as
Lots 300, 499 and 500.

She may have a splash of paint, but set down your satchel and get ready to own a great one. This is a pedigree loaded with donors top and bottom. Her dam, D131, has the body, look, and design that you want to pattern every single cow after. She produced a \$33,000 daughter two years ago and has produced her fair share of sale highlights. Big boned with plenty of hip and that lower 1/3 that is hard to put in cattle, and she still has all the shape you expect in a good looking female.

When you stack up the high dollar Simmental donors in the nation, we would put a pretty good guess on the fact that Broker has made more than his fair share. You simply will be hard pressed to find another Simmental bull that puts any more foot size and just pure power in his daughters and progeny. They carry a punch down through the generations. Study this female from the ground up, how she's made, her angles, and her style. She has the parts that set her on the elite scale of quality.

Online bidding for both the
Friday and Saturday sales
will be available at CCI.live.

6 MONTHS / PE 5/15–7/31 TROUBADOUR

Griswold Cattle retains 1/2 embryo interest.

If there is one thing I hope you do at this sale, it is to study the bottom sides of these pedigrees, and this one is flat out royal! A New Edition out of 925R, the dam of Gold Standard. If you read this book, you are going to see that the love we have for 925R runs about as deep and true as any cow we have ever owned. She lived out her last days in the pasture behind our house. The boys packed her feed and water, and she is buried down in the trees next to Boots, Boston, 1829 and 5066. She was a legend in our program. Her daughter 930D is one we have videoed time and again—simply put, she is elegant, lovely, and the ideal Angus cow. 925R made donors, and she made semen sellers. Gold Standard, Standard Design, Standard Time and True Measure all wear her name on the bottom side of their pedigree. Do not miss the opportunity to purchase the genetics we have built our program around. This brood cow in the making is huge bodied, round middled and functional the whole way through.

If there is one Angus female that turns heads and holds a gaze, it is 606K. She has all the right parts in all the right places, and she knows how to move them. This kind of Angus female is bred deep in maternal genetics that are proven to work. Her dam raised a \$7,000 bull and then produced this lovely lady. These Good Times females bred like this on the bottom side with an extra dose of maternal power are going to become valuable assets in making those solid papered cattle and half-bloods alike.

066, Jody 3323. I've always wondered why this is done in the Angus world—her name is Jody 3323 and her tattoo is 4066, one of the Angus lines from this great matriarch cow family. Her daughter 915U was never flushed but raised plenty of daughters that we not only retained in our program but were sale highlights, including a \$12,000 maternal sister to 625D. We really should be holding out to this female, as she's only the second daughter out of her great dam, and this is a stacked pedigree full of great cattle. These are the kind we built our program on.

660B. Write that number down and then remember it, because you are going to be seeing it over and over again in the coming years. 660B just got flushed for the first time two years ago. She made two lead off Angus bulls, Aberdeen Andy and Justify, before she was ever flushed and has produced well into the six digits on six head. She is just getting started, and she flat out does not miss. I have never seen a bad calf out of her. If you are looking for profitable, productive, and flat out on the money genetics, take any of these ladies home. They have the same power as their dam—big volumed, substance, and the design that will make you turn around and look twice. Garrett LOVES the Lot 457 heifer!

WOW! This one is special in every way possible. Bred to the nines and a silhouette you could only dream of making an Angus bred heifer look like! Out of the leading Angus donor at 4/B, this one is a granddaughter of the incredible 5001 cow that has generated more money than you can shake a stick at. Full sibs have topped the Classic the last few years, and two more sisters highlight the open division this year. Get a jump start with this elite bred heifer and take her straight to the donor pen after she drops this calf. The combination of look, body, power, structure and bone in this Angus female is truly unrivaled. This is one to hang your hat on!

lots 461-462-463

What a trio of flush sisters! It's no secret that 24 Karat is the most dominant Angus sire of champions in the show ring right now, but the replacements he can produce are just as good. These three sisters are incredible in their build, they have all the right angles, smooth joints and are as feminine up front as you can make them. They have the right rib shape and lower sweep to their under carriage to make easy doing, productive cows for years to come. All three are great structured with big feet and legs to add extra substance any way you breed them. Out of an incredible cow that goes back to the infamous Lazy H Bar 5001 cow, they are bred to make incredible show cattle and equally good replacements. Breed them any way you like, they won't disappoint you!

IMPORTANT NOTE REGARDING BREEDING INFORMATION

The pregnancy status reported is the projected months safe in calf as of sale day.

All of the bred females that are noted "Likely safe AI" are just what that means—likely bred AI. We spent a lot of time preg checking these; we won't get every one right, but we will dang sure get most of them right. The females that only have certain months bred on their breeding means they are likely bred to the GCC Angus clean up bulls, unless pasture exposure is otherwise noted.

We won't get every one of those right either—some of them will calve to an AI date.

620K is bred in the purple with the kind of Angus genetics we have built our entire program around. We will be the first to tell you that Whiskey, Steel Force, even Broker as a whole made those amazing females because of the solid Angus cow base on the bottom side. Embrace the right kind of Angus females, they will take your program to a whole different level. This is the kind to build a program around!

Money Earned has been a favorite ever since he was in the show barn. He is an incredible bull. True cattlemen have seen his breeding potential, and he has knocked it out of the park siring incredible females. Love this one for her overwhelming amount of body and true rib shape, extra foot size and bone and overall shape. The look this female offers is unmatched. Breed her any way you want to and it will be a homerun!

When we used Moto Moto, this is the kind of female we knew he would make. Her dam, 615F, is a beautiful made Angus female that has the look of a Style and the body, doability and makeup of an OCC-bred female. These are the kind of females that are perfect for a base—an extra dose of look from the top and bottom side and the genetic predictability from the OCC.

Power in the pedigree, with donor females written all the way through. Maternal sisters to her dam have brought \$16,000, \$15,500, the \$96,000 Covergirl and countless others. This pedigree is beyond powerful—it is proven and it is profitable. This is a beast for an Angus. Huge bodied, good haired, good looking, and she has all the right parts and the pedigree to make you money...that's what it's all about!

Be sure to see her dam's picture, opposite page.

A direct daughter of Little Debbie, a heifer Maggie campaigned a few years back that injured herself and cut her show career short. In her only outing, she was Champion Angus in both rings at the Oklahoma Beef Expo. This is her first natural calf sired by a new calving ease bull, and she is good! If this is any indication of how she is going to produce, we are pumped. I love this one for the overall cow power and brood cow look that she offers. So incredibly good in the center part of her body with the look of a productive cow up through her neck and head, and her structure is impeccable. Send this one straight to the donor pen!

A friend of a friend...it's how this business rolls. Russel Stinson is big buddies with our good pal Jim Pannel from Wyoming. We bought a set of Angus heifers from him with the words "They are your kind" attached, and our kind they are. This female may not be bred G-, but she is built that way. Soggy made, deep bellied, like the kind we love around here, and the kind of Angus cow you need in your program. Angus females like this are the secret sauce to good 1/2 Maines and Simmies.

A full sister to Little Debbie, the dam of Lot 481 who was campaigned by Maggie for only a short time before getting injured. Debbie was incredible to see with tons of look and body yet had enough power, and her structure was elite. This one is no different. You cannot beat Insight daughters as cows in production, not to mention the cow this one is out of is one of the best in the breed!

If you want the definition of just what we think an Angus female should look like, 636K is exactly the kind we like at Griswold Cattle. Broody, doability, the beautiful Angus head and the perfect udder that comes with it. As a mature cow, 636K is one you won't part with. Study her rib shape, watch her move, look at how she's put together, all things right to make you fall in love.

This is a non-registrable Angus—just call her an A2 from the G-, with a little bit extra in that pedigree that makes her better. You will love these Gold Standard daughters for their wedginess, their broodiness, and their predictability. He has been our go-to calving ease bull for over ten years now because of females just like this. His semen is no longer on the market, so if you want one, you're going to have to purchase one. She's the kind to love, and the kind to make half-bloods!

We bred several of our first calvers to our Red Angus sire Peacemaker, and these are cowy made, wide pinned, good looking cattle. You can sum up 309K in one word: Awesome! When we ran her up the alley to take pictures, John took one look at her and said, "What is that?" She is impeccable in her structure and design. Her angles are right, her muscle structure is right, she has balance, she has style, and she's the front pasture kind. If you had 1,000 like her, you'd be pretty set in life.

JS Black Satin 9B "Boots"
Full sister to Lot 551

740E is known as "Canadian Boots" at our house. She has averaged just under \$10,000 on three head. She has never been flushed, but she has made the goods. There is no hotter pedigree on the market, and the chance to own a full sister to "Boots" is huge. She is young, she is a proven producer, and the sky's the limit as to what she can accomplish. Now is your time to take the Simmental world by storm. Step up to the plate and live your dream—and own one of the hottest pedigrees the Simmental world has ever known!

lots 552 & 553

You will not find a more royal pedigree than these two sisters possess. Broker x Z450, who is a full sister to the great Cerveza, out of Miss Chill 1829, one of the most prolific donors we have ever owned.

Lot 553 is the kind of female that you find as soon as you walk in the pen. Big footed, big hipped, plenty of rib shape—she's just the kind that you can't help but love. We have shown her time and again in our stories on social media. She's the front and center kind of girl. She hails from a long line of donors, and it's easy to see why when you lay your eyes on her.

GCC Miss Whiskey Z450
Dam of Lots 552 and 553

lot 554

Big bodied, big hipped nice female with a look of maternal. Go to the bottom side of this girl's pedigree. The Jody cow family falls right on back to 066, just a different twist to how this line was bred. Same quality and same consistency. Lot 554 produced a \$9,700 bred heifer last year, and she's the kind to do it over and over again. Simply put, G- defined is the 066 cow family.

6 MONTHS / PE 6/3-8/8 COLORADO & LUCKY 13

If you want cows to make herd bulls, then you need to use bulls that look like bulls and cows that look like cows. Females need those feminine traits; they can still have power and thickness throughout, but they need to have the femininity that goes with it. This one thing can be attributed to Loaded Up. He has made as many herd bulls and donors as about any other sire in the Simmental breed, all because of daughters like these!

E225 in her first two calves produced a \$6,300 bull and an \$8,400 female, with her calf this year being a stellar SAM daughter just weaned and headed to the replacement pen. E225 is profitable and productive with the consistency of a Loaded Up half-blood. The right kind of Angus cows on the bottom side is the punch and power to a lot of great high percentage cattle. Start with the right base and work your way up!

Shocker is one of those bulls that you can count on time and again to make profitable and consistent progeny. His daughters are the front pasture kind, and 8224F is no exception. All the early visitors have commented on the rib shape and mass these Shocker daughters have. They have made their fair share of friends.

Liz. We could write a book on “the horned cow.” Somehow she missed the dehorning as a calf, and when she came through as a yearling, she had quite the set already. Garrett was just the age that horned cows were perhaps the coolest thing ever. He put up a fight, and he and Liz both won—she got to keep her rack. As a first calver, when John came to the house, he said, “You aren’t going to believe it, but that little horned cow of Garrett’s has the best calf in the pasture.” The next year he went and let him breed her to a bucking bull, Mossy Oak Mudslinger. Garrett proudly told his whole primary class that his dad had bought him semen for Christmas. Honestly, you won’t find a prettier cow. She is perfect uddered, big ribbed, deep flanked, and super feminine. She has the breeding and the power to make a great one. She isn’t mean with her horns and is as docile as the day is long. There have been a few tears shed and there will be more over Ole Liz. Love her, leave her in the front pasture, and know that there is a boy in Oklahoma who thinks about her every day.

Who doesn't love a redhead? And here's one that's really easy to love. This red/brockle-faced Houston daughter really strikes you from every angle. She is massive in her structure with extra bone, huge feet and stout in her design, bold ribbed and deep bodied with so much look and extension through the front one-third of her body. The Houston daughters have long been mainstays in our program for tremendous look and consistent production. This is one of Glenny's favorite cows, and it's pretty easy to see why! She's made a solid set of bulls every year that are big topped and big footed.

Profit has made some great cattle in this industry, and this lady is no exception. This pedigree is stacked with maternal genetics top and bottom plus a pretty profile. A daughter sells as Lot 411.

lot 584

This is a stout made, good looking female that is as incredible a female as you can put together, both in pedigree and on the hoof. John always laughs that if you are going to make one that is my kind, this is her! Functional, huge ribbed, big footed, and the kind you wish you had 100 of. Her granddam, Miss Whiskey 5069, is a full sister to 5066—two flush sisters that both have left their mark in our program and go back to the original 066 cow family. There is profit written all over this pedigree. Breed her maternal, breed her clubby...she's the kind you can't go wrong with. She raised a \$6,250 daughter.

When we talk about cow power and the ability to transmit it down through the generations, this is the kind of female that does just that. Her daughter Tinker Bell was Garrett's first show heifer and is an up-and-coming donor dam at the G-. You don't find cows with this much overall substance and mass. Bring on the Whiskey and bring on the good! Bred to Bet on Red, she's just the kind to hit it out of the park the first year you own her.

Whiskey, Whiskey, Whiskey! We keep coming back to these pedigrees for the reason that they flat out work. 455F's dam is as pretty a female as you could ever pattern. We have several daughters in our program. Whiskey will always be the gold standard that we go back to for maternal, practical genetics.

Bring on the Whiskey! These are the kind of females that have us come back time and again to use Whiskey in our program. In the prime of her life, Lot 611 has the maternal consistency of Emblazon on the bottom side and the look, power and design of Whiskey. Just close your eyes and line up your cards. This female could work several different ways!

When we talk about consistency, power, and the ability to produce great ones, perhaps no other cow falls into line quite like 5066 and her daughters. That specific line of cattle is one of the most profitable we have ever owned. Full sisters to Lots 623-625 include the famed Miss Boston and countless others that stand in the donor pen here and across the country. Maggie is pulling around a SAM x Jezzabell this year, you will see two open heifers out of another full sister, and we could make a long list of what Boston has produced. Step up to the plate—any of these sisters can hit a homerun!

Daddys Money 55Z
 3/4 Maine sire of Lots 623-629

lot 630

You've seen daughters of Dixie Erica 673R as Angus, as Simmental, and now we are bringing you the Maine edition. There is power in this pedigree! 7509E has as much style and eye appeal as you can put in one with a pedigree of power to back her up. Her dam, 673R, is as pretty as any Angus cow we have ever owned and is a direct daughter of the great 816B, the foundation cow for the Ohlde program. This is the kind of cow that the sky is the limit as to what she can achieve.

lot 631

New Edition stamps his daughters with easy fleshing ability, body dimension, big feet and legs with perfect structure and look to burn. Here's the result of his consistency. Now add a dose of Maternal Made, and you have potent cow power with one of the most sought-after pedigrees in the industry. Study the look and perfect angles of 8438F's skeleton, her body mass and shape along the extra foot size and base at the ground. She is bred right and she is made right!

When it comes to look and design transmitted down through the generations, E468 is the just the kind to take your program to the next level. She produced a \$26,000 heifer calf last year, and her pedigree is STACKED. Top and bottom, she is the kind that is making the good ones day in and day out in this industry. Study her from the ground up...the foot structure, the bone, substance, dimension and style.

Maternal Made. The longer time goes on, the more these are proving their worth in the brood cow pen, and this lady is no exception. Powerfully made, beautifully designed, and the consistent, on point details that Maternal Made is putting in his progeny. Just sit down and look at who made the high dollar ones this year—chances are pretty high in Maternal Made daughters' corners.

We took a week long sabbatical as a family and went cross country to look at what else but cattle. If there was one thing that was a common thread to every stop we made, it was the power of the Maternal Made females on the bottom side. That touch of Whiskey rings loud and clear for generations. 0-04 will go down as one of the most influential females the breed has known.

Lot 640 is a BK Unlimited Power out of the National Champion "Kelli" daughter Whiskey Dreams 30Z, making her a full sister to LDSC Unleashed. Square hipped and cool made, she comes directly from Luke Doris. This pedigree is huge in the steer production world. Granddam "Kelli" is perhaps the most prolific female to ever grace the club calf industry. Nick Reimann had the vision to find her, and this genetic line is unmatched in dollars produced and influence.

This is just the kind of cow that flat out makes me happy. She defines exactly what Gold Standard sires—huge bodied, easy fleshing, and great uddered. This is the reason that he has stood the test of time as a heifer bull. The daughters are the front pasture kind that you never want to let go of. If you are looking for a lady to make you amazing half-bloods, here is your gal. She's just the kind to do it!
