You can tell that no matter how we cross Boots she does not miss, she produced over \$100,000 just this year in the bull sale and the Classic. You can go through a pen and pick out her progeny, they all have the same look no matter how they are sired, she stamps power, and she stamps good in every single one. This calf was in the very last set of ET calves that we had last spring and although he may be the youngest bull of the group he has all the power of his pen mates. If you are planning on making solid replacements this is a bull you need to own.

D131 is one of our very top donors, if you want to talk about powerhouse cows she sits right up at the top. A daughter brought \$30,000 in the Classic. Garrett showed a maternal sister to this bull last year and her and another sister is fixing to walk into the donor pen. The cow power cannot be measured! Volume, big bodied, big ribbed, and brood matrons. When you see this much foot size, this much bone, and big hip you better take note.

Keith Lambright sent us these embryo's, this was one of the very first crosses that was made with Bet On Red and Red Angus, you can tell this is a mating that works. Many of you will remember the half blood Bet on Red x Red Angus in the Classic, sure fire power. If you like them red, and you like them good this bull is right up your alley, clean in his lines, powerful down his top, plenty of muscle, red meat and power, with all the maternal power on the bottom side you could possible want!

She is just one more good reason on why I am so high on Gold Standard, easy doing, perfect size, beautiful udder, and good looking as the day is long. Just look at the rear leg on this bull, he's stout but he has plenty of flex, he moves how he should, and he's backed by maternal, just the kind you want out breeding your cows!

Ponderosa presents an opportunity that does not come along everyday, a full brother to Good Times in a stouter made, soggyer package. John called me when he went up to see this bull and

said, "Jeannie this bull is right up your alley, you are going to love him." The cow power behind Ponderosa and Good Times are what makes those bulls so exciting. A female that has a long track record of getting slapped and standing in the winners circle but more importantly is the fact that she is producing bulls and females that have the same

look and quality as she does. Selling 1/4 Semen interest and full possession, those walking rights will lead to a set of calves and show heifers that will pay for him in the first year. Don't sit on opportunity, create it!

John will be one of the first to tell you this is one of his favorite bulls in the entire offering. Gold Standard females are known for making quality and are the well kept secret of our percentage cattle, The dam of this bull isn't big on frame but she will wean one of the heaviest bulls every year, they are ideal. Every daughter has been kept, perfect udders, volume, and eye appeal. Solid Angus genetics pay for themselves and this is just the kind to make them.
