

CM ARM CUSHION CT

CM ProLine

PRODUCT DESCRIPTION

CMPTK is a positioning cushion developed to facilitate positioning of arms during CT examinations. The arm supports are bowl-shaped to offer a stable position.

The core of the cushion is made of flexible polyether foam. This makes the cushion form adjustable to both smaller and larger patients. The outer material is made of PU-cover for easy cleaning.

- FLEXIBLE
- EASY TO CLEAN
- COMFORTABLE
