HOW TO USE CM TRAUMA COVER

1.Pull the cover over the head part of the trauma mattress and stretch it from the foot end.

2. Tighten the velcro straps firmly around the mattress and secure them direct to the cover.

3. Place the head cushion securely around the patient's head and firmly press the bottom velcro onto the cover.

4. Finish securing the patient's head using the white velcro straps.
Attach the white straps to the sides of the cushion and / or to the red velcro straps.
