## **SIEMENS**

Data sheet US2:QS2200H

Siemens Low Voltage Residential Circuit Breakers Main Breakers - Type QS Breakers are Circuit Protection Load Center Mains, Feeders, and Miniature Circuit Breakers. Type: QSH Application: Electrical Distribution Standard: UL 489 Voltage Rating: 120/240V Amperage Rating: 200A Trip Range: Thermal Magnetic Interrupt Rating: 22 AIC Number Of Poles: 2P

| realiser of poles                                  | <del>-</del>            |
|--|-------------------------|
| Suitability for operation                          | Electrical Distribution |
| Electricity  |                         |
| Continuous current rated value                     | 200 A                   |
| Voltage between phase and Ground (GND) rated value | 120 V                   |
| Voltage between phase and phase rated value        | 240 V                   |
| Model  |                         |
| Product brand name                                 | SIEMENS                 |
| Type of electrical connection                      | PLUG-IN                 |
| Mechanical Design                                  |                         |
| Depth [in]   | 9 in                    |
| Design of the overload release                     | Thermal Magnetic        |
| Design of the product                              | QSH                     |
| Height [in]  | 3 in                    |
| Width [in]   | 6 in                    |
| General product approval                           |                         |
| Standard   | UL 489                  |
