

WOODLAND PLATFORM

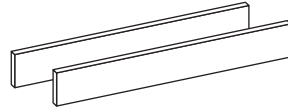

ASSEMBLY INSTRUCTIONS

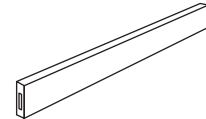

PARTS

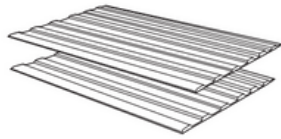

2 End Rails
with legs attached

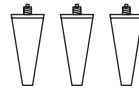

2 Side Rails

1 Center Support
Beam

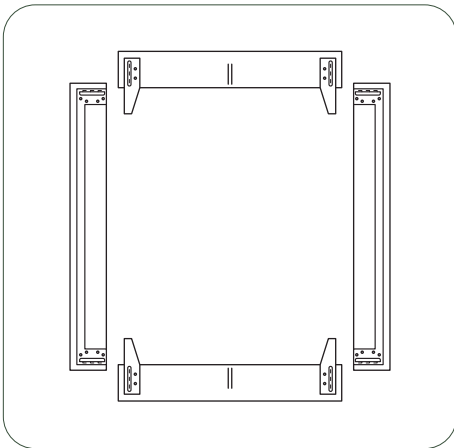

2 Fabric Encased
Slats

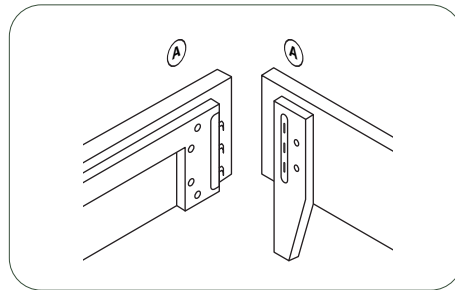

3 Loose Wood
Legs

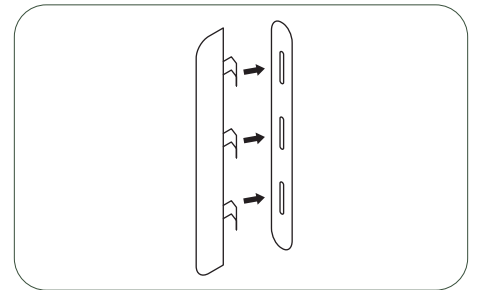

ASSEMBLY

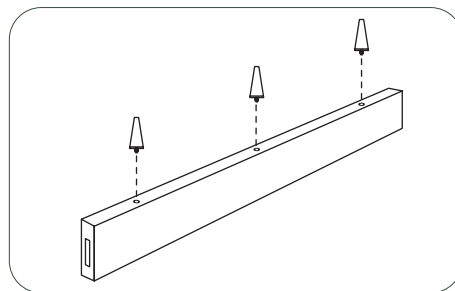

- 1** Layout boards to make a rectangle.

- 2** Connect End Rail to Side Rail by matching up the Letters AA, BB, CC, DD

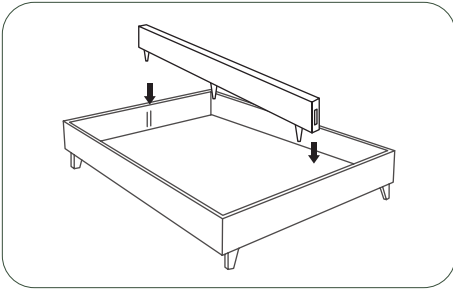

- 3** Confirm the hooks are placed into the brackets secure and tight.

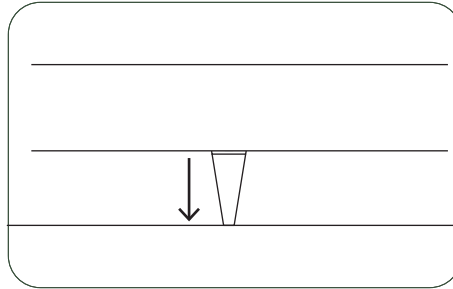

- 4** Screw in the legs to the bottom of the Center Support

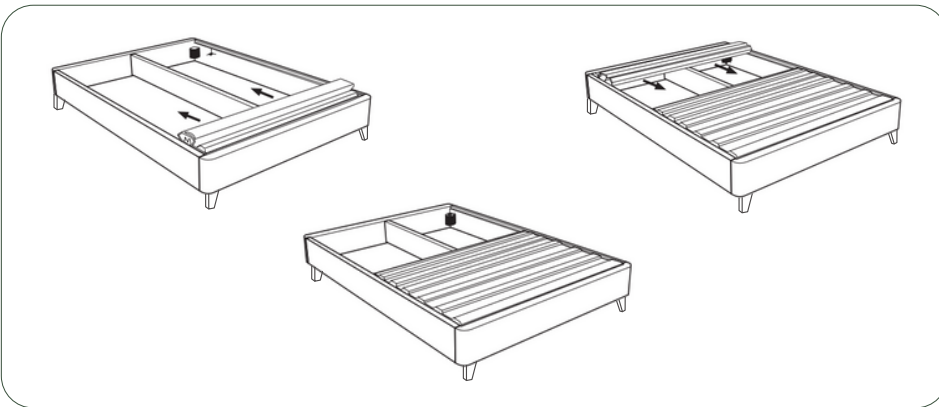

ASSEMBLY

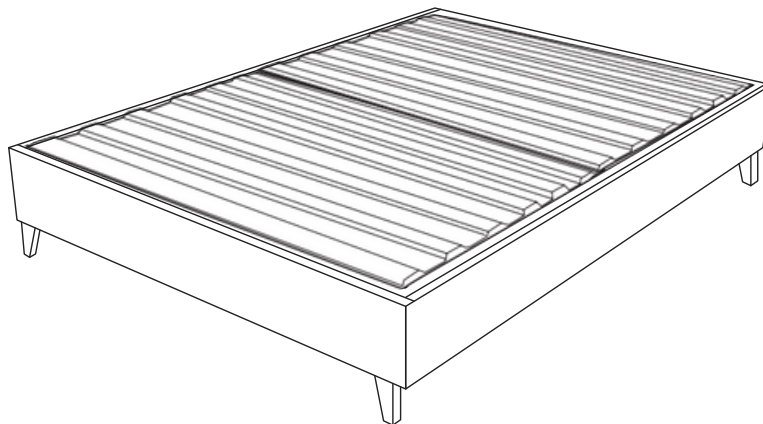

5 Slide the middle support beam into its brackets

6 Remember to adjust the legs to touch the floor, this will give you the best support.

7 Place the slats on the frame with the strips to the bottom and stretch to each end, attach to the Velcro.
