

Mudgee Honey Haven is one of Mudgee's premier tourist attractions with a range of experiences for the whole family. With one of the widest selection of

honeys, you can taste each variety available before you decide on your favourite.

Bee Pollen and Honey Fusion is a specialised bee product made from 100% Australian produce. It is one of the few naturally occurring superfoods or complete foods low in fat and sodium, high in antioxidants, a wide range of amino acids and provides 20% of daily zinc requirements in a standard serve.

Our new formulation now contains the added benefit of Resveratrol. It has proven to be a very potent antioxidant and has shown to assist protection of the body from free radicals, assist with visual function, cardiovascular health and the maintenance of veins and capillaries.

With our original Beepower Fusion ingredients FREEZE DRIED and the inclusion of Spirulina which is approximately 40 times more protein than spinach. Our Beepower Fusion Plus is an "all natural" product and does not contain any colouring, preservatives or additives making this product a unique addition to our range and market.

### Getting There

Directions from Mudgee. From the Mudgee clock tower at the Church St/Market St roundabout, head west down Market Street. You'll pass the old 2MG radio station on your right as you head out of the township on the road to Gulgong. Turn left into the Hill End Road and welcome to the Mudgee Honey Haven.
