

QC71 Single - MH² System

Delivers premium quality water for coffee applications

EVERPURE[®]

APPLICATIONS

Coffee
High flow, higher
volume coffee urns.

FEATURES AND BENEFITS

Provides clear, fresh, premium quality ingredient water for consistently great tasting coffee and beverages.

New and improved Micro-Pure II media inhibits the growth of bacteria.

Everpure's unique filter blend using activated carbon reduces chlorine taste and odor and other offensive contaminants.

Saves energy by reducing scale build-up. Self-contained scale inhibitor feed dramatically prevents limescale from forming in brewing equipment.

Engineered to always feed the correct amount of scale inhibitor into each volume of water.

Precoat submicron technology reduces dirt and particles as small as 1/2 micron in size and reduces health contaminants such as cysts.

Sanitary cartridge replacement is simple, quick and clean.

NSF Certified under NSF/ANSI Standards 42 and 53.

OPERATIONAL TIPS

Change cartridges on a regular 6 month preventative maintenance program.

Change cartridges when capacity is reached or when pressure falls below 10 psi.

Service flow rate must not exceed 1.67 gpm.

Always flush the filter cartridge at time of installation and cartridge change.

Everpure water treatment systems (excluding replaceable elements) are covered by a limited warranty against defects in material and workmanship for a period of five years after date of purchase. Everpure replaceable elements (filter cartridges and water treatment cartridges) are covered by a limited warranty against defects in material and workmanship for a period of one year after date of purchase. See printed warranty for details. Everpure will provide a copy of the warranty upon request.

INSTALLATION TIPS

Never use saddle valve for connection.

Use 3/8" water line.

Allow 2-1/2" clearance below the cartridge for easy cartridge replacement.

Flush MH² cartridge by running water through filter for three minutes at full flow.

The contaminants or other substances removed or reduced by this drinking water system are not necessarily in your water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used with disinfected water that may contain filterable cysts.

EVERPURE reserves the right to update specifications, change prices, or make substitutions without notice.
