

EVERPURE®

DUAL-TEMPERATURE FAUCETS

BEAUTIFUL, COMMERCIAL GRADE FAUCETS FOR THE HOME

Pentair® Everpure dual-temperature hot/cold drinking water faucets deliver cold or ambient filtered water and near boiling instant hot water from a single spout. They are exclusively designed to be used with the Everpure Commercial-Grade Instant Hot Water Dispenser (Solaria™) and other vented instant hot systems. The cold side may be connected to the Everpure Commercial Grade Water Chiller (Polaria™) for refreshingly chilled drinking water or just simply enjoy ambient filtered water from any Everpure Drinking Water System. Everpure Dual-Temperature Faucets feature solid stainless steel construction and are available in Polished Stainless and Brushed Stainless finishes. They are lead-free and feature a ceramic disc type valve for smooth functionality and lasting durability. Blue and red indicators on the handles distinguish hot and cold sides.

Everpure-Dual Temperature Drinking Water Faucets are engineered to be used with:

- Any Everpure Drinking Water Filtration System or Reverse Osmosis System
- Everpure Solaria Instant Hot Water Dispenser Model CGHE-1
- Everpure Polaria Water Chiller Model CGCL-1

FEATURES/BENEFITS

Dual handle design
 Solid stainless steel construction in two beautiful finishes
 Spring-loaded "hot" shut off valve safety feature
 Insulated heat-resistant spout
