

WARNING: Keep out of the reach of children, pets and those unable to adjust the temperature settings

BASIC INSTRUCTIONS

Watch our instructional video and download the full manual at www.lifegivingwarmth.com

1 FULLY CHARGE THE BATTERY PACK

Plug *The Cozee* battery pack into the included wall charger or 12v car charger using the input labelled **CHARGE**.

Charge the battery pack until all four green lights are lit (approximately 6 hours from empty to full).

2 PREHEAT THE BLANKET

Connect the battery pack to the wall charger or 12v car charger to ensure the battery pack remains at full charge during preheating

IMPORTANT! Fold the blanket into thirds and then over on itself for best pre-heating results.

Pull out the battery connection cable from the blanket pocket and connect it to the output labelled **BLANKET**.

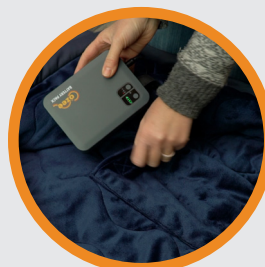

Press the power button to turn on the battery pack and adjust the heat setting to **HIGH**.

Ensure the battery pack remains outside the blanket pocket during pre-heating. Leave for 45 mins to preheat.

3 USING THE BLANKET

Disconnect the charger from the battery pack. Open the blanket and place the battery pack inside the battery pocket, securing the pocket with the velcro closures.

Place your hands inside the heated hand pockets and wrap *The Cozee* around you to lock in the warmth. Heat will continue to increase up to a comfortable maximum temperature of 104°F.
