

## LED LIGHTING SOLUTION FOR COMMERCIAL INDOOR AND GREENHOUSE APPLICATIONS

### GPS-CT18 (4-FT) GPS-CT36 (8-FT)

The GPS Clone Light Series is a 1:1 replacement for a T5 fluorescent light fixture ideal for providing high-performance, efficient illumination for seedlings and plants in the early vegetative state. Its sleek, low-profile and 4-ft /8-ft length fits into low-clearance, vertical farming environments. The GPS Clone Light Series is easy to install and features easy daisy-chaining to connect multiple lights from end to end. The easy connects eliminates the need for an excess of power cords and electrical sockets when running multiple fixtures in a confined space.
