

OA6-110 Cut Sheet

Features

- LED Power Indicator
- Addressing Button
- 6 Individually-Controlled 110V Outputs
- Individual LED Indicator for Each Output
- Double RJ12 Cable Sockets for Easy Connectivity

Overview

The OA6-110 control board is designed to control small 110V pump or solenoid valves (less than 1.5 amps). The OA6-110 has 6 separately controlled 120 volt outlets. Each has an LED indicator to show whether the outlet is On or Off. Up to (5) of the OA6-110 modules can be connected to a single Aqua-x.

M Product Specifications

Dimensional Diagram

Package Content

1 x 110V Control Board
1 x 16ft RJ12 Cable

Input Voltage

120 VAC

Max Input Current

9A

Max Output Voltage/Current

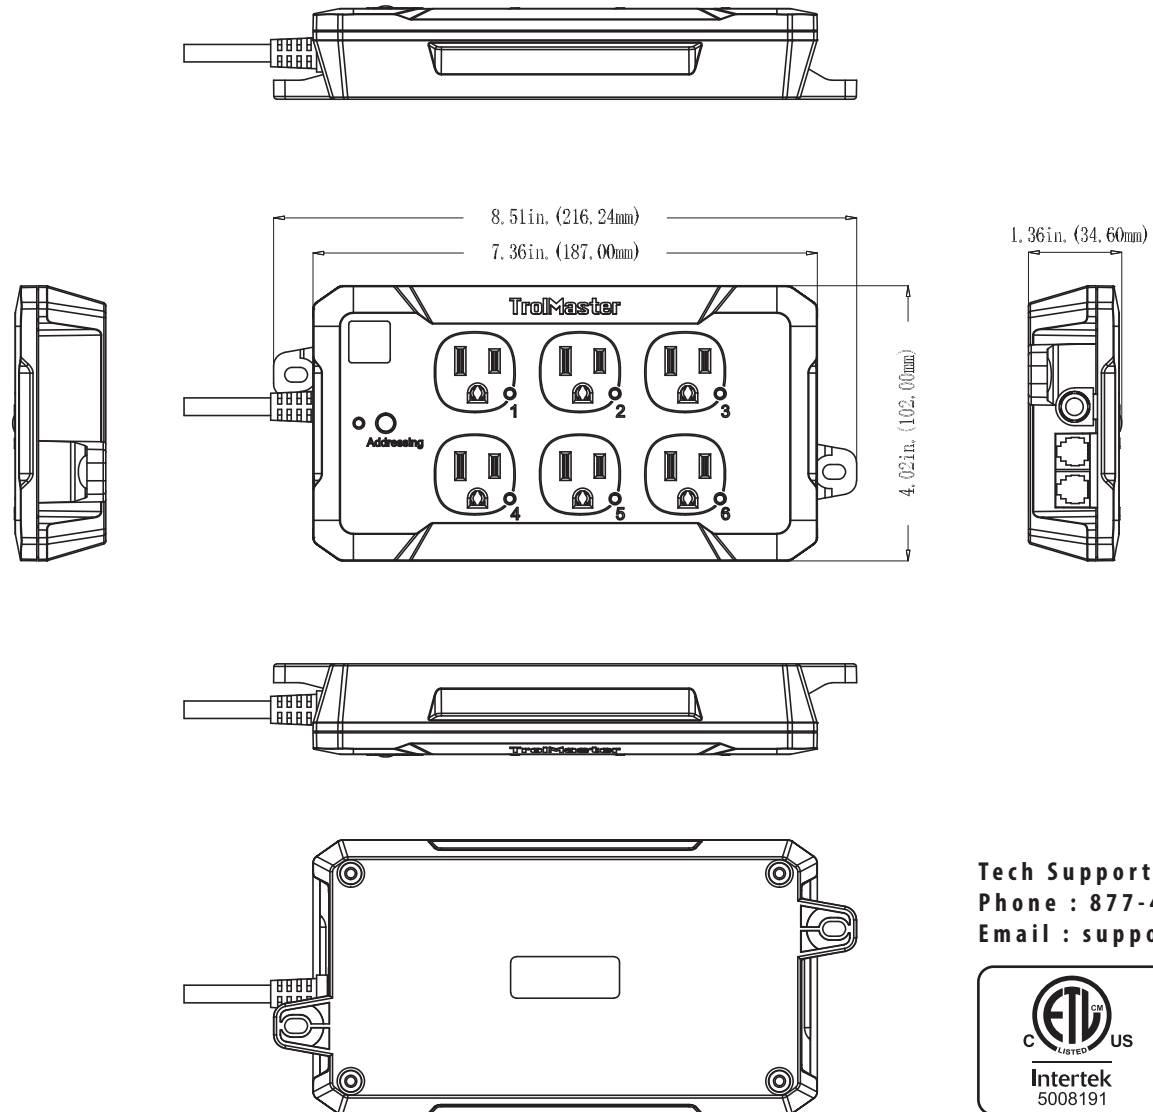

120VAC/1.5A per Output

Working Environments

Temperature 32°-122°F, Humidity=90%

Packaging Dimensions

275mm(L) x 164mm(W) x 62mm(H)
