

# TTT 1600 HC

The Original Bladeless Trimmer  
Hand Trimmed Quality Guaranteed!

## TRIMS. SEPARATES. EXTRACTS KIEF

Trims  $\frac{3}{4}$  - 1 lb / 3-minute cycle or 10 lb/hr

Trim Dry or Trim Wet Using the CO2 Adapter Kit

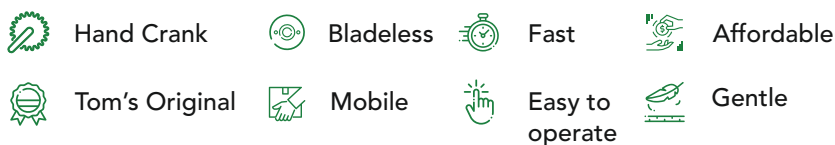

*Hands down the most gentle and effective trimmer on the market.*

Perfect for small sized growers

### Function

Tom's Tumbler TTT 1600 Hand Crank is a tabletop trimmer and has been a bestseller since 2014. The TTT 1600 HC model trims  $\frac{3}{4}$  - 1 lb per 3-minute batch or 10 lb/hr. Wet trimming when utilizing the optional CO2 adapter kit trims 3 lb/hr per batch or 30 lb/hr. System includes one 1/2 inch MeshNet and a funnel flow bag. Additional MeshNets and kief screen can be purchased separately. Tom's Tumblers are gentle on trichomes, terpenes and flower structure.

### Key Features

- Minimal Maintenance
- Excellent Customer Care
- Grower Invented Technology
- 1 Year Warranty

### The Technology

Tom's patented tumble technology allows for the most gentle trim. Insert dry, bucked flower to 3 inches below axle and tumble for 3 minutes. The optimal dryness is 8-11% moisture in the center of the bud. Another way to test is by rubbing your finger downward against the sugar leaves. If they snap off, they are ready to Tumble. The buds trim each other as they tumble against each other without disrupting the trichomes. Turn the hand crank 35 rotations per minute for 3 minutes per batch. The tumble technology removes the sugar leaves gently, allowing them to drop through the 1/2 inch food grade MeshNet. To trim small buds, purchase the optional 1/4 inch MeshNet.

### Included
