

# TTT 2100

The Original Bladeless Trimmer

**Hand Trimmed Quality Guaranteed!**

## TRIMS. SEPARATES. EXTRACTS KIEF

Trims 1-3 lb / 3-minute cycle or 30 lb/hr

*Hands down the most gentle and effective trimmer on the market.*

Trim Dry or Trim Wet Using the CO2 Adapter Kit

*Perfect for medium sized growers*

### Function

Tom's Tumbler TTT 2100 model trims 3 lbs per 3-minute cycle or 30 lbs/hr dry. Wet trimming, utilizing the optional CO2 adapter kit, trims 9 lbs per cycle or 90 lbs/hr. Tom's Tumblers are gentle on trichomes, terpenes and maintain the flower structure.

Quiet

Versatile

Easy to operate

Gentle

- Minimal Maintenance
- Excellent Customer Care
- Grower Invented Technology
- 1 Year Warranty

### The Technology

Tom's patented tumble technology allows for the most gentle trim. The buds trim each other as they gently tumble against each other without disrupting the trichomes. Fill dry, bucked flower to 3-inches below the axle and tumble for 3-minutes. For an optimal trim, assure dry readiness which is 8-11% moisture in the center of the bud. Another way to test dryness is by rubbing your finger downward against the sugar leaves. If they snap off, they are ready to tumble. The soft interchangeable MeshNets are used for sorting and trimming. Use the kief screen with dry ice to extract kief.

### Included

- Trimmer
- Motor
- MeshNets (1/2" & 1/4")
- 151 Micron Kief Screen
- Clear Funnel Flow Bag
- Dust Cover

### Options

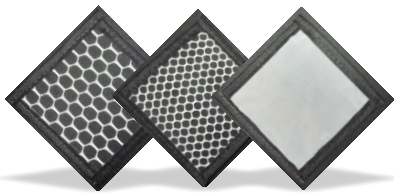

- CO2 Adapter Kit
- Resin Remover / Lubricant
