

Aura 2000

Preroll maker

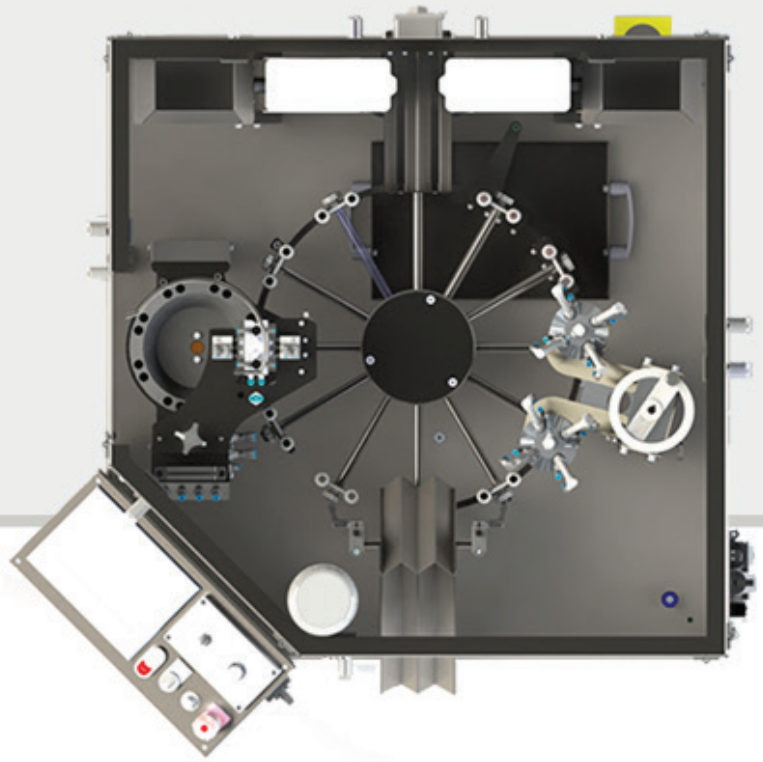

A fully automatic, Single operator industrial capacity machine
Compact footprint and affordable
Hefestus' Aura offers easy operation and production flexibility, made to fit your choice of cones

Hefestus Technologies Ltd, located in Caesarea, Israel, has been a technology leader for over 30 years, developing high level packaging machinery for costumers around the world.

Aura 2000

Preroll maker

Featuring:

- Super quick setup time; up and running in no-time. Adjusting cone size and material preference within minutes
- Reliable feed mechanism of empty cones with the smart grip system that never stops; suitable for any cone size and type
- A precise compression control system - using new materials and super accurate vibrators, Aura mimics hand tapping to get desired consistency
- Industrial IoT capabilities - using Sicomea, enables remote access & troubleshooting and provides smart data management & production reports
- The all-new hands-free tip folding mechanism - synchronized miniature piston system folds and secures cone tips to perfection
- Full Color Touch screen Siemens PLC Controller
- CE Marking Standard
- UL Safety Certification

Specs:

Production capacity	1500-1800 cone/Hour
Machine Dimensions	1099 x 1084 x H1438 mm
Machine materials	Stainless Steel & non-corrosive food-grade materials
Gross weight	346 Kg
Chargeable (air) weight	384 Kg
Shipping Info (crate Dimensions)	120 x 120 x H160 cm
Connectivity	Secure cloud connection with WIFI / LAN

Requirements:

- Internet connection to machine CABLE or WIFI
- Air compressor 6 BAR with 80-120 gallon tank + Air dryer.
- Power Supply: 208-240V 50-60 Hz. 1+N Single Phase 25A
