

Industrial Grinder

By Hefestus

Industrial grinder for dried or frozen cannabis flower

Efficiently separates stems from all parts of flower using a low heat "sifting" process. Precisely cuts dry buds into pre-determined sized "flakes" to be consumed by smoking or vaporizing. The Hefestus industrial grinder outputs superior homogeneous material – tailor made for automation

Hefestus Technologies Ltd, located in Caesarea, Israel, has been a technology leader for over 30 years, developing high level packaging machinery for customers around the world.

PS-5

NAME:	Industrial grinder
MODEL:	PS-5
CAPACITY:	20~30kg/H
POWER SUPPLY:	220V 50Hz 1-Phase.
MAIN MOTOR:	0.55KW
SPEED OF ROTATING CYLINDER:	46rpm@50Hz
MATERIALS & TREATMENT:	Contact parts in SS316
Machine base in CS sheathed with SS304 plates	

PS-10

NAME:	Industrial grinder
MODEL:	PS-10
CAPACITY:	60~300kg/H
POWER SUPPLY:	208V, 3p, 50-60Hz 16AMP.
MAIN MOTOR:	4kW
SPEED OF ROTATING CYLINDER:	55rpm@50Hz
MATERIALS & TREATMENT:	Contact parts in SS316
Machine base in CS sheathed with SS304 plates
