XT-PRO Ag TSHIRTS

DESIGNED BY AN ATHLETE FOR AN ATHLETE

SILVER DNA

Supercharged with silver fibre for killing bad odour caused by sweat residue right from the root.

S.Cafe® and inherent silver treated yarn provide active anti-odour from any sweat build up over time.

Instead of electroplating that uses a lot of chemicals, we use a chemical-free process to permanently bond silver onto S.Cafe® yarn.

Did we also mention the silver doesn't get washed off like many other brands? The lab test result shows it maintains 99% of the anti-stink property after 300 washes.

A longer lasting anti-odour effect that lasts almost a lifetime, that's the main difference that sets us apart.

THERMAL ANTI-STATIC

Random static winter 'zaps' are non-existent.

XTPRO Ag, won't cling to you and steal your warmth.

Keep warm, comfy, dry and cool in summer.

NEED FOR SPEED

Nothing more frustrating than playing in a sweaty, heavy and sticky top

Premium feel, dries faster with style, keeping you fresh while reaching your best performance.

Moisture management system through wicking quick dry and thermal regulation all engineered in one smart package.

ECO-CONSCIOUS

We source the highest quality eco-friendly, ethically produced materials.

All without compromising on, performance, comfort and without sacrificing the environment and causing the apocalypse.

**XTPRO AG WEAR
LONGER | PLAY
HARDER**

HOW IT WORKS

PICK YOUR STYLE

You can choose any of the styles as long as you order 10 units from that style.

SEND YOUR DESIGN

Send us through your design.

Now this is important, your design will need to be in a vector format, either AI file, eps file, PDF files. (in vector not raster)

This is so we can scale your design to any size without compromising quality or clarity.

Each unit will have the Iwi logo placed on it. Tops, the logo is usually on the left chest.

If you do have a design but need it converted to a vector format we can do this for you. This will cost \$200 cper design.

Need a template of one of the styles so you can place your design on it?

Not a problem. Let us know which style you need the template of and we will send you through a copy.

Our templates are in ai file format for use with Adobe Illustrator.

STUFF TO KNOW

A non-refundable deposit fee of 50% is required at the time the order is placed onto our factory.

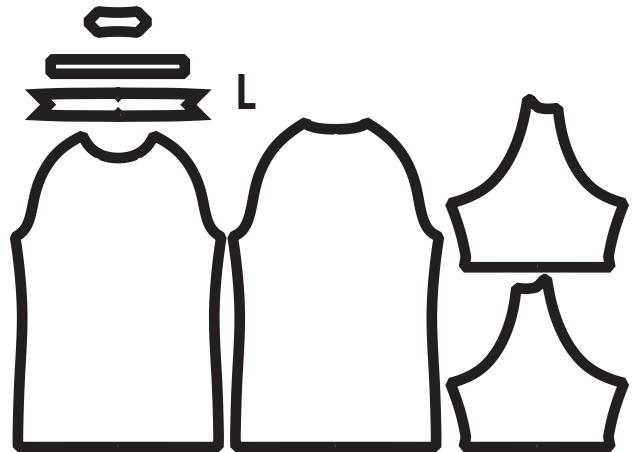

This covers a portion of our costs in the event you need to cancel your order.

Leadtime is an estimation, we are unable to control any unforeseen events that may delay production, nor can we control the shipping gods.

However, we will always do our best to update you on any issues that may arise.

You will need to provide us the design you wish to use in the correct usable format.

Colours will be matched as closely as possible to the design and any pantone references. The Iwi logo will be added onto the unit usually on the left side.

Template Example Rugby Jersey
