

# 3950 SPKL Multicolour Imperial L-keys, imperial, stainless, 5/64" x 101 mm

## L-Keys for Hexagon Socket Screws

<b>EAN:</b>	4013288221384	<b>Size:</b>	101x16x4 mm
<b>Part number:</b>	05022850001	<b>Weight:</b>	6 g
<b>Article number:</b>	3950 SPKL Multicolour Imperial	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82041100

- L-keys for hexagonal socket screws
- Stainless L-keys are hardened to the same strength as conventional (carbon) steel tools, and prevent extraneous rust forming.
- Hex-Plus allows socket head screws to live longer
- Rubber sleeve for pleasant grip
- Hexagonal ballpoint on the long arm

Premium L-key made of stainless steel for imperial hexagonal socket screws by Wera. Stainless steel prevents transmission of extraneous rust. The Hex-Plus profile offers larger contact surfaces in the screw head. The notch effect is reduced to a minimum and the destruction of the screw head is almost eliminated. With hexagonal ball tip at the long arm: The ball-shaped tip profiles enable the tool shaft to be moved and pivoted relative to the screw axis which allows screwdriving "around the corner". Take it easy tool finder with colour coding by size.

## L-Keys for Hexagon Socket Screws

### Stainless L-keys

Stainless L-keys are hardened to the same strength as conventional (carbon) steel tools, and prevent extraenous rust forming.

### Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

### Ball tip

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, "around-the-corner" screwdriving jobs.

### L-keys with a thermoplastic sleeve

L-keys made from circular material fit into the hand better and allow less strenuous work over a longer period. Additionally, the rubber sleeve provides a pleasant grip, particularly in applications at low temperatures. Colour coding and large stamp enable the desired L-key to be easily located. Moreover, the round material keys are more robust, particularly where smaller sizes are concerned.

## Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
