- For socket head screws
- Hexagon ballpoint for work in difficult installation situations
- Tough for hard materials
- 1/4" hexagon drive (Wera connecting series 1)

Tough Wera bits for hexagonal socket screws, for universal use. The ball-shaped tip profiles enable the tool shaft to be moved and pivoted relative to the screw axis which allows screwdriving "around the corner". 1/4" hexagonal, suitable for holding tools as per DIN ISO 1173-D 6.3.

**Ball tip**

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, "around-the-corner" screwdriving jobs.

**Tough-absorbing bits**

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
