

KNIPEX Jaw Protectors for Cobra® Pliers and Pliers Wrenches

Smooth plastic upper and lower jaw protectors easily snap into place and prevent damage to workpieces

Non-marring – offers an extra layer of protection for the Pliers Wrench

Cobra® Pliers jaw protectors have a smooth gripping surface and cover all the teeth

Jaw Protectors for Cobra® Pliers and Pliers Wrenches

Smooth plastic protective jaws for damage-free gripping, holding, and compressing

Cobra® Pliers

> Easily snaps onto gripping jaws of the 7 1/4", 10" and 12" Cobra® Pliers

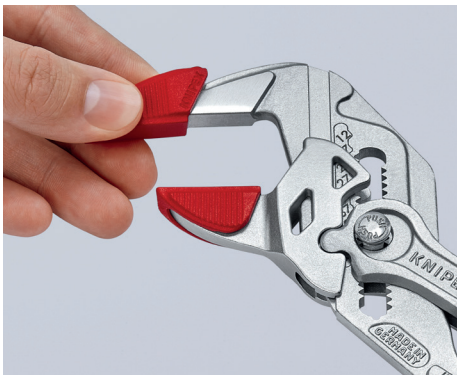

> The protective jaws have a smooth gripping surface and cover all the teeth on the tool

> Updated Cobra® Pliers have a curved adjustment area; if the tool has a straight adjustment area, these jaw protectors will not work

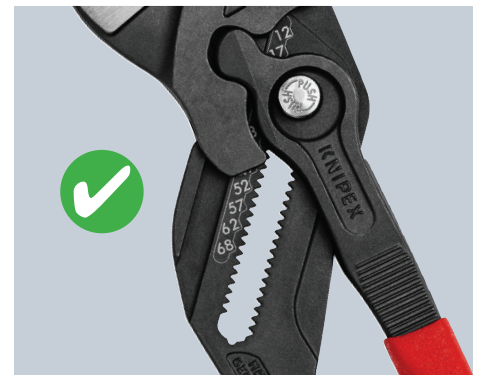

Pliers Wrenches

> Easy to install – Just snap the upper and lower jaws onto the pliers wrench jaws

> Non-marring – offers an extra layer of protection for the pliers wrench

> Updated Pliers Wrenches have an adjustment scale; if the tool does not have the scale, these jaw protectors will not work
