

FARMACY

PRIVATE EVENTS

WELCOME TO FARMACY

Our 100% organic, plant-based flagship restaurant in Notting Hill opened its doors in 2016. We are proud to offer a natural and simple approach to eating locally and seasonally.

Organically and biodynamically prepared between the soil and the sun, each element of every recipe connects us back to our conscious way of eating. Just as nature intended.

Our biodynamic farm in Kent allows us to provide a rapid turnaround from field to fork. What this means is that we're able to serve what we believe to be the most nutritionally packed produce available in the middle of the city.

THE ALCHEMY ROOM

Inspired by nature and decorated with opulent green surroundings, the Alchemy Room guarantees a unique dining experience.

Seating up to 20 guests, our private dining room transitions from a bright, modern dining oasis during the day to an intimate candlelit den at night.

We can help transform and theme the room to suit any occasion. Bespoke menus can be created to meet your requirements, and the hire of the room includes a dedicated waiter, making this exclusive private space perfect for intimate gatherings, special occasions and celebrations.
