

Thinkbaby BPA Free Bottle System : The First BPA Free Bottle Line

- 1st 100% BPA free baby bottle line. Free of BPA, phthalates, nitrosamines, PET, PVC, lead and biologically harmful chemicals. Products made with highly tested materials
- Cross-cut nipple design to mimic natural breast feeding and reduce chance of spillage
- All bottles can be converted into sippy cups or straw bottles
- 0-12 months: vented nipples to reduce vacuum pressure created during feeding
- 9-24 months: silicone spouts to ease transition from baby bottle feeding to sippy
- 16-48 months: straw to engage children in the next phase of feeding
- Soft, neoprene sleeves available in multiple colors and made from eco-friendly limestone
- Easy-to-clean (dishwasher safe)

The Thinker System : Designed to Grow With Your Child

- First bottle system designed to grow with child, allowing parents to go from baby bottle to sippy to straw bottle
- Reduces environmental waste and helps parents save
- Cross-cut nipple design to reduce chance of spillage
- Soft, medical grade silicone spouts and straws to ease transition from bottle or breast feeding
- Easy to convert from stage to stage

Available colors: [orange] [pink] [blue] [green]

No Animal Testing

HEALTHYCHILD.ORG
