

Hybrid Flooring

PRODUCT BROCHURE

HYBRID FLOORS

Hybrid is an innovative, relatively new type of hard flooring which blends the best attributes of vinyl and engineered timber together.

Designed to look and feel like real timber, hybrid floors offer a lifelike finish in various colours and wood designs. Hybrid is incredibly durable, scratch resistant and waterproof, so it's a great choice for families, kids and pets.

The Parkwood Golf Club

SPECIFICATIONS

| | |
|-------------------|--|
| Location | Gold Coast |
| Completion Date | November 2019 |
| Commercial Sector | Entertainment |
| Product | Pure Hybrid Herringbone - White Rustic Oak |

PROJECT BRIEF

The Club at Parkwood Village has emerged as a destination of choice for locals and visitors to the Gold Coast, with the precinct providing a wide variety of versatile space for functions along with an extensive range of dining, entertainment and golf options.

This hospitality area hosts hundreds of guests a day, so visual perception is an important factor when deciding on what type of flooring is most suitable in foyer areas. With the collaboration of Contract floorcoverings and Buchan Gold Coast Architects, NFD exclusive Herringbone White Rustic Oak Hybrid collection was selected to make a statement on the entrance to the club.

Hybrid Herringbone incorporates very distinct patterns and unprecedented designs, inspired by Australian wood species and oaks palettes, offering the stunning appearance of natural wood but with the added benefits and durability of hybrid flooring.

The NFD Hybrid range is 100% waterproof, comes with a lifetime structural and wear warranty and offers a 12-range colour palette to add beauty and style to any space.
