ABOUT NFD

National Flooring Distributors is one of Australia's largest flooring import and distribution companies, servicing the commercial sector as well as over 1,000 retailers nationally.

Operating for over 30 years, NFD is an Australian owned and operated company with its head office based in Southeast Queensland. It employs additional representatives in every state in the country.

NFD sources top tier products from suppliers around the world including Belgium, China, South Korea and the USA. They specialise in flooring that suits a variety of applications, ranging from the family lounge room to retail franchises and right up to high-end multi-residential projects.

National Flooring Distributors is committed to environmentally friendly practices, initiating their Forever & Ever Floor Lifecycle Program as well as achieving Global Green Tag certification Level A. With extensive experience and expertise in the flooring industry, NFD offers peace of mind for any project.

Beecroft Nursing Home Cafe

SPECIFICATIONS

Location	Beecroft Nursing Home
Completion Date	January 2020
Commercial Sector	Health - Aged Care Facilities
Products	 Loom+ Ombre - Coastland

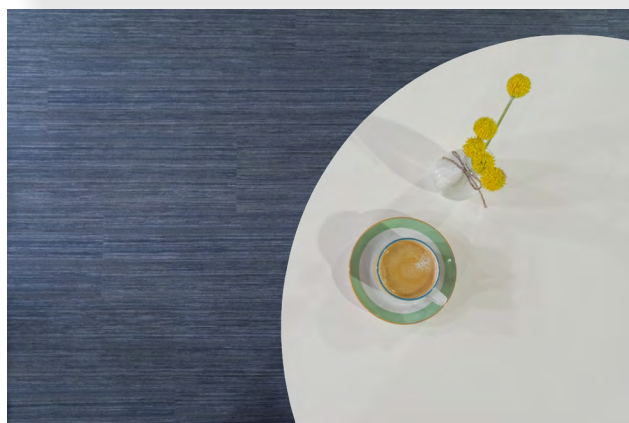

PROJECT BRIEF

When Beecroft Nursing Home's cafeteria section required refurbishment, the experienced team from Newline Carpets set to work to bring this space to life. At a cosy 45m², something visually striking was needed to accentuate the space, with style and grace, but that would also meet the discerning requirements of the aged care sector.

Proudly supplied by NFD, Newline Carpets laid Loom+ Ombre woven vinyl planks in a Coastland colour selection. This selection assisted in creating a neutral balance off the existing wall colours, giving the space a relaxing and inviting atmosphere. The woven vinyl planks feature clean cut finishes preventing the fraying of edges. These clean cut finishes allow for a mix and match of planks to develop a unique look within a room.

On top of its crisp appearance, the woven vinyl's consistent thickness and dimensional stability can stand up to the high traffic and wear that is natural to cafeterias, and the unique requirements of Beecroft Nursing Home. Further serving the cafeterias needs, the woven vinyl planks boasts P4 slip resistance, and prevent liquid absorption, allowing for easy clean-up and protection from stains and dirt.

PROJECT BRIEF

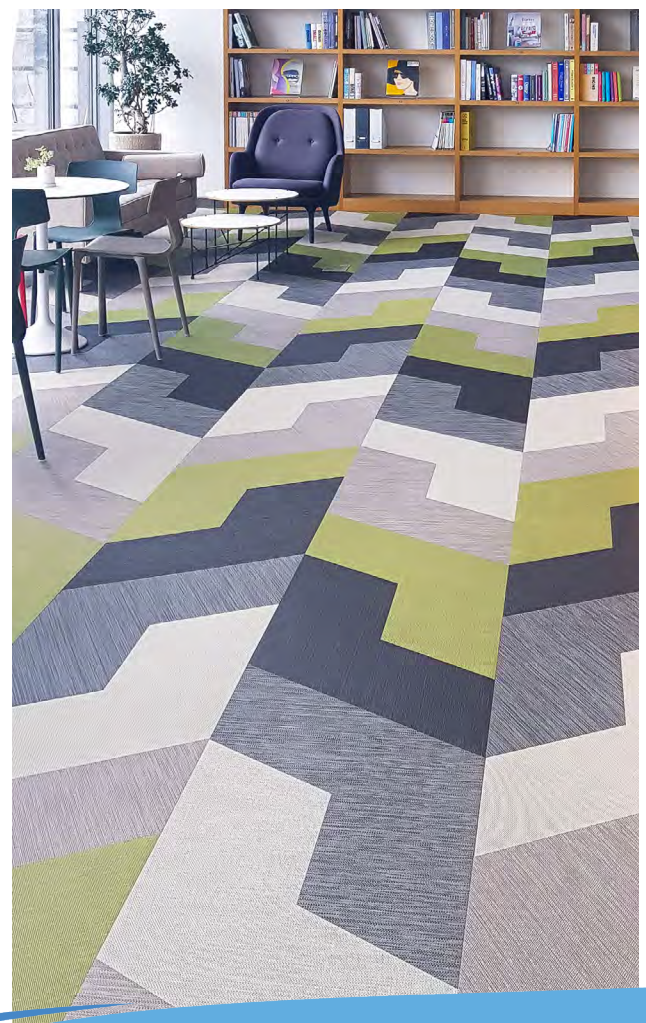

Corporate Office went through a major refurbishment to upgrade its waiting and rest areas. An essential part of the refurbishment was the choice of flooring. There was a need for high design impact using different colours and shapes, but it also had to adhere to safety and hygiene regulations for dining and catering areas.

Loom+ was chosen for its slip resistance, versatility and ease of installation and the ability to create a high spec design without compromising on safety.

The choice of flooring was used to create special effects, whilst playfully and daringly combining 5 different colours and two different modular sizes repeated throughout the room to harmonise the modern furnishing.

Our Woven Vinyl is one of its kind with Extra Ceramic PU coating treatment, using innovative technology NFD woven planks are hot sealed together for an even surface to prevent penetration of dirt and liquid in between the fibres to prove liquid absorption, ensuring long-term easy maintenance and protection. Loom+ Knit flooring is designed with interlaced core yarn fibres and a unique clean cut finish to prevent fraying at the edges.

Loom+ Woven planks produce a diverse range of vinyl flooring in a large selection of colours and finishes, our Woven modular comes in different tile sizes with the same thickness allowing for the endless mix and max patterns to create that unique space.
