

Pacmasta[®]

Vertical Pallet Strapping Machine

Pacmasta UPS-900

The UPS-900 is a quick and economical solution for low volume vertical strapping. It eliminates the use of manual tools and dispensers, its portability also enables users to easily move it beside the load you want strapped without having to move the pallet. The UPS-900 has been redesigned, inheriting all the features from its predecessor, such as the compact strapping head, direct-drive technology with German-made motors and the electronic tension control.

Ultimate Simplicity
Easy operation, simple maintenance

Mechanical Outside Tension Control
Easily set with a dial

Affordable
for every budget

Vertical Pallet Strapping Machine

Pacmasta UPS-900

Standard Features

- Various applications. Suitable for cardboard, concrete blocks and pallets loaded with cardboard boxes.
- Weld-cooling Timer. The weld cooling time can be increased to ensure high joint efficiency under high tension.
- Good for lower height pallets. Designed to strap pallets with a height as low as 380mm.

Benefits

- Portable.
- Ergonomic, economical.
- Removes the need for manual hand tools/dispensers.
