

# SAFETY DATA SHEET (SDS)

Section 1. Identification				
Product identifie	er EH HY.V A			
Other means of	identification EH HY.V PART A			
Recommended u	use and restrictions on use Floor Coating			
Initial supplier i	identifier EPOXY HUB 7688 CENTERVILLE OH T 937-989-262	IO 45459 sales@myepoxyhub.com		
Emergency teler	phone number/restriction on use US CHEMTREC 1 (8	800) 262-8200		
	Section 2. Hazard	identification		
Classification of	hazardous product (name of the category or subcatego			
Skin irritation (C				
Sensitization - S				
Eye irritation (Ca				
Hazardous to the	aquatic environment – Acute & Chronic (Category 2)			
Information elem	ments (symbols, signal words, hazard statements and pr	recautionary statements of the catego	ry/subcategory)	
WarningH315 Causes skin irritation.H317 May cause an allergic skin reaction.H317 May cause an allergic skin reaction.H319 Causes serious eye irritation.H401 Toxic to aquatic life.H411 Toxic to aquatic life with long lasting effects.P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thoroughly after handling. P272 Contaminated work clothingshould not be allowed out of the workplace. P280 Wear gloves/protective clothing/eye protection/face protection. P302+P352 IF ON SKIN, Washwith plenty of water for several minutes. P333 + P313 IF SKIN irritation or rash occurs: Get medical attention. P362+P364 Take off contaminatedclothing and wash it before reuse. P305 + P351 + P338 IF IN EYES, Rinse cautiously with water for several minutes. Remove contact lenses, ifpresent and easy to do. Continue rinsing. P337 + P313 If eye irritation persists: Get medical attention. P273 Avoid release to the environment. P391Collect spillage. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Other hazards k	·	ecordance with local, regional of nation		
	Section 3. Composition/info	rmation on ingredients		
Chamical name	(common name/synonyms)	CAS number or other	Concentration (%)	
	: bisphenol-A-(epichlorhydrin) epoxy resin	25085-99-8	60-100	
Alkyl glycidyl et		68609-97-2	< 10	
Benzyl alcohol		100-51-6	< 10	
	Statement - This safety data sheet provides concentration range(s)		-	
L	Section 4. First-		the trade secret(s).	
Inhalation	IF INHALED: Remove person to fresh air and keep com		you feel unwell	
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NO			
ingestion	rapidly losing consciousness, or is unconscious or convul			
	of water. If vomiting occurs naturally, have victim lean f			
Skin contact	IF ON SKIN: wash with plenty of water. (15-20 minutes	) IF SKIN irritation or rash occurs: Get	medical attention. Take off	
	contaminated clothing and wash it before reuse.			
Eye contact	IF IN EYES, Rinse cautiously with water for several min	utes (15-20). Remove contact lenses, if J	present and easy to do. Continue	
	rinsing. If eye irritation persists: Get medical attention.			
Most important	symptoms and effects (acute or delayed) Causes s	kin irritation.		
Indication of im	mediate medical attention/special treatment In all cas	ses, call a doctor. Do not forget this doct	ument.	
Section 5. Fire-fighting measures				
Specific hazards of the hazardous product (hazardous combustion products)				
specific flazarus				
Carbon oxides an	s of the hazardous product (hazardous combustion product of the hazardous product of thazardous			
Carbon oxides an Suitable and uns	s of the hazardous product (hazardous combustion prod nd other irritant/toxic gases and fumes. suitable extinguishing media	lucts)		
Carbon oxides an Suitable and uns In case of fire: Us	s of the hazardous product (hazardous combustion prod nd other irritant/toxic gases and fumes. suitable extinguishing media se carbon dioxide, chemical powder agent and appropriate	lucts)	ts.

Shield personnel to protect from vent	Firefighters should wear proper ting, rupturing or bursting cans.	

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

### Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

## Section 7. Handling and storage

#### Precautions for safe handling

## Wear gloves/protective clothing/eve protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

## Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: Dust – PEL-TWA 15 mg/m<sup>3</sup> (total dust) & 5 mg/m<sup>3</sup> (respirable fraction);

### Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties				
Appearance, physical state/colour Liquid	Vapour pressure Not available			
Odour Characteristic	Vapour density Not available			
Odour threshold Not available	Relative density 1.12			
pH Not available	Solubility Insoluble			
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available			
Initial boiling point/range Not available	Auto-ignition temperature Not available			
Flash point> 93°C	Decomposition temperature Not available			
Evaporation rate Not available	Viscosity Not available			
Flammability (solids and gases) Not available	VOC Not available			
Upper and lower flammability/explosive limits Not available	Other None known			
Section 10. Stability and reactivity				
Reactivity				
Does not react under the recommended storage and handling conditions prescribed.				
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
None known				
Conditions to avoid (static discharge, shock or vibration)				
None known				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				

	Section 11. Toxicological information		
Information on the likely routes of exposure (in			
Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.			
Symptoms related to the physical, chemical and toxicological characteristics			
Skin irritation, redness, stinging, pain; Eye irritation	on, redness, tearing;		
Delayed and immediate effects (chronic effects	from short-term and long-term exposure)		
Skin Sensitization – Possible; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.			
Numerical measures of toxicity (ATE; LD <sub>50</sub> & 1			
CAS 100-51-6 LD <sub>50</sub> , Oral - Rat 1360 mg/kg; ATE not available in this document.	- 39)		
Section 12. Ecological information			
Ecotoxicity (aquatic and terrestrial information	n) No data available for the product		
Persistence and degradability No data available			
Bioaccumulative potential No data available			
Mobility in soil No data available			
Other adverse effects Toxic to aquatic life. T	oxic to aquatic life with long lasting effects.		
Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contaminated packaging			
Dispose of contents/container into safe container in accordance with local, regional or national regulations.			
	Section 14. Transport information		
UN number; Proper shipping name; Class(es);	Packing group (PG) of the TDG Regulations		
NOT REGULATED			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)			
UN3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (epichlorhydrin); Class 9; PG III;			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)			
UN3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (epichlorhydrin); Class 9; PG III;			
Special precautions (transport/conveyance) N	Aay also be shipped as a LIMITED QUANTITY in accordance with TDG.		
Environmental hazards (IMDG or other) MARINE POLLUTANT			
Bulk transport (usually more than 450 L in cap	acity) Possible		
Section 15. Regulatory information			
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).		
Environmental Canadian regulations specifics	Refer to Section 3 for ingredient(s) of the DSL		
Safety/health/environmental outside regulations specifics			
United States OSHA information: This product is regulated according to OSHA (29 CFR).			
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14. United States TCSA information: Refer to the ingredients listed in Section 3.			

Section 16. Other information			
Date of the latest revision of the safety data sheet March 05, 2021 version 3 (NSS ENTREPRISE INC.)
