

FINT

The Fint armchair is an indispensable companion during everyday relaxation.

Two backrest positions will allow you to adjust the angle of the chair to your current needs. You can also buy a footrest to increase the comfort of rest.

In the back part of the chair there is a place to hang a blanket and put a pillow. On the sides of the seat there are spaces to put a phone or a book.

You can hang textile organizers from the MIO collection on the armrests and increase the functionality of the armchair.
