A man with a beard, wearing a dark jacket and light-colored pants, is sitting on a modular sofa in a modern living room. He is holding a glass of green juice and smiling. The room features a large window with white curtains, a potted plant, framed artwork, and a geometric pendant light. A dining table with a plate is visible in the foreground.

## CUSTOM COLLECTION

We're all here. We're resting, lounging, watching a movie with friends. Our living room is a common space that has to meet many expectations. And when a sofa isn't enough, Custom comes to the rescue.

The module leisure set can be freely put together or apart. You need three separate armchairs? Or maybe two small sofas? Within a few minutes you can completely change your living room.

FLOOR: Skandinavien (treated hardwood) - Kategatt oak

## ARRANGE IT YOUR WAY

Connect and separate the elements, create new compositions using different cushion colors and textures. Shape an interior where you'll love to rest and then change it so that everyone feels at home.

## AND WHAT ABOUT THE TABLE?

It doesn't like to be put aside. It does all it can to be at hand. Its top, cleverly divided into four parts, hides useful compartments. It's the perfect place for little bits and pieces that you always find handy, but don't want on display. One part of the tabletop can be lifted to make a comfortable, hovering table. Practical holes on the top will allow your laptop to breathe with ease.

FLOOR: Skandinavien (treated hardwood) - Kategatt oak

## FOR SITTING AND FOR LYING

Feel like napping? Three Custom modules easily make a comfortable bed. And if you want to cover up evidence of your little forty winks, just hide the blanket in the drawer below the seat.

The seat cushions won't slide down thanks to stripes of anti-slip mat, and the back board of the module will hold the back cushion in place. Various colors and textures of the cushions allow to create your own arrangement that can just as easily be changed.

Ceiling lamp  
Ombra

You can change the colors of the drawers by rotating them. The cushion textures can be freely mixed. There's no place for boredom in the Custom system, but there's space for your imagination.

Muto

The clever escritorio will be on hand when leaving home. Storage, shelf, tabletop - all the important bits and pieces will always be in place. And when needed it will be a miniature office.

Muto Boxes in three colors can be freely placed on the wall and conjoined using a shelf. Add new ones, turn the old ones, create surprising combinations and change them as you please.

## LORI COLLECTION

Every day brings you more important things that are difficult to part with. Thanks to Lori, all these things will find their place either hidden or displayed, always at arm's reach. In your office, living room or home workshop - Lori will help you keep things tidy.

## CREATIVE ORDER

When your office is filled with piles of things, it's difficult to keep focused. Lori brings you lots of adjustable shelves, drawer trolleys and even a handy ladder that will help you reach the higher parts of your bookshelf. And your most important things can be put in the drawers or wooden boxes.

Grulla

Living room or home office - the Lori  
escritoire will fit both. By opening the door  
you can reach the most important things.  
The drawers will organize your papers, and  
the bottom chest will fit even the bigger files  
and folders.

A longer wall? You can extend the bookcase so that it looks custom made.

Thanks to its three colors, Lori allows for original arrangements. Gray oak, cashmere and graphite blend in well with other furniture and rooms. The accordion bookcase has all three of them.

## WHERE WILL I PUT ALL THIS?

A table that extends is a godsend when guests come to visit. Especially if you can easily extend it yourself. The recess in the middle of the tabletop is a perfect spot for keeping cutlery, napkins or decorations. You know best yourself what to put there.

The capacious hutch will surprise you with many practical solutions and will help keep your dining room tidy. The boxes on its doors are as practical as the ones in your fridge. The whole bottom is open, so you can safely store bigger and heavier items there.

## HIFI COLLECTION

Elegant collection of geometric shapes harks back to the landmarks of 20th century architecture following the thought that 'less is more'.

## ELEGANT COLLECTION OF GEOMETRIC SHAPES

The furniture's contours have been designed on the cuboid base and the whole collection contains freely movable modules. This way, any design can be unique because you choose elements like chests of drawers, closets or shelves yourself.

Floor lamp

Putting together vertical and horizontal lines of particular pieces makes the borders between them blend. Irregular compositions of bookcases or chests of drawers will make you feel like a sculptor.

A bright, modern bedroom with a window, a clock, a dresser, and a bed. The room is filled with natural light, creating a warm and inviting atmosphere. The window has a white blind and a wooden sill with two potted plants. A round clock hangs on the wall to the left. A wooden dresser with three drawers and rope handles is in the foreground. A bed with a white headboard and a dark blue blanket is on the right. Two framed pictures hang on the wall above the bed. The floor is light-colored wood.

## R&O COLLECTION

Romeo and Juliet, our clients' longtime favorite, is now getting some new flair with nature inspired 'Polish Birch' decor and handles made from sailing rope. The decor has been designed by Tomek Rygalik. It's a result of his fascination with the endangered gem of Polish nature - the *Betula oycoviensis* (forefathers' birch). It is estimated that only 250 of these magnificent trees are left. The sailing rope handles were designed by Anna Orska. They can be tied in a knot to attach various decorative details. The R&O collection stands out with its light, plain form with original, sentimental detail.

## CLASSIC COLLECTION

Elegant, inspired by the classical style with its attachment to graceful shapes and decorative details. Simple, geometric furniture subtly refers to antiquity through tall pedestals and shapes mildly wider at the top. The fronts are finished with a striped carved veneer making an envelope pattern at the fronts of the drawers.

The Classic Dining room and living room are a space of discrete elegance. And that, along with no compromises in functionality. Choose spacious chests of drawers, extending tables and glass front display cabinets.

Floor lampshade lamp Luna Light

Joining noble shapes and decorative details, the dark tones of this furniture are balanced with silver insets - a delicate stylish touch.

## MODERN COLLECTION

Original design, minimalism and geometric shapes constitute the Modern collection. The Italian design inspired furniture catches your eye with its characteristic inlaid work in contrasting colors. Its modular features and the size of the shapes allow for them to be rearranged freely. The furniture is spacious and functional. Modern gives you extraordinary individualization possibilities. A system of see-through perspex plates on the front of the furniture allows to use your own pictures, graphics or drawings to decorate your interior.

## SPOT YOUNG COLLECTION

SPOT invites you to a world of childhood play. Inspired by hours spent playing outdoors on swings, climbing frames, building secret bases and playing hide and seek, it brings to your room the dynamic energy embedded in its slender, levitating shapes and swinging organizers.

## FOR WORK, PLAY AND STUDYING

Can a bed at the same time be a bookcase and a wardrobe? Of course! See how many functions the Spot bunk bed contains - storage for seasonal clothes, two sliding hangers and two bookcases.

## DESK AT THE CENTER OF ATTENTION

A two-sided desk will work well both for siblings and four friends playing board games. You don't have to place the desk in the corner or at the wall. You design your room and you decide which spot is best for playing, studying and working.

To complement the collection, we have designed a classic couch and a 90x200 bed with a surprising Tipi frame on wheels. You can cover it with fabric - for the youngest it can be an inspiration to build their own secret base and for the older it will allow to compartmentalize their personal zone. At the bottom of the couch, you can install a drawer or an extra bed.

## SMART COLLECTION

The Smart furniture is a never-ending story which opens the door to the world of creativity. If you're thinking of a room ready for change and adjusted to your needs, the Smart furniture can be your constant source of inspiration. The adventure begins with assembling the furniture - that's when you decide what colors the particular pieces will be. Gray? White? Two-colored? What height do you want them? You decide and begin your own design adventure.

## FURNITURE THAT DOESN'T HINDER YOUR IMAGINATION

Meet the furniture that changes along with its owner. This collection is aimed for both younger schoolchildren but also older adolescents. This furniture's special quality is the possibility of change - not just through changing its appearance but also by adjusting it to their exact height, age and expectations.

## MEET YOUR CHILD'S COMMAND CENTER

Your children will spend a lot of time at their desk, so it's very important how this piece of furniture will adjust to their needs. The bar installed at a chosen height can be used for hanging all kinds of organizers and school materials. The double tabletop gives extra space to put the laptop or schoolbooks. Its height can be regulated according to the child's height. The high bookcase overlooks everything and can store books and other items.
