

PELO

The Pelo is a modular collection and consists of three types of solids, one of which comes in two types. This collection allows you to create sets by joining blocks in a linear, corner and mixed manner. Linear joining is the pinning of boxes to each other along a straight line. Corner joining allows you to connect the solids so that a system is connected at right angles.

LINEAR MODULE

Układ liniowy

CORNER MODULE + LINEAR MODUL

Układ narożny + liniowy

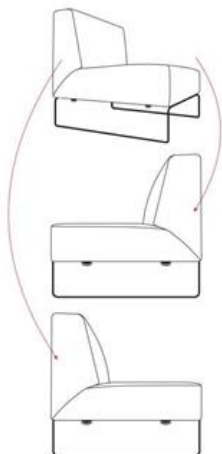

TYPES OF MODULES

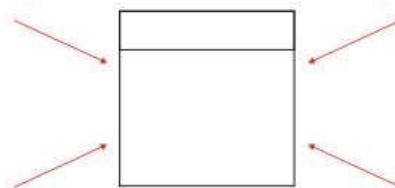

Single module - fasteners are located on two opposite sides of the module (sides), which allows it to be connected to other modules in a linear manner on the left and / or on the right.

Moduł pojedynczy

Montaż zaczepów

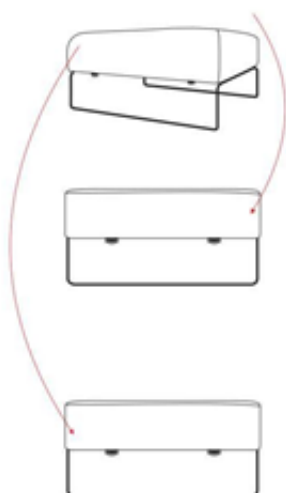

PELO

Pouffe module – the same as in the single module, the fixings are located on two opposite sides of the module (sides), which allows it to be connected to other modules in a linear manner on the left and / or on the right side.

Puf

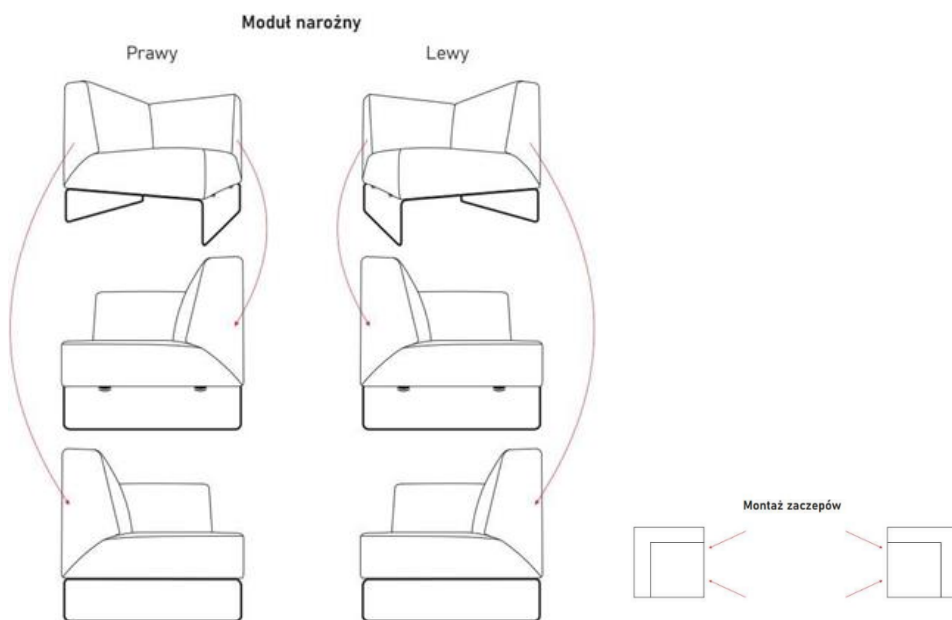

Montaż zaczepów

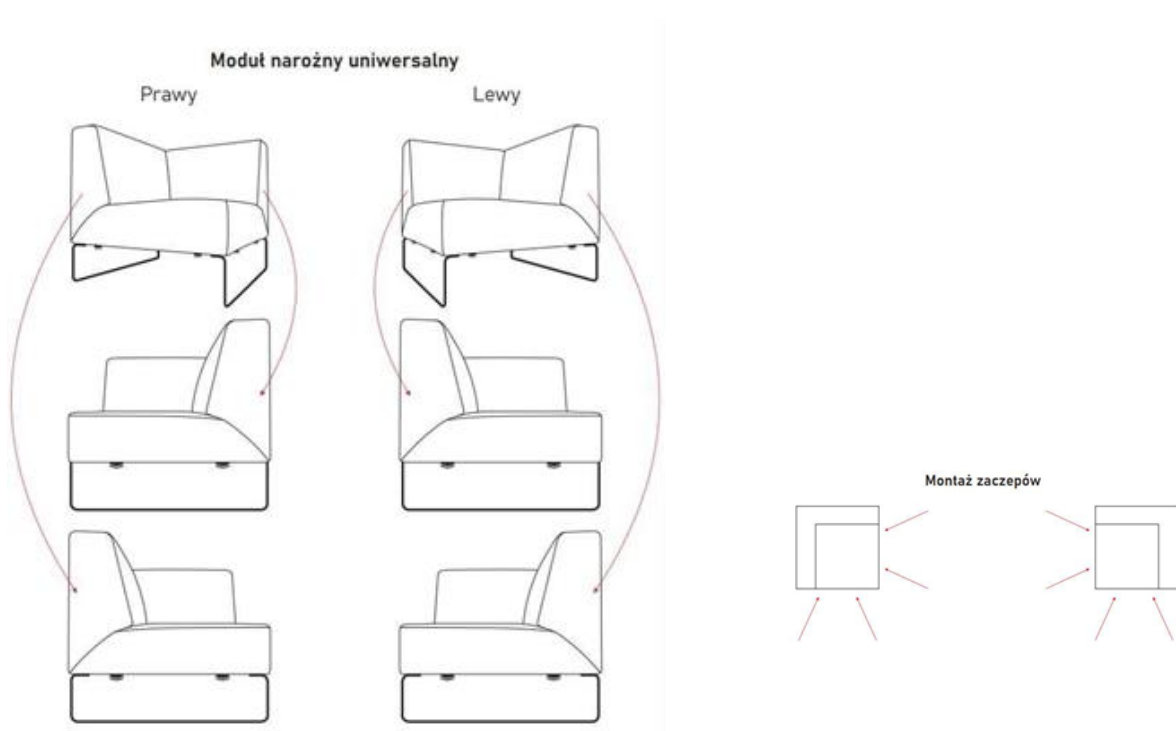

PELO

Corner module (left or right) - the fixings are on one side only, it allows you to connect it with modules in a linear way only on one side specified at the time of ordering process, you must choose: left or right module (it is not possible to fasten the module in other way than specified at the time of ordering).

PELO

Corner universal module - the version of the corner module with a modified base allows you to fasten the module in a corner, for aesthetic reasons (arrangement of bases relative to each other), you should choose: left or right module (regardless of the selected version, left or right, modules can be clipped together opposite).

Shapes and sizes (in cm)

Furniture	Width	Depth	Height
Single module	83	83	81
Corner universal module	83	83	81
Right corner module	83	83	81
Left corner module	83	83	81
Pouffe	83	83	40

Technical data:

- Is recommended to order all furniture sets at the same time due to the possibility of color differences in fabric or leather from different production batches and difference in legs color – complains in such cases will be not accepted;
- Rack frame: beech, pine, spruce wood, furniture board, plywood, fiberboard, black powder coated steel base;
- Backrest: wave springs + T3050 foam, backrest - VP2315 flexible foam;
- Describe modular sets from left to right while standing and looking at the furniture from the front;
- The furniture has an aesthetic finish on the back (it can stand in the middle of the living room);
- Each module is equipped with retractable hooks under the seat (picture below below), used to create individual configurations;

- The overview drawing, showing the ordered modular configuration should be an inseparable element of the sales order.
