THE COMPANY

ABOUT AUDAXPRO®

Great Passion coupled with extensive manufacturing know-how, have positioned AUDAXPRO® as one of the most recognized quality manufacturers in the global diving industry.

Our innovative team, with their spirit to create the best, makes it possible to present a continuous stream of advanced products designed for the professional and recreational diver. Strong R&D enables us to incorporate the latest fabric technologies into our products.

With extreme focus on safety, quality and industrial design we offer ultimate customer satisfaction.

CE AND TÜV RHEINLAND CERTIFIED

Our products carry the CE quality Mark confirming the AUDAXPRO® value proposition.

OUR STORY

ITALIAN DESIGN

Our products are of genuine Italian design and hand-crafted in Europe.

QUALITY

We are the original manufacturer with own research and development focusing on the manufacturing of top quality BCD's. Our entire product development process is kept in-house including product design, material sourcing, manufacturing and stringent testing resulting in optimal product reliability.

CONCEPT

Our design concept could be compared with the technique of operating a parachute. The uninflated BCD bladder is like a parachute, perfectly hugging the human body, minimizing the underwater drag. The bladders are engineered for optimal performance and user comfort.

INNOVATION

Innovation is the key to our success. As the first manufacturer to experiment and successfully integrate new performance materials and fashionable colors in BCD's we have created a new trend in the industry. New fashionable performance products that continue to excite our customers are launched at a rapid pace.

RELIABILITY

The reliability of our products is already a proven fact. Our products feature a double layered bladder system with independent inner bladder and protective outer casing. The highly user-friendly constructions allows the user to change the inner bladder in case of accidental puncture or even the outer protective casing if a color change is desired.

WARRANTY

All AUDAXPRO products are warrantied for 2 years.

This warrants that all new products are free from defects in manufacturing, materials and workmanship for a period of 2 year from date of retail purchase.

The warranty does not cover defects or malfunction caused by misuse, abuse or improper maintenance, failure to follow operating instructions, or use with equipment with which it is not intended to be used. . Also, the warranty will not apply to damage caused by unauthorized alteration, modification or repair of the product. We will, at our discretion, repair or replace any product that proves to be defective in material or workmanship during the warranty period. If your product is no longer being manufactured or is out of stock, we may replace your product with a comparable or improved product at our option.

A large, light gray, stylized letter 'A' is positioned in the background, centered vertically and horizontally. The 'A' is composed of two main triangular shapes meeting at a point at the top, with a horizontal bar across the middle. The overall design is minimalist and modern.
