A Naturopathic Approach to Nourishing Systems

MICHAEL'S® HEALTH NATUROPATHIC PROGRAMS SINCE 1984

Ultimate Detox & Cleanse[™]

Works on four different levels at once:

- *Intestinal tract* and *colon* cleansing support
- Support for *blood* and *body detoxification* systems
- Support for *liver* cleansing
- Support for *fat metabolism* (contains support for fat burning and energy processes and guggul gum for intestinal tract support)

Liver Wellness[™]

(Liver)

- Liver is central to detoxification of body systems
- Toxins and free radicals must be de-activated
- Fat is metabolized in the liver and mixed with bile for digestion and elimination

Thiamin – converted to its active form in the Liver. Also a carbohydrate metabolizer.

Nicotinic Acid (niacin) – for fat and cholesterol metabolism.

Pantothenic Acid – required for the metabolism of fats and proteins (70 enzymes need either pantothenic acid or Coenzyme A).

Lecithin – emulsification of fat and provides phospholipids for incorporation into cell membranes.

Choline and Inositol – metabolism of fat and cholesterol.

Threonine – lipotropic (helps the liver to metabolize fat).

Vitamin A and Vitamin E – both act as antioxidants.

Milk Thistle – supports and stimulates regenerative ability of liver.

B12 – also stored in the liver.

Fiber & More[™]

(Intestinal Tract)

Fiber helps to inactivate toxins in the intestinal tract and increases peristaltic action of the intestinal tract.

Apple Pectin and Okra Fruit – soluble fiber.

Rice Bran, Flax Seed, Psyllium Seed Husk – soluble and insoluble fibers

Butternut Root Bark, Marshmallow Root - insoluble fibers

A Naturopathic Approach to Nourishing Systems

Ultimate Detox & Cleanse[™] (con't)

Fat Metabolism Factors[™]

Choline and Inositol – both are lipotropics.

Lecithin - emulsifies fat.

Iodine, Sea Wrack and Chromium – energy support.

Phenylalanine - stimulates the production of Cholecvstokinin (CCK) which triggers being satiated.

Blood Detoxification Factors[™]

(Blood & Body Systems)

Iron, zinc, manganese and molybdenum - needed for detoxification enzymes.

Echinacea – Well known for detoxification properties.

Recovery Zymes[™] What do proteolytic enzymes do?

Proteolytic enzymes circulate throughout the body, supporting tissues and organs by digesting proteins left over from healing processes, such as immune system action.

This formula, with 10X pancreatin, is the highest enteric coated pancreatic enzyme product on the market: A potent yet economical systemic enzyme support program.

SUPPORTS:

- The pancreas
- Recovery from muscular exertion due to exercise or strenuous activity
- Venous and arterial blood circulation
- An increased need for enzymes due to aging

Enteric-coated to pass through the stomach for successful absorption into bloodstream, not breaking down and being destroyed by stomach acid.

Gently buffered for added pH protection - Calcium keeps enzymes slightly alkaline for protection against their breakdown.

Papain – from Papaya and **Bromelain**, from Pineapple for added proteolytic enzymatic support, protein digestion.

Rutin – a flavonoid with antioxidant activity for support of tissues.

Serving Size	Six (6) Tablet		
Amount Per Serving	% Daily Value		
Pancreatin (10X USP* *)	600 mg	1	
Protease 150,000 USP* * units per serving			
Amylase 150,000 USP** units per serving			
Lipase 12,000 USP** units per serving			
Papain (720,000 USP** units per serving)	360 mg	3	
Anise Fruit (Pimpinella anisum)	300 mg	1	
Fennel Seed (Foeniculum vulgare)	300 mg	1	
Rutin	300 mg	1	
Bromelain (from Pineapple) (2400 GDU***/gm)	270 mg	1	
Trypsin (75 USP* * units/mg)	150 mg	3	
L-Chymotrypsin (75 USP* * units/mg)	6 mg	3	

OTHER INGREDIENTS: Dicalcium Phosphate, Stearic Acid, Modified Cellulose Gum, Vegetable Magnesium Stearate, Clear Coating (Hydroxypropyl Methylcellulose) and Enteric Coating

- **United States Pharmacopeia units of enzyme activity
- * * * Gelatin Decomposition Units

CAUTION: KEEP OUT OF REACH OF CHILDREN. Not to be taken by preanant or lactating women.

A Naturopathic Approach to Nourishing Systems

MICHAEL'S® HEALTH NATUROPATHIC PROGRAMS SINCE 1984

Quick Immune Response[™]

Michael created this formula for his children when they were young.

As the name implies, this formula is designed to provide immediate immune system support.

A simple, but powerful combination of only seven components in very meaningful amounts:

• Vitamin A, (beta carotene), along with Vitamin C, and

Zinc, are fundamental nutrients for different aspects of the immune system, such as:

- the production of antibodies
- tissue growth and enzyme activity
- **Pantothenic Acid** supports adrenal glands and helps in the conversion of beta carotene to Vitamin A.
- Garlic & Goldenseal traditional herbs
- Echinacea for its support of white blood cell production and in immune system modulation.
