**Achieve a Beautiful, Luxurious Outdoor Living and Entertaining Space in Phoenix
with Leisure Time Products and The Home Depot**

***Unique Delivered & Installed Pergola and Gazebo Program Quickly and Easily
Brings Style and Sophistication to Phoenix Metropolitan Area Homeowners***

PHOENIX – If you're not spending your time soaking in the culture and eclectic art on Roosevelt Row, hiking Camelback Mountain or sipping suds at Four Peaks Brewing Co., you may be sitting poolside at home or enjoying a cooler desert night under the palm trees.

As a homeowner, Phoenix is the perfect setting for spending time in the backyard, entertaining guests for an intimate affair, relaxing with a good book or hosting a lively social gathering. Just imagine the colorful, dramatic sunset as it permeates the horizon, lighting up the vastness of the desert with a warm, romantic glow — the ultimate backdrop for any at-home event.

For homeowners looking to set the stage, [Leisure Time Products](#) delivers...and installs. This maker of outdoor home living structures brings Phoenix-area residents the new [Sahara Pergola](#) and [Sonora Gazebo](#) — stunning centerpieces to extend living spaces outside. Whether creating a cozy cottage hideaway, a chic cocktail party or a rustic farm-to-table dinner setting, these wooden retreats frame any occasion.

These pre-stained 12x12 cedar structures, available for purchase at Phoenix-area Home Depot stores, come professionally delivered and installed for a stress-free experience, accelerating the time homeowners can enjoy the space with family and friends.

While the Sonora Gazebo dons a strong, steel roof, shielding guests from the elements, the Sahara Pergola celebrates the sunshine and rain, dispersing a balanced amount of light and shade. String twinkling lights, accessorize with plush pillows, adorn with wild plants or decorate with bohemian rugs. The possibilities are endless.

Unlike other pergolas or gazebos on the market, Leisure Time Products provides an affordable all-in-one solution, delivering and installing the structure on the same day (approximately 10 days after purchase). That means, no more waiting between the delivery and install period with a yard full of materials for weeks on end. In fact, the materials are already in the Phoenix area in a dedicated warehouse, which means nothing needs to be shipped. And thanks to the professional installation that comes with the purchase, homeowners can expect to be using the space in just two to three weeks from the purchase date.

The Sonora Gazebo and Sahara Pergola are available at Phoenix-area Home Depot stores – delivered and installed — for \$3,499 and \$2,499, respectively. For more information, including details on how to purchase, please visit www.LeisureTimeProducts.com or head to your local Home Depot in more than [55 Phoenix-area locations](#).
