

Product introduction

RW-Z series

- **Connected up to 12pads simultaneously via Zigbee (Wireless communication)**
& Available for both a static weighing and weighing in motion
- User can measure a weight with Zigbee (wireless communication) much more easily and comfortably than with a Wire. Also, RW-2000Z indicator can be connected to Max. 12 pads simultaneously. Specially, It's available for both a static weighing and a weighing in motion.

- **Possible to save 140 data of vehicles**
- 140 data of vehicles is possible to be saved, called out and printed. (Data number, date, Truck No, weight)

```
===== FIND DATA =====  
Data Number : 1           → No. of data with same vehicle number  
DATE : 08.11.26.10:11:30 → Measurement date  
Truck NO : 1234          → Measured vehicle number  
-----AXLE1-----  
Pad1 : 1000kg  
Pad2 : 1000kg  
AXLE1: 2000kg  
-----  
-----AXLE2-----  
Pad1 : 1000kg  
Pad2 : 1000kg  
AXLE2: 2000kg  
-----  
-----AXLE3-----  
Pad1 : 1000kg  
Pad2 : 1000kg  
AXLE2: 2000kg  
-----  
Total: 6000kg
```

- **Easy to carry & Compact size/Rugged cast aluminum**

-RW-10/15Z is so compact, slim (900mm x 500mm x 40mm/WxDxH) and light(32.5kg) that user can carry easily it via Handles and wheels. also, it's made of Rugged cast aluminum, so user can measure a weight even on the rough ground.

- **Possible to be charged via Cigar jack in vehicle as well as DC 12V adaptor.**

Cigar jack

DC 12V Adaptor

● Dummy plate(option)

**-User can freely and correctly measure
in various distance between axles
via DUMMY PLATE.**

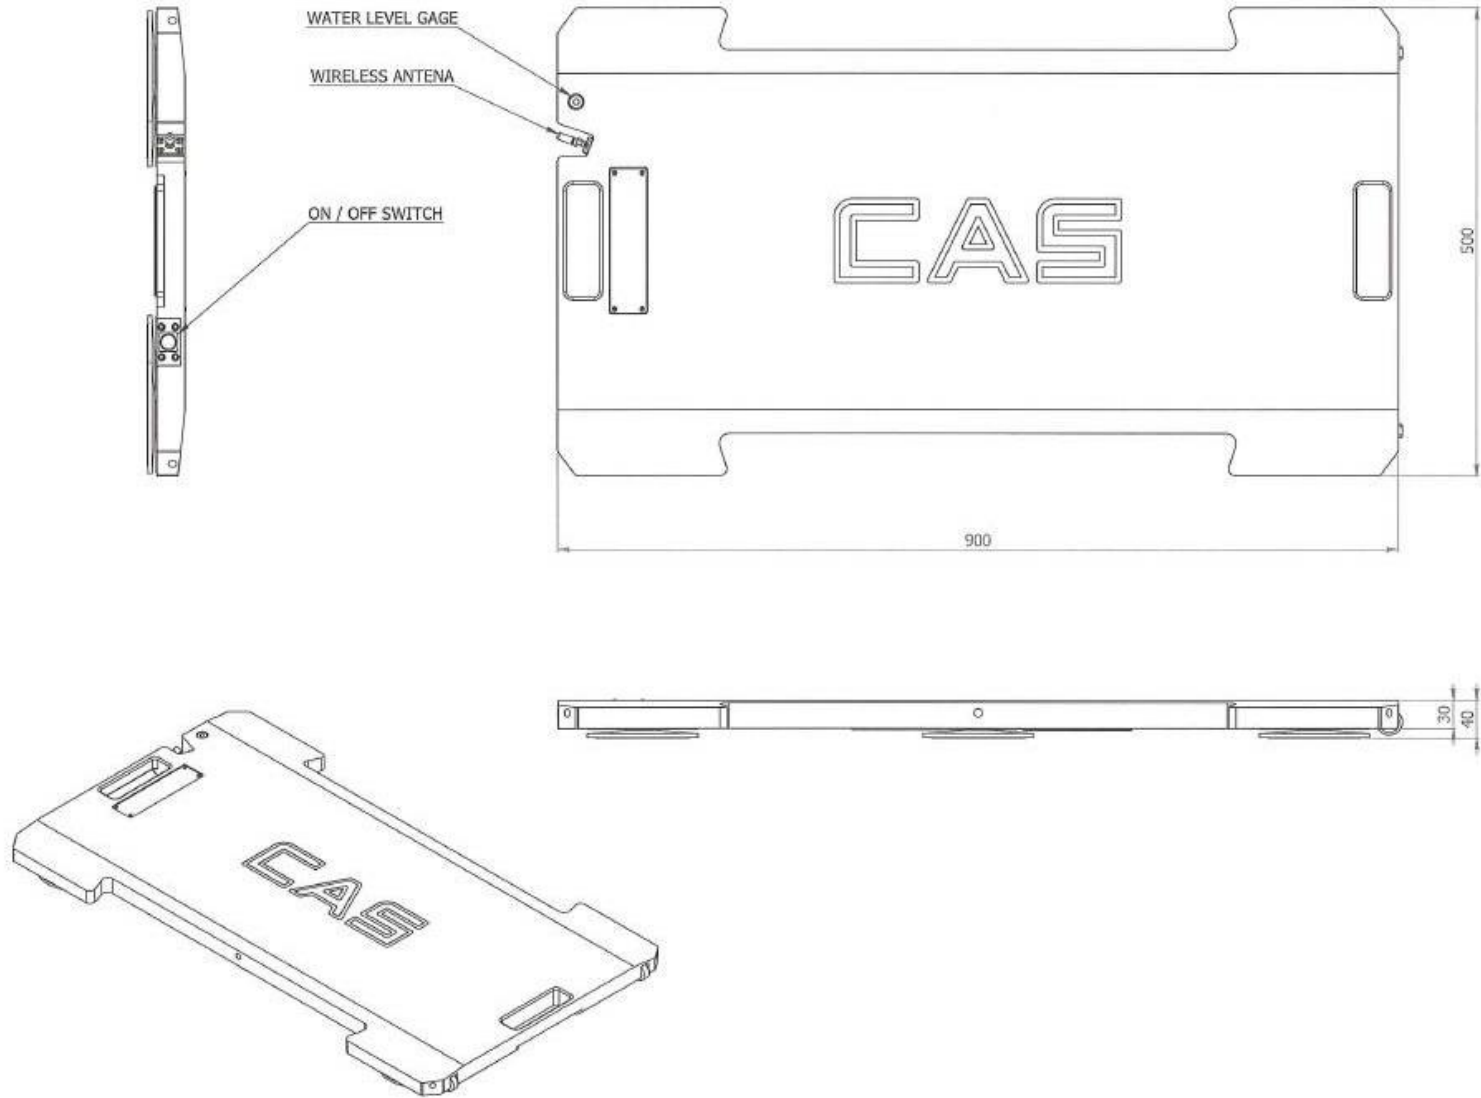

RW-Z

Spec		Model	RW-10Z	RW-15Z
Max. capacity(kg)			10,000 (20,000lb)	15,000(30,000lb)
A/D conversion speed			200 times/sec	
Resolution			1/750	
Operational hours			Approx. 12 hours	
Operational Power			AA size dry battery or 4 units of 1.2V rechargeable battery	
Product size(mm)			900X500X40	
Product weight			32.5kg/71lb	
Ramp	Size(mm)		900(W)x250(D)x39(H)	
	Weight		17.2kg/	

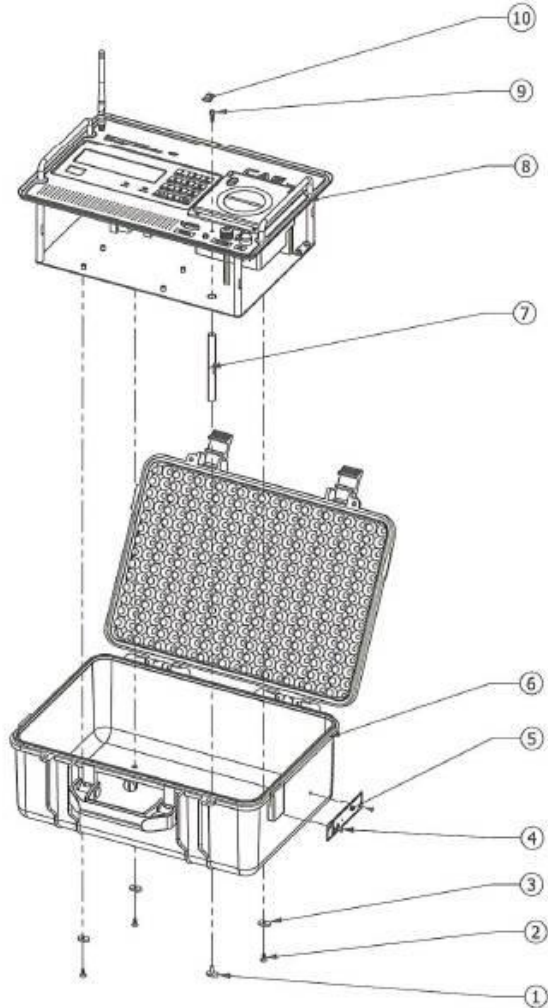

RW-2000Z

Spec		Model	RW-2000Z
Operating power			DC12~24V
Weight display			LCD (6digits & sign)
Pad display			Auxiliary display(2 digits)
Battery operating time			Approx. 48 hours (Recharging time : Approx. 24 hours)
Communication type			Zigbee 2.4GHz
Communication channel			12 channel
Communication range			Open area : 100m/ Presence of obstacles : 30m
Printing type			Dot print
Product weight			10.6kg/23lb

RW-2000Z

Part	Explanation
1.Sub display	Used to display statuses(test, set, calibration etc) and Pad No.
2. Power	Used to supply power and charge a battery of a indicator.
3. Serial port	Used for communication with external equipment.(PC, Auxiliary display etc)
