Veterinary Anesthesia Machine

Reliable anesthesia system with gurney

This combination stainless steel gurney and anesthesia machine is perfect for veterinary use. Great for transferring from a surgery, prep or exam room to an MRI facility, it prevents two or three people from having to maneuver down hallways pushing equipment alongside one another.

AVANTE STAINLESS STEEL GURNEY

This stainless steel gurney is fabricated of 16 gauge stainless steel. Standard dimensions are 24"W x 48"L x 36"H or 26"W x 54"L x 36"H, though custom sizes are available. The table is equipped with two 5" locking castors.

AVANTE PREMIER ANESTHESIA MACHINE

- 0.1 to 4 oxygen flowmeter with rotary float.
- Recessed flush valve to prevent accidental activation.
- SELECTATEC™ compatibility manifold for easy and quick installation of vaporizer.
- 1500 ml CO2 absorber designed for easy and fast replenishing of soda lime.
- Easy and efficient gas sealing.
- Pew momentary closed feature incorporated into the pop-off valve.

Anesthesia components include a 5-year warranty
