

Everyone in the workplace has a legal responsibility for safety. We offer kits that meet & exceed minimum first aid requirements outline in Table 1 of [Saskatchewan's OHS \(2004\)](#). To carry out health and safety within the workplace, everyone must know what their duties are, have the ability to carry out the duties, and have the required knowledge in their field. Section 3-79 of [The Saskatchewan Employment Act](#) outlines the increase in penalty amounts which act as a strong deterrent to those who would ignore the Act and place workers in danger. Maximum fine for individuals is \$500,000 and for corporations is \$1,500,000.

Table 1:

Number of workers at workplace per shift	Close workplace (within 30 minutes from the nearest medical facility)	Distant workplace (between 30-120 minutes from the nearest medical facility)	Isolated (more than 120 minutes of surface travel to medical facility, or if normal mode of transport is aircraft)
1	Minimum	Minimum	Minimum
2 - 4	Minimum	Minimum plus Class A attendant and additional supplies if high hazard work	Minimum plus Class A attendant and additional supplies – if high hazard work
5 - 9	Minimum plus Class A attendant and additional supplies if high hazard work	Minimum plus Class A attendant and additional supplies Blankets, stretcher and splints	Minimum plus Class A attendant and additional supplies Blankets, stretcher and splints
10 - 20	Minimum plus Class A attendant and additional supplies	Minimum plus Class A attendant and additional supplies Blankets, stretcher and splints	Minimum plus Class B attendant and additional supplies if high hazard work Class A attendant and additional supplies if NOT high hazard work Blanket, stretcher and splints

21 - 40	Minimum plus Class A attendant and additional supplies	Minimum plus Class A attendant and additional supplies Blankets, stretcher and splints	Minimum plus Class B attendant and additional supplies if high hazard work Class A attendant and additional supplies if NOT high hazard work Blankets, stretcher and splints
41 - 99	Minimum plus Class A attendant and additional supplies	Minimum plus Class B attendant and additional supplies if high hazard work Class A attendant and additional supplies for other work Blankets, stretcher, and splints	Minimum plus Class A attendant and additional supplies if low hazard work EMT if high hazard work Class B attendant and additional supplies for other work Blanket, stretcher and splints
100 +	Minimum plus 2 class A attendants and additional supplies	Minimum plus First aid room 1 EMT and 1 class B attendant and additional supplies if high hazard work 2 class A attendant and additional supplies for other work Blanket, stretcher and splints	Minimum plus First aid room 1 EMT and 1 class B attendant and additional supplies if high hazard work 2 class A attendants and additional supplies for low hazard work 2 class B attendants and additional supplies for other work Blankets, stretcher and splints
