Installation Instructions
(Ceiling Canopy w/Side Screw Mount)

WE STRONGLY RECOMMEND ALL FIXTURES BE INSTALLED BY A LICENSED ELECTRICIAN.

WARNING:
DISCONNECT POWER BEFORE INSTALLATION.

FOLLOW DIRECTIONS CAREFULLY.

1. Gently place wires from junction box through center hole of mounting bracket and fasten mounting bracket to junction box with screws provided.
2. Connect the fixture's electrical wires to corresponding supply wires (ex. black to black, white to white, green to green/copper). Screw the provided wire nuts on each set of connected wires. Make sure connections are tight and neat with no bare wires showing.
3. Gently fold the wires and connectors into mounting bracket making sure not to damage wire insulation covering.
4. Secure the backplate/canopy to the mounting bracket via the screws provided.
5. Install recommended light bulbs with the correct wattage for the fixture.
6. Restore power.

If you have any questions at all, please do not hesitate to contact us.
