

REFUGIO ASSEMBLY & INSTALLATION INSTRUCTIONS

**WE STRONGLY RECOMMEND ALL FIXTURES BE INSTALLED
BY A LICENSED ELECTRICIAN.**

WARNING:
DISCONNECT POWER BEFORE INSTALLATION.

1. Connect the fixture's electrical wires to corresponding supply wires (ex. black to black, white to white, green to green/copper). Screw the provided wire nuts on each set of connected wires. Make sure connections are tight and neat with no bare wires showing.

2. Gently fold the wires and connectors into the junction box making sure not to damage wire insulation covering.

3. Fasten strap to junction box with screws provided.

4. Gently slide ceramic disk over socket until flush with wall/ceiling.

5. Install provided light bulb.

6. Screw glass globe over threaded socket. Do not over tighten.

7. Restore power.
